regular suit, would be debarred from collecting rent under section 77, which provided that no person should be entitled to collect rent unless he was registered as a shareholder. This was a point on which difficulties would arise. It could not be said that a proprietor who had applied for registration was not entitled to be registered; but because some co-sharer had taken a fancy to dispute the extent of his share, he would be debarred of his proprietary right, and he would be obliged, if he wished to save his estate from sale, perhaps to borrow money to pay the Government revenue.

BABOO KRISTODAS PAL would mention one case which had been brought to his notice the other day. A large estate in the district of Nuddea was claimed by two persons, one of whom was the son of the deceased proprietor, the other was the son of the second son of the deceased. Each proprietor had an eight-annas' share in the estate. One of them wanted to raise money on his eight-annas' share, and he applied to a capitalist for a loan. A deed was executed, but the mortgagee asked the mortgagor to register his separate share in the Collectorate for the payment of revenue under Act XI of 1859, both with the view of protecting his own interest and the interest of the mortgagor proprietor. The mortgagor agreed, and an application was made by him in the usual way. His uncle, who also held an eight-annas' share, now came forward and disputed the extent of interest of the applicant, claiming two annas more than he was entitled to. Things had been going on very smoothly before: both were collecting eight annas of the rents; there was no dispute. But the moment an application for the separation of the shares was made, one party came forward and disputed the extent of the share of the other party It might therefore be easily imagined how this Bill would operate if it was passed with the sections adopted at the last sitting of the Council. There would be disputes, misunderstandings, and litigation, and honest men would suffer. He did not think the Council for a moment contemplated that this should be the result of the proposed law. The object of the new sections was to protect the interest of the ryots; but their indirect effect would be serious injury to the zemindar, whose share might be disputed on frivolous grounds by other co-sharers or even outsiders.

The hon'ble mover of the amendment had proposed the appointment of a receiver in cases of disputed succession; but how would the case be met when disputed possession was not in connection with succession? BABOO KRISTODAS PAL believed that the wording of section 55*a* would apply only to cases of succession. [The HON'BLE the ADVOCATE-GENERAL.—The hon'ble mover is willing to amend the section; it was meant to apply to all cases.]

Then the only question left unanswered was this, that where a proprietor was in possession and had been actually collecting rents, and had according to the law filed an application for registration, but his application was disputed by some person with or without reason—Was this proprietor to be deprived of the right of collecting rents until the application was disposed of by the Collector or the civil court? Mind, he had not been guilty of any laches; it was not his fault that somebody else, tempted by the new law, disputed the extent of his share; possibly his whole claim would be admitted after hearing by the Collector or the court; but if he were debarred of the right of collection on the ground of some objection filed by a third party, he would possibly not be able to realize the rents, which would at once fall into arrear; while he would have to meet the Government revenue from his own pocket, not to say that he must find other means for his own maintenance.

The HON'BLE THE ADVOCATE-GENERAL observed that the hon'ble member was assuming that the applicant was in actual possession; if he was so, he would be registered: the mere allegation that he was not in possession would not prevent him from being registered. Moreover, under the last clause of section 55, if there was any *bonâ fide* doubt as to the extent of interest, the applicant might be registered as to the extent of interest which might be proved, and might make a reference to the civil court as to any further extent of interest which might be in dispute.

After some conversation the following section was introduced after section 55, and the amendment moved in section 78 was agreed to:—

"In any case of disputed possession of, succession to, or acquisition by transfer of the extent of any interest in respect of which application is made under the last preceding section, the Collector may appoint a receiver to collect the rents of the extent of interest in dispute,

and from the sums so collected shall be paid the expenses of management and the revenue due to the Government; and the surplus shall be held in deposit in the Collector's treasury and shall be paid over to the person who shall be registered by the Collector or under the order of the civil court in respect of the extent of interest in dispute."

The HON'BLE MR. BELL said the only question that remained to be considered in regard to this Bill was the proposition that had been suggested to the Council that day, that mortgagees whose names were registered as being in possession should receive notice when default in the payment of revenue had occurred. With regard to this matter he wished to state that a promise had been made in Select Committee to the hon'ble member opposite (Baboo Kristodas Pal) by Mr. Dampier and himself that they would, if possible, draft sections to carry out what they understood to be the intention of His Honor the President in this matter. But when they came to put their sections into writing they found that they would materially interfere with the sale law of the country; and it was objected by the hon'ble member on his right (Mr. Reynolds) that such a provision was foreign to the scope and object of the Bill. And this objection was undoubtedly a very reasonable one. Moreover it appeared both to Mr. Dampier and himself that it would be in the power of the Executive Government by an executive order to require Collectors to give notice to registered mortgagees before the mortgaged estate was sold. Such an order would answer every purpose, and it could be made without in any way interfering with the sale law. For these reasons MR. BELL did not consider that the provisions which the British Indian Association asked should be introduced into the Bill were required.

The HON'BLE BABOO KRISTODAS PAL said he might remind the Council that when the section for the registration of the names of mortgagees in possession was introduced, the object was to protect the interest of such mortgagees. The mortgagor proprietor might default, and the estate might be sold without the knowledge of the mortgagee in possession; and it was with the view of preventing injustice to the mortgagee that the Government decided that the name of the mortgagee should be registered under this Bill; but the remedy provided, unless the proposed notice to the mortgagee in case of default were given, would be incomplete. It was true that the remedy sought for might be given by executive order of the Government. But an executive order was liable to reversal; and although His Honor the present Lieutenant-Governor might issue such an order, who knew whether his successor might not be of a different opinion and withdraw the order? With a view, therefore, to give permanence to the remedy proposed by the Government, he thought it would be consistent and advisable if a section were introduced authorizing the Collector to give notice, in case of default by the mortgagor proprietor, to the mortgagee in possession, requiring him to pay the Government revenue and protect the property from sale. He would therefore move the introduction of a section requiring the Collector to give notice by registered letter to a mortgagee whose name had been registered in case of default of revenue by the mortgagor proprietor.

The HON'BLE THE ADVOCATE-GENERAL observed that the principal objection to requiring notice to be given by law was that, under the existing sale law, the Commissioner, under the direction of the Board of Revenue, might annul a sale on the ground of hardship or injustice; and if notice was required to be given by law, he had little doubt that, in cases of revenue sales, the supposed omission or improper service of notice would be eagerly seized as a ground of hardship to be insisted on; and thus a disturbing element would be supplied by the legislature in cases of revenue sales, which, under the policy of the law, should be made as free as possible from objections of the nature alluded to.

The HON'BLE MR. REYNOLDS said he did not think the proposal of the hon'ble member would do any great good, because, as he understood it, the proposal was to leave it optional to the Collector to issue these notices. Where it was to be a matter of discretion, he did not see that a law was necessary to authorize the Collector to give notice of sale to mortgagees in possession.

After some conversation the motion was negatived.

On the motion of the HON'BLE MR. BELL a formal amendment was made in section 79, corresponding to that made in section 78.

His Honor the President said—"The next motion on the list is that the Bill be passed; but before that is done I am anxious to draw the attention of the Council to section 63, relating to fees. It will be seen that section 63 gives the Lieutenant-Governor power to fix the rates of fees for changes on the registers, provided that no one fee shall exceed one hundred rupees; and it said that "all fees levied under this section shall be expended in such manner as the Lieutenant-Governor may think fit." It was found necessary to refer this section, under the Indian Councils' Act, for the sanction of the Governor-General. We did so some time ago; but we have not yet received the sanction, and I am not certain that we shall receive sanction, because this section virtually alienates by law certain fees or duties which are now levied and credited to the general account of the Government. If hon'ble members will refer to Regulation XV of 1797, from which this section is taken, they will find that this section 63, relating to fees, is taken from sections 3, 6, and 9 of Regulation XV of 1797. Section 3 of that Regulation says:—

"Fees at the following rates shall be levied by the Collectors on the registry of any transfer of the whole or the part of an estate or estates, or lands held exempt from the payment of revenue, by deed of sale, or gift, or otherwise:—

"If the estate shall be subject to the payment of revenue to Government, one quarter or four annas per cent. on the annual jumma or revenue payable to Government from the property transferred.

"If the lands shall be held exempt from the payment of revenue to Government, two and a half per cent. on the amount of the annual produce of the lands transferred."

The Regulation lays down two rates, one for revenue-paying estates, and one for revenue-free lands; while our proposed section 63 gives the Lieutenant-Governor power to fix the rates, provided that no fee shall be more than Rs. 100. This limitation is taken from section 6 of the same Regulation, which provides that no person shall be liable to the payment of a greater sum than Rs. 100 on account of any transfer. Then section 9 of the Regulation says that all sums which may be received by the Collectors under the Regulation shall be carried to the account of Government; our section says that all fees levied under the section shall be expended in such manner as the Lieutenant-Governor may think fit.

The necessity of making a reference to the Governor-General arises from the fact that our section 63 makes certain changes in the rates and disposition of the fees. Our section gives the Lieutenant-Governor power to fix the rates, whereas the old Regulation lays down the rates; and secondly, our section gives the Lieutenant-Governor the power of expending the money as he thinks fit, whereas the old Regulation says that the Collector shall carry the fees to the account of Government. If we were simply to re-enact the sections which I have read, sections 3, 6, and 9 of Regulation XV of 1797, there will be no necessity of a reference to the Governor-General, and we can then pass the Bill. If that should be the pleasure of the Council, then I, for one, would desire to state that I see no objection to that course; because, assuming that the Government of India shall be willing to allow the Lieutenant-Governor to expend the fees as he thinks fit, there is nothing to prevent them from allowing the Lieutenant-Governor to do so by executive order. Therefore I shall be content if the exact words of the Regulation are adopted, and I believe that the native members of the Council would prefer that course, as being more favorable to zemindars."

After some conversation the following section was substituted for section 63:—

"Fees at the following rates shall be levied by the Collector on the registry under this Act of any transfer:—

(1) in the case of revenue-paying lands, one-quarter or four annas per centum on the annual revenue payable to Government from the extent of interest transferred;

(2) in the case of revenue-free lands, two and a half per centum on the amount of the annual produce of the extent of interest transferred:

provided that no fee for the registry of any one transfer shall exceed one hundred rupees.

"Such fees shall be levied from the person in whose favor the transfer is registered.

"All fees levied under this section shall be carried to the account of Government."

On the motion of the Hon'ble Mr. Bell the Bill was then passed.

The Council was adjourned *sine die*.

Monday, the 24th April 1876.

STATEMENT OF THE COURSE OF LEGISLATION.

His Honor the President said,—"Hon'ble members will perceive from the notice on the paper that we are met together to-day in order that I may make a very brief statement regarding the course of legislation in this Council. During the last few months we have had very many meetings of the Council, and the meetings of the Select Committees have been still more numerous, so that, one way or another, hon'ble members have had a great deal of legislative work; and as it is now proposed that we should have a short respite from our labours, I have deemed it desirable to recapitulate in the very briefest terms the results of those labours during the last few months, and also to remind hon'ble members of the work which still lies before us. Now, if hon'ble members will refer to the Statement I had the honor of making in this Council on the 13th November last, they will find that there was laid before them what might be termed a heavy programme of legislation. Well, I am happy to be able to say that in all its most essential parts that programme has been fulfilled.

In the first place there were mentioned measures for the voluntary registration of Mahomedan marriages and divorces; also for providing for irrigation from canals in the provinces under the Government of Bengal. But these measures have been passed into law, and I hope they have begun to take due effect.

But further, there were two very difficult measures relating to municipal affairs—one relating to the municipality of Calcutta itself, and the other relating to the numerous municipalities in the interior of Bengal. The measure relating to the municipality of Calcutta has, as the Council knows, been passed into law, and I am sure that our hon'ble colleague Sir Stuart Hogg will carry this law into effect with the same patience, discretion, and ability with which he carried the Bill through the Council.

The other law relating to municipalities in the interior of Bengal, has also passed this Council.

But besides the measures relating to municipal affairs, there were four very important and heavy measures relating to the landed interests in the country. The first of these was a Bill for making better provision for the partition of estates paying revenue to Government; the second was a Bill relating to the compulsory registration of possessory titles in land; the third was a Bill for inquiry into the rents payable by ryots in certain cases and for the prevention of agrarian disturbances; and the fourth was a measure for the appointment of managers in joint undivided estates. Of these four measures, the first three have passed the Council. The fourth measure, namely the measure for the appointment of managers in joint individed estates, has not yet been brought before this Council; and for this reason, namely that such improvements have been introduced into the measure for the registration of possessory titles in land, that we hope that it will not be necessary to introduce the fourth measure at all. Sections, as hon'ble members will recollect, have been inserted in the Registration Act which will give a great deal of protection to ryots against the liability of their being called upon to pay their

rent more than once upon the demands of conflicting shareholders, and if these sections shall have good effect, which we hope they will have, it may not be necessary to provide for the appointment of managers in these joint undivided estates, especially as we understand that the appointment of managers is not likely to be satisfactory to zemindars generally, and I believe in some cases it is likely even to prove distasteful to them. So I hope that if the Registration Act shall work as well as we hope it will work, we shall be saved the necessity of proposing a Bill for the appointment of managers for the consideration of the Council.

Well, then, it appears that we have passed no less than seven measures within this last session, that is, since November last, of which perhaps two were not very difficult; but the remaining five have been measures of first rate difficulty.

Then there were other measures mentioned in the Statement of the 13th November, which I will call to the recollection of the Council. They were improvements of the Sale Law, that is, the law for the sale of estates in default of payment of land revenue; the amendment of the General Police Act; the prohibition of illegal cesses in navigable channels, high roads, and market places; the consolidation of the Acts relating to the Abkaree or Excise Law; the alteration of the Rent Law in the Chutia Nagpur Province. Well, of these, the Bill for a few detailed improvements in the Sale Law has been dropped; it was not found necessary to proceed with it, as all the improvements it could be expected to produce were within the scope of executive authority. The proposal for the amendment of the General Police Act was, as hon'ble members will recollect I informed them, referred to the Government of India, because whatever is done here might effect neighbouring provinces. But I regret to say that we have never yet received a reply, so I am not in a position to say whether or not we shall be able to produce any measure on this subject. The Bill for the prohibition of illegal cesses in navigable channels, high roads, and market places, after receipt of the reply of the British Indian Association to the reference made to them, was referred to the Government of India. To that reference no reply has yet been received. The consolidation of the laws relating to Excise or the Abkaree has, as the Council will recollect, been partially proceeded with by our learned Secretary, but hon'ble members will readily understand that for the last few months he has been very much absorbed in the current business before the Council, and it has not been possible to make very great progress with that measure, which indeed is of no urgent importance. But as the coming period is comparatively one of recess, it is possible some progress may be made with this matter. The measure for the alteration of the rent law in the Chutia Nagpur province has been referred to the Commissioner of that province with reference to several practical details, and no reply, at least no final reply, has yet been received. But, however, that Bill will not be one of any great length or difficulty.

These are the remarks I have to make in reference to the last general Statement I submitted to the Council in November last. I have yet to add a very few remarks on the measures which have yet to be mentioned for the first time. In the first place there are some improvements in the law for the management of estates under the Court of Wards, which the Board of Revenue consider very desirable. It is possible that we shall prepare a short measure for submission to the Council. Then we have to produce before long a measure regarding ghatwali tenures in parts of the Burdwan, Bankoora, Midnapore, Manbhoom, and Singbhoom districts. That measure is under immediate consideration, and I hope that before long it will be sufficiently worked out to enable us to submit it to the Council. Then it has long been thought desirable to consolidate into one law the various Regulations relating to the land revenue. I dare say the Council are aware that for a long time past measures have been taken in the Legislative Council of the Governor-General for the repeal of obsolete enactments. Now this frequent repealing of obsolete enactments has swept away a good many of the old Regulations, and it is now believed that the remaining Regulations regarding land revenue in these provinces are comparatively few in number, and that it would not be very difficult to consolidate them all into one enactment, which may be passed by this Council, and if passed, will give to all our Revenue

officers, and perhaps what is of more importance to all those great interests which are concerned in this matter, the great boon of a short and available manual to which everyone may refer for authoritative guidance in these affairs. Then lastly, the Government of Bengal has had under its anxious consideration the possibility of preparing some rules and enunciating some principles by law for the determination of rents in disputes between landlords and tenants. There are several hon'ble members present who are peculiarly conversant with this question, and will therefore readily understand the great difficulties which surround it. But it is our hope that we may be able to lay before the public, and before those great interests which are concerned, some proposals which may be found to be just to both parties,—that is, to both landlords and tenants; and if we are able to frame proposals which shall be tolerably acceptable to both parties, it is our hope that before long we shall be able to submit some definite measure upon the subject for the consideration of the Council.

Such then are the remarks which I have to make upon this occasion. I wish that our hon'ble colleague Mr. Dampier could have been present to-day as we all know how much we owe to him for the undivided attention which he was able to devote to the business of the Council. But it will be in the recollection of hon'ble members that on the last day he sat here opportunity was duly taken to record the sense which I am sure we all entertain of the great benefit which we derived from his presence among us. But I deem it desirable upon this occasion to acknowledge before all hon'ble members the great obligations we are under to our learned Secretary for the great legal knowledge and acumen as well as for the great industry and attention which he has displayed throughout this somewhat difficult session. And I cannot conclude this Statement without declaring to the Council my strong impression of the careful, searching, and elaborate manner in which the business of the Council is conducted by all hon'ble members generally, and especially by those hon'ble members who sat on select committees.

The Council was adjourned *sine die*.

IMPROVEMENT OF SUBSTANTIVE LAW FOR DETERMINATION OF RENT.

Minute by the Lieutenant-Governor of Bengal, dated 18th April 1876.

I HAVE now to state what I am able to propose regarding the improvement of the substantive law of Bengal, embodied in Act X of 1859 and Act VIII of 1869, as regards the determination of the rent to be paid by the ryot to the zemindar. These laws have indeed done much to establish the relations between landlord and tenant, and especially between the landlord and the occupancy ryot. But they are for the most part silent on the question, how the rent is to be ascertained and determined in case of dispute. And I have to consider the practicability of supplementing them by some declaration of principles whereby rent may be determined.

2. Our consideration may be narrowed to the occupancy ryots, who have now become a very large section of the tenantry in Bengal; regarding the remainder who have no occupancy rights and may be called non-occupancy ryots, it does not seem to be anywhere alleged that any alteration of the law is needed. By occupancy ryots are meant those ryots who, under the above cited Acts, cannot be ejected so long as they pay a fair and equitable rent, which rent, in event of dispute, can be determined only by a Court of Justice.

3. It may be well at the outset to call to remembrance that by section 18 of Act VIII of 1869 "no ryot having a right of occupancy shall be liable to an enhancement of the rent previously paid by him, except on some one of the following grounds:—

that the rate of rent paid by such ryot is below the prevailing rate payable by the same class of ryots for land of a similar description, and with similar advantages, in the places adjacent;

that the value of the produce, or the productive powers of the land, have been increased otherwise than by the agency or at the expense of the ryot;

that the quantity of the land held by the ryot has been proved by measurement to be greater than the quantity for which rent has been previously paid by him."

Now this section, so far as it goes, is excellent; no man will have his rent enhanced on account of improvements which he himself has made; if he is holding land in excess of the quantity for which he is paying rent, of course he is assessed to rent on the difference; so also if he is paying at rates less than those paid by his neighbours under corresponding circumstances, he is justly liable to enhancement. Still, the section leaves untouched the deeper, the broader question as to what, in reason and justice, ought to be the prevailing rate for occupancy ryots in any district or division of a district; nor is any test afforded in any part of the law for the decision of this question. Yet this is the question which agitates the thoughts both of zemindar and ryot throughout the country. All that can be gathered from the language of the law is that the rent is to be fair and equitable; but the question remains, as to what are the principles on which a fair and equitable rent is to be ascertained and determined.

4. Thus, though the law imposes on the Courts of Justice the responsibility of determining a fair and equitable rent in case of dispute, it affords no specific rule whereby such determination may be arrived at. And in practice, I understand that the courts generally try to follow a leading judgment of the High Court according to which the new rent should bear the same proportion to the present value of the produce as the old rent bore to the old value of the produce, when the said rent was last fixed, or at some subsequent period which may be taken as a starting point; or in other words, the old rent should bear to the increased rent the same proportion as the former value of the produce of the soil, calculated on an average of three or five years next before the date of the alleged rise in value, bears to its present value. Without any disparagement of the wisdom and justice of that judgment so far as it goes, without at all doubting that it may have been the best that could have been given under the

circumstances, still I must observe that, according to this ruling, the justice of the new rent must rest upon the basis of the old. But what if the old rent was questionable—what if it were too high, as perhaps in some parts of Western Bengal, or too low, as perhaps in some parts of Eastern Bengal? Whatever defect may exist in the old rent is necessarily repeated in the new. Again, it becomes necessary to ascertain judicially the amount and value of the produce, not only at the present time, but also at some antecedent time. If such antecedent time be at all distant, as it may often prove to be, then these matters become difficult of ascertainment. Further, if during the interval between that time and the present the productiveness of the land shall have changed, that is, if the land produces now, say, more or less rice than it did—rice being the most ordinary product—a question difficult of solution arises. And the question becomes still more difficult if the produce itself shall have changed—that is, if land which produced rice when the rent was last fixed now produces jute, or linseed, or saffl ower, or other crop; a circumstance indeed which underlies many of the largest disputes in Eastern Bengal regarding the enhancement of rent. In matters of this kind, the disputing parties are apt to withhold from the courts the information which they alone are capable of affording fully; and thus, by the necessities of its procedure, the court is prevented from knowing the truth. The landlord in such a case may wish to induce the court to adopt some principle other than that embodied in the ruling. The ryot will then stand on the defensive, and say as little as he can. Thus it happens that no person can tell beforehand how the principle will work in any given case, or whether any decision can be arrived at; neither zemindárs nor ryots can tell what their relative rights practically are under it; and both parties are often left in a very injurious state of uncertainty.

5. Without, then, at all impugning the merits of this important ruling so far as it goes, I quite share the opinion which is held by many, to the effect that it is very desirable, if possible, to frame some better rule, and to embody it in the rent law.

6. It were superfluous to dwell on the importance in Bengal of adjusting the respective shares of landlord and tenant in the produce of the land; in which matter the most essential element is the adjustment of the shares between the landlord and the occupancy ryot. The landlord may think that by law and custom he has a right to some share in the increased profits of his lands which are cultivated by occupancy ryots; but what that share is, how it is to be ascertained, how it is to be realized, has not been at all settled by law. The occupancy ryot may think that by law and custom he ought to have a share in the increased profits, that there ought to be a clear difference between him and a non-occupancy ryot; but what that share is, and what that difference ought to be, has been nowhere laid down by law. For want of determination of these points by law, some very violent and extensive disputes have arisen between the two parties; other disputes have been with difficulty stopped by executive authority; more disputes are threatened.

7. It is doubtless in part owing to the uncertainty regarding the amount of rent properly demandable that cesses continue to be levied. These cesses are taken partly in lieu of rent. It would of course be preferable that, after the ascertainment of the real amount of the fair and equitable rent, these should be abandoned.

8. If by improvement of the law this state of things could be altered, a great benefit would be conferred on the country. Whether such an improvement of the law can be effected is a question to which I will now address myself.

In my Minutes of the 16th March and the 25th May 1875 were set forth the difficulties and doubts which surround our existing law respecting the determination of rent, and the want of any rules or even principles in the law for the guidance of our courts in deciding disputes regarding the amount of rent demandable; and I invited the opinions of all the principal revenue authorities in these provinces. A précis of the replies received is appended to this Minute.

9. Among the papers thus received, I find two passages which are specially suggestive; these are the following extracts from papers by Mr. H. J. Reynolds, Officiating Secretary to the Government of Bengal, and by the Honorary Secretary to the British Indian Association.

10. In their letter dated the 10th March 1876, the British Indian Association say:—"The majority of the present occupancy ryots having been in the position of tenants-at-will, the Committee submit that it would meet the ends of justice if an allowance were made to them in consideration of the occupancy rights conferred upon them by the legislature on the principle which has been recognised in the Oudh Rent Act. Under the last-mentioned Act, the rent of the occupancy ryot is fixed at 12½ per cent less than the rent paid by the tenant-at-will. The Committee, however, are of opinion that this deduction is too low. They would recommend one-fourth or 25 per cent. A prosperous tenantry is a source of strength to the zemindar, and the Committee hold that enough ought to be allowed to the occupancy ryot to enable him to pursue his industry with reasonable satisfaction. The proportion of one-fourth of the difference to the ryot, and three-fourths to the zemindar, in their opinion, would be fair and equitable. The Committee do not think that it will be difficult to ascertain the competitive rates as a rule. Where the land is let out to a tenant-at-will by the landlord, or by the person in receipt of rent direct, it may be easily ascertained. Where, however, the lands are held wholly by occupancy ryots, the competitive rate may be ascertained by reference to the rate of rent paid by "kurfa" ryots cultivating under occupancy ryots or "jotedars."

* * * * * * *

"The Committee have adopted the principle of the competitive rate, because it is a fair test of the value of land. It is a sure indication of the share of the produce of the soil which the cultivating ryot usually receives, and where it is low from whatever cause, the occupancy rent, as a rule, is also low."

But they go on to say, "where the competitive rate cannot be ascertained"

* * * * * * *

"the Committee would recommend that the value of the gross produce of the land on the average of the past three years (exceptionally bad years, such as those marked by drought or inundation being excluded from calculation) be divided between the zemindar and the occupancy ryot in the proportion of one-fourth to the former and three-fourths to the latter."

11. In justice to the British Indian Association, which represents an important section among the zemindars and landowners of Bengal, I must say that their proposals are liberal, and reflect much credit on them. The terms proposed refer to a tenantry partly consisting of ryots whose occupancy title rests on the fact of 12 years' possession; and they are more liberal than those conceded to the corresponding class in Oudh by Act IX of 1868, or in the Punjab by Act XXVIII of 1868, or, as I understand, in the North-Western Provinces. The fact that they emanate from an association of landlords affords proof of what has been more than once stated, to the effect that a good spirit is being evinced by many of the zemindars toward the ryots. Nevertheless it is probable that they will be thought by the agricultural community to be not more than just even to the occupancy ryots; and this perhaps is a proof of the advancement of the status of the ryots in Bengal.

12. In his note dated 14th June 1875, Mr. Reynolds writes—

"In my opinion, the fairest method would be to compare the rent paid by the occupancy ryot with the highest rent which might reasonably be expected to be paid by a tenant-at-will for the same lands, then, taking the difference between these two rentals, to deduct from it whatever sum may fairly be estimated to be due to improvements effected by the ryot himself, the remainder will then represent what I have called the unearned increment of value arising from causes independent of the ryot's agency. This remainder should, I think, be equally divided between the ryot and the zemindar, for I am unable to see that one of them has any better right to it than the other."

"As an example, let us suppose that a ryot, with a right of occupancy, holds 50 beegahs of land at a rental of Re. 1 per beegah. The land is very productive, and if it were let to a tenant-at-will, the landlord would be able to get Rs. 3 a beegah for it. But a part of its value is due to improvements which have been made by the tenant himself or his predecessors. They have dug wells, or erected embankments, or made irrigation channels, and if it had not

been for these improvements, no tenant-at-will would have given more than Rs. 2-4 a beegah for the land. It thus appears that out of the Rs. 2 which is the difference between the two rentals, 12 annas represent the value of the tenant's improvements, and the remainder being equally divided, it follows that the landlord may equitably claim an enhancement of 10 annas a beegah."

13. It seems to be admitted on all hands that rules will hardly be needed in the law regarding the determination of the rent of the non-occupancy ryot; that may generally be left to mutual arrangement between the landlord and tenant, and to adjust itself just as prices and market rates adjust themselves. This rent rate of the non-occupancy ryot may be taken as the basis for determining the rent of the occupancy ryot. The proportion borne by the number of occupancy ryots to that of non-occupancy ryots cannot be precisely stated: it is probably changing from time to time as tenants go on holding for more than twelve years, and so acquire an occupancy status. Certainly the number of occupancy ryots represents a very large portion—perhaps the majority—of the whole tenantry of the country. Still there are quite enough non-occupancy ryots in every district under zemindars, sub-proprietors, and tenure-holders of different classes, whose rent rates will clearly indicate what the average amount of rent would be if adjusted in open market, without reference to any special rights or status which the tenant might have. There may be variations in such rent, or questions whether in particular cases the rent has been augmented up to a rack-rent, or reduced for special reasons, and so on; but the average rent rates of non-occupancy ryots in each district, or part of a district, are, as I understand, well known and readily ascertainable.

If, however, a Court of Justice felt doubt upon the evidence, it ought to have power to require the Collector of the district to ascertain and certify the average rate according to custom in the district or part of a district. Or if doubt shou d still remain, then the rent of the non-occupancy ryot should be calculated at one-fourth or 25 per cent. of the value of the gross produce, with a further allowance of 5 per cent. to cover risks of season, or 20 per cent. on the whole.

14. The adoption in Bengal of the rate of the non-occupancy ryot as a standard for measur ng the rate of the occupancy ryot would have the advantage of authority on its side, because its practicability has been proved by experience, and because it has been embodied in the Rent Acts passed for the North-Western Provinces, for Oudh, and for the Punjab.

15. Therefore, in disputes between the landlord and the occupancy ryot regarding the amount of rent, I would propose that the difference be ascertained between the rent of the occupancy ryot and the average rent of the non-occupancy ryots in the district; that of this difference a certain share be allotted to the occupancy ryot and the remainder to the landlord, and that the rent be adjusted accordingly; provided always that the rent of the occupancy ryot be fixed less than that of the non-occupancy ryot by 20 per cent., and that full allowance be made for the value of improvements made by, or at the expense of, the ryot. But I think that, in the fixing of the share of the occupancy ryot, regard must be had to the length and the character of his possession. It will be admitted that Act X of 1859, by enacting virtually that a ryot of 12 years' standing should be held to have an occupancy status, did assign to possession of a certain limited duration, a significance not previously accorded in Bengal; there is no doubt of this, however just and proper the decision may have been; therefore the men who have thus become occupancy ryots are not of equal status with old ryots, whose ancestors may have resided on their lands for generations, though they may have occasionally submitted to alterations in their rents. Of such old ryots there are very many scattered throughout the country. It seems to me probable that the zemindars will be disposed to acquiesce in large concessions to the old ryots, who are always much valued and esteemed; while they would look more closely into the terms allowed to those who have become occupancy ryots in virtue of 12 years' standing under Act X of 1859.

16. I would thus propose to take a standing of twenty years as now comprising most, though not all, of those who became occupancy ryots under the operation of Act X of 1859, and allow certain terms to them, and then allow

more and more favorable terms to the ryots of thirty years and forty years' standing respectively.

With the proviso, then, that the rent of the occupancy ryot should always be less than that of the non-occupancy ryot by 20 per cent., and that full allowance be made for value of improvements made by, or at the expense of, the ryot, I propose that in the event of dispute between the landlord and the occupancy ryot, the difference be ascertained between the rent paid by such occupancy ryot and the average rent paid by non-occupancy ryots in the district, or part of the district; and that the said occupancy ryot then be allowed—

one-fifth of the said difference if he be of twenty years' standing;
one-third, if he be of thirty years' standing;
two-thirds, if he be of forty years' standing;

In other words (always with the above-mentioned proviso) his rent could not be enhanced—

beyond 80 per cent. of the difference if he were of twenty years' standing;
beyond 66 per cent., if he were of thirty years' standing;
beyond 33 per cent., if he were of forty years' standing.

17. One or two instances may be given of the working of the above proposal. Let it be supposed that the average rent rate of non-occupancy ryots in a particular district amounts to 3 Rs. a beegah, and in a disputed case an occupancy ryot is paying only Rs. 1-8, the difference being Rs. 1-8 or twenty-four annas. If the occupancy ryot were of twenty years' standing, his rent might be enhanced by four-fifths of the twenty-four annas, or nineteen annas; if of thirty years' standing by two-thirds or sixteen annas; if of forty years' standing by one-third or eight annas.

Now the men who were enhanced by nineteen and by sixteen annas would be assessed to Rs. 1-8 + 19 annas or Rs. 2-11, and Rs. 1-8 + 16 annas or Rs. 2-8. But there is the proviso that a margin of 20 per cent. must be left below the 3 Rs. in favour of the occupancy ryot or 9½ annas, so that this rent could not exceed Rs. 2-6½. In both these cases then the award would be reduced from Rs. 2-11 and Rs. 2-8 to Rs. 2-6½.

Or let it be supposed that the average rent rate of non-occupancy ryots amounts to Rs. 2 per beegah, and an occupancy ryot is paying only 14 annas, the difference being 18 annas. If he be of twenty years' standing his rent might be enhanced by 14½ annas, or up to 14 + 14½, or Rs. 1-12½; but the proviso would reduce the award to 20 per cent. below Rs. 2. or to Rs. 1-9½. If he were of 40 years' standing his rent might be enhanced by 6 annas (one-third of 18 annas), that is up to 14 + 6 annas, or Rs. 1-4.

Again, if the rate for non-occupancy ryots be Rs. 3, then, if an occupancy ryot is paying Rs. 2-6½, his rent cannot be enhanced; if it be Rs. 2, then, if the occupancy ryot be paying Rs. 1-9½, his rent cannot be enhanced.

18. It is not proposed that these rules should affect those ryots who come under section 4 of Act VIII of 1869, which lays down that if the rent at which land has been held by a ryot has not been changed for a period of twenty years before the commencement of the suit, it shall be presumed that the land has been held at that rent from the time of the permanent settlement, unless the contrary be shewn, or unless it be proved that such rent was fixed at some later period.

19. I have endeavoured to propose these rules in a manner that shall be just both to the zemindar and to the occupancy ryot. As regards the zemindar, they define his share in the increased profits of the land and in the "unearned increment"—a share to which he is admitted to be entitled, but which is at present so indefinite as to be almost impossible of realization. As regards the occupancy ryot, they formally recognise by law the principle that he is entitled to a definite share in the profits of the land to which his labour is devoted—a principle which is probably acknowledged indirectly, but which operates in a very uncertain manner from the want of definition in the law: by these rules indeed, it is proposed to lay down, for the first time in Bengal, the share in the increase which ought to belong to the occupancy ryot.

20. A draft Bill will be prepared in accordance with these proposals, which, if generally approved, might be introduced into the local legislature as a continuation of section 18 of Act VIII of 1869, already quoted in this Minute; and I desire that these proposals may be circulated, among those who are concerned, or who take interest in this important matter; in order that it may be seen whether such proposals are likely to meet with general acceptance or not; and if they are, then whether any improvements or modifications in detail can be suggested.

RICHARD TEMPLE.

Précis of the opinions of the officers consulted on the subject discussed in the Lieutenant-Governor's Minute of 25th May.

REPLIES have been received from all officers consulted.

The Commissioners of the Presidency and Chota Nagpore divisions consider it impracticable to lay down any general rule, or indeed to legislate in any way.

The conclusion of the Officiating Commissioner of Dacca is practically much the same, as he would deal with every case on its own merits, leaving the decision to two arbitrators, one appointed by each party, and a Deputy Collector as referee.

The letter of the Commissioner of Burdwan is worthy of attention, but it scarcely touches upon the present question, being really an argument in favor of altering the present procedure in rent suits.

Mr. Schalch would maintain the principle of proportion as laid down by the High Court in the great rent case of *Thakooranee Dassee*, i.e., that the enhanced rent ought to bear the same proportion to the present value of the produce as the old rent bore to the former value; but he considers it essential that the cases should be tried by revenue courts.

The Officiating Commissioner of Patna is also in favor of the principle of proportion, but he thinks the question not an urgent one in Behar, where the metayer system is so prevalent and enhancements are almost unknown.

The Officiating Commissioner of Bhagulpore thinks enquiry is necessary to ascertain what the standard rate should be, and he would not apply the standard rate to any except occupancy ryots.

The Commissioner of Orissa would give the landlord six-sixteenths of the *estimated* gross produce. He would have a schedule drawn up, showing what is to be taken to be the gross produce of a beegha of land, and what its selling price. But he says that the question of enhancement does not materially concern Orissa.

The Commissioner of Chittagong would give the landlord one-fourth of the gross produce. But when the amount of that one-fourth has been once ascertained, he would fix the rent at that sum for 20 years without variation.

The suggestion of the Commissioner of Rajshahye, that the right principle is to regulate the landlord's share of the rent according to the proportion which the land revenue bears to the rental, has not met with any support.

The Officiating Secretary to Government in the Revenue Department considers that the rent of land is the price paid for the use of a natural agent in the possession of another person. In the case of tenants-at-will the proper price is the price which persons will ordinarily be willing to give: in other words, the matter may be left to be regulated by the law of demand and supply. In the case of occupancy ryots the rent which would be paid by a tenant-at-will should first be ascertained: from this should be deducted the value of any improvements made by the ryot himself or his predecessor; and the balance* should be equally divided between landlord and tenant. The question of landlord's improvements may be omitted from the calculation, as they are practically unknown: but where they exist, their value should be added to the landlord's share.

* i.e., the difference between this remainder and the rent actually paid by the occupancy ryot.

The British India Association desire to adopt the principle of the Oudh Rent Act, by which the rent of the occupancy ryot is fixed at a certain percentage below that of a tenant-at-will. But they consider that an allowance of 12½ per cent., which is given in Oudh, is too small a deduction, and they would fix the rent of the occupancy ryot at 25 per cent. below the competitive rate. They consider that the competitive rate is a fair indication of the share of the produce of the soil which the cultivating ryot usually receives, and that where it is low from any cause, the rent of the occupancy ryot, as a rule, is also low.

The Commissioner of Rajshahye, in a communication subsequently received, sends up a detailed note on the question by Mr. Nolan, the officer in charge of the sub-division of Serajgunge in Pubna, in whose conclusions he generally agrees. Mr. Nolan thinks that little or no change in the substantive law is required: he would insist more strictly on the registration of leases, as the best means of ascertaining the actual prevailing rate; he would forbid enhancements except after legal notice; and would ascertain the proper amount of enhancement by applying the rule of proportion.

Mr. Dampier would take the competitive rate as the basis, and would make a deduction from it in favor of the occupancy ryot. But he suggests for consideration the adoption of a rule which would make the decrease in the purchasing power of silver the measure of the enhancement which may be demanded. On this principle the rent might be raised to the amount which would purchase, at present prices, the same quantity of rice (or other prominent staple) as the present amount of rent would have purchased when the rent was fixed, or at any subsequent point of time during the tenancy which the zemindar may select for proof. But Mr. Dampier thinks that fuller enquiry should be made before any final decision is arrived at.

Minute by the Lieutenant-Governor of Bengal, dated the 25th May 1875.

WHEN I was preparing the Bill now before the Legislative Council, for transferring to the revenue officers the jurisdiction in rent disputes, under circumstances where agrarian disturbances might be threatened, it was represented to me that the Bill did no more than provide an effective procedure in cases of trouble, and contributed nothing towards the determination of the principles which should guide the local authorities in deciding these disputes: in other words, that the Bill related to procedure only, leaving the substantive law respecting rent and the relations between landlord and tenant exactly where it has heretofore been. This representation I knew to be quite correct. I desire to take up immediately the question of procedure and jurisdiction, as being necessary for the prevention of agrarian disturbances, which might at any moment threaten to arise. And I intended advisedly to avoid joining with this comparatively summary consideration the questions which are frequently agitated regarding rent and regarding landlord and tenant, inasmuch as these questions are, in Bengal, perhaps the most difficult of all questions that can be raised, and must, if touched at all, occupy a long time and cause protracted deliberation, and might, even after all that, fail to arrive at a satisfactory solution. It would not, in my opinion, be expedient to defer rendering the procedure effective in circumstances of possible trouble and urgency, until we can achieve the as yet uncertain result of revising such an important law as the rent law.

Still, I bear in mind that many zemindars in Bengal are anxious that something more definite than anything which is now prescribed should be laid down by law regarding the determination of the landlord's share in the produce of the land or in the profits of the cultivation, and that some of our best revenue officers hold a similar opinion—Mr. H. L. Dampier, for example, Secretary to Government and Officiating Member of the Board of Revenue. It is much more difficult to gauge the views of the ryots or the tenant class; but so far as can be gathered from indications of their views, it seems probable that they entertain a similar wish. The apprehension seems to be gradually gaining ground that sooner or later there will be more or less of contest between landlord and tenant as to the principles on which the rate or amount of rent should be determined. It is expected that such contest may begin in Eastern Bengal, and then spread to other places. Those who entertain this apprehension seem frequently to think that, as these principles are but vaguely indicated in the existing law, they ought to be laid down by a new law, and that by such means alone can the relations between landlord and tenant in Bengal be peacefully settled. No doubt it would be very desirable to determine suitable rules by law, especially as tenant-right is growing so fast in Bengal, and as the occupancy tenure is extending year by year to larger and larger numbers of ryots and cultivators. But the question at once arises, is such legislation practicable?

It is not only that opinions conflict greatly upon the subject, but that local customs differ considerably. As shown in my Minute of the 16th March last (published in the Legislative Appendix to the *Calcutta Gazette*), the really difficult class of disputes arises in reference to the question whether the value of the land and its produce has increased otherwise than through the agency or at the expense of the ryot. All that was urged in the Minute, and is still urged by me, is that when such disputes assume serious proportions likely to cause agrarian trouble, the revenue authorities are in a much better position than the civil courts can possibly be to settle such disputes peaceably,

and in some degree satisfactorily; and that, as things are, the only chance of obviating trouble is to vest the Collectors with powers accordingly. I certainly believe that in the main the Collectors would, under the guidance of superior revenue authority, arrive at sound and just conclusions. If they decide that under the circumstances, the landlord is entitled to some increase, they will test his demand by the counter-representations of the ryots; and after taking every care that moderation is observed towards the cultivator, they will generally be able to fix upon some rate which the ryots are prepared to pay and which the landlord will accept: in this way an equitable compromise will in most cases be made. Still, I admit that the Collectors must often have some difficulty in defining the path which should lead them through the various considerations towards that conclusion. It is easy, perhaps, to decide that the value of the land has increased, otherwise than through the agency or expense of the ryot. But then the questions present themselves, how much has it increased? to what share in such increase is the landlord entitled? if it be that his share in the increase ought to be the same as his share in the original profit of the cultivation, then what was that share? if the facts show such share to have been indeterminate, then how is it to be determined?

Possibly some authorities or parties may consider that the landlord is not entitled to any share in the increased value of the land and its produce, and that such increase should be entirely for the benefit of the ryot. Now, every one will doubtless affirm that the ryots (especially the occupancy ryots, who are said to constitute the majority,) are entitled to a large share in the increase, and should be carefully protected in the full enjoyment of it. But to affirm that the landlord is not entitled to any share would, of course, be a very different proposition, which might be discussed on abstract grounds, but would be difficult to maintain. At all events, the rent law of 1859, which has now been in force for fifteen years, established the principle that the landlord is entitled to some share in the increase. When the law declared in 1859 that the rent of an occupancy ryot should not be raised unless under certain specified circumstances of ordinary recurrence, and re-affirmed this in 1869, it clearly contemplated that the landlord should have some share under those circumstances. The same principle has been repeatedly acted upon by the High Court of Judicature. We cannot, I think, recede now by any legislation from that principle.

It might not be difficult to assume, on abstract grounds commanding general assent, that the share of the landlord ought to be a certain proportion of the value of the gross produce: (though some authorities might prefer to take this value net after deducting the value of the ryot's labor,) let us assume it, for the sake of illustration, to be one-fourth, though I do not now say whether that is the correct proportion. But could this fraction, or any other fraction, be laid down in a law as the standard by which rent is to be regulated? Would not such a standard cause disturbance in the rent of different parts of Bengal? Would not any proportion that might be suitable in Western Bengal cause excessive enhancement in Eastern Bengal? Would not any proportion that might be suitable in Eastern Bengal cause considerable reduction of old-existing rents in Western Bengal? Would not any proportion that might be suitable in Bengal cause undue variations in Behar? The case of Orissa might be regarded separately, as that is not under the permanent settlement. It might be answered that a suitable proportion could be ascertained for each of the main divisions of the country and then laid down authoritatively. But would there not be difficulty in defining the territorial limits of such proportions, so that they could be embodied in a law? It may well be that such diversity of the proportionate share exists in the several parts of the country, and is practically recognised in judicial decisions. But it is another matter to set it forth and stereotype it by legislation.

Again, it might be thought that each case or class of cases should be taken *per se* on the facts and merits, that the proportion might be approximately ascertained which the old rent bore when it was established to the then value of the produce, and that this proportion might be taken as the landlord's share in the present increase, which increase also might be ascertained approximately. From some points of view it might appear that this

principle, if laid down by law, could be carried into practice. But it is to be remembered that the existing rents may have been established at former periods, when the relations between landlord and tenant were not so carefully considered as they would be now-a-days. In some places, where land has been reclaimed within this century, the original proportion might be regarded, with respect to the just interest of the landlord, as too low to be a guide for all time coming. In some places, perhaps in the oldest inhabited and cultivated districts, it might be regarded, in respect to the just interest of the ryot, as too high to be accepted for the future. I incline to believe, indeed, that many authorities who consider that the landlord is entitled to some share in the increase would yet hold that such share ought to be in a smaller proportion than that which the old rent bore to the original value of the produce. Then, of course, the question would arise, how much less? which question it might be hard to answer in terms which could be embodied in a law.

Further, a suggestion has been made to me by some authorities—for example, Mr. F. R. Cockerell, Commissioner of the Rajshahye Division, who has had experience in both Western and Eastern Bengal—that possibly it might be laid down that the landlord's share might be regulated according to the proportion which the land revenue (as fixed in perpetuity by the permanent settlement) bears to the rental of the land. I do not understand that Mr. Cockerell is prepared to say that this certainly could be done, but only that it is a point worth considering. The question then arises, how can this proportion be ascertained? Heretofore such ascertainment, though not impossible, would have been very difficult and open to much objection. But it so happens that of late the road-cess valuations, district by district, have thrown, or are throwing, much light upon this matter. Indeed, we are thus incidentally becoming possessed of information which was never before in our possession. Thus the proportion of the land revenue to the rent of the land is already ascertainable for many districts, and will be so in due course of time for the remainder. But I am not able, as yet, to form an opinion as to whether it would be accepted by landlord and tenant as the regulator of the rent for the future. Perhaps, in some districts, it would be so accepted; but in others, and in some parts of Eastern Bengal especially, I apprehend that it would not.

Other methods of determining rent might be suggested, but whatever method is discussed, difficulties will, I fear, present themselves in respect to legislation by reason of the diversity of local custom and the variety of the circumstances of the cultivation, of the rent, and of the tenure in the several parts of Bengal. The *desideratum* is some method of adjusting rent which would adapt itself to the diverse circumstances of the several parts of the country, and which could be laid down in a law. It is very hard to find such a method.

Still, if with the help of both parties concerned, landlord and tenant, and of the many experienced authorities in the country, a practical solution could be attained, such as would be just to both landlord and tenant, and might be embodied in a law, I should be glad to do my part in the introduction of such a measure, which, if successful, would be of the highest benefit to the future of Bengal.

For the present, I desire that a copy of this Minute be sent to each of the Members of the Board of Revenue, of the Secretaries to Government, and of the Divisional Commissioners, with a request that they will favor me with their opinion on this difficult and important subject.

COMMENCEMENT OF AN ASYLUM IN CALCUTTA FOR NATIVES AFFLICTED WITH INCURABLE DISEASES.

Minute by the Lieutenant-Governor of Bengal, dated 25th April 1876.

THE want of an Asylum in Calcutta for persons (Natives) afflicted with incurable diseases has been repeatedly brought to my notice by the medical authorities. By incurable diseases are meant permanent blindness, deafness, dumbness, paralysis, lameness, spinal curvature, congenital idiotcy, and other diseases which incapacitate the sufferer, and for the cure of which there is no hope. But lunacy and leprosy are not included, because, for persons thus afflicted, there are separate asylums.

2. At present persons (Natives) suffering from incurable diseases are received in the several hospitals of the city; but these institutions are already crowded with curable patients for whom active treatment is required; and thus the space, care, and general appliances needed for coping with disease, regarding which hope remains, are encroached upon by reason of the necessity of attending to diseases which are past hope. Nevertheless, humanity dictates that no effort should be spared to alleviate the lot of those whose existence is affected to a degree that does not admit of any perfect remedy.

3. Several Native gentlemen have at different times mentioned the subject to me, and indicated a willingness to give donations towards the establishment of an asylum for incurables. And Dr. C. O. Woodford, the Principal of the Campbell Medical School at Scaldah, has specially invited my attention to the expediency of establishing an Asylum close to the hospital attached to the School at Scaldah, and the project is favoured also by the Surgeon-General.

4. I concur in thinking that Scaldah is a very suitable place for such an Asylum, and I recognise that at the outset there would be economy in managing the Asylum, and advantages in respect to efficiency, from the proximity to the existing Medical School and Hospital.

5. I have carefully considered the alternative of attaching the Asylum to the District Charitable Society's Institution. But it seems to me distinctly preferable to have the Asylum at Scaldah, by reason of the advantages, economical and other, of the proximity of medical supervision of the most competent kind.

6. From enquiry in the Public Works Department, I understand that a structure for the Asylum, fully capable of holding all the inmates for whom accommodation might be desirable (estimated at one hundred and fifty souls, Natives), would cost at least one lakh and a half of rupees; but such a structure might be built in compartments: if funds should not at the beginning admit of the whole being constructed, a part at least might be finished for the reception of a limited number of inmates, and the completion of the whole might follow afterwards, according as resources might become available. Under present circumstances, however, I am not sure that funds can be raised; the limited subscriptions heretofore promised would not be sufficient for so large a purpose; and certainly the Local Government is not able to make a grant of anything like this amount. If, in the future, funds shall become available, the project may be resuscitated.

7. Meanwhile, adjoining the hospital enclosure, there is a building which, together with its out-offices and grounds, may be purchased for comparatively a small sum, and which, with some additions and improvements, may be made to accommodate about forty poor persons (Natives). The subscriptions already promised may go some way towards defraying the cost of this arrangement, which should not exceed Rs. 25,000 in all. In that case the Government would contribute a share, provided that the grant thus required should not exceed Rs. 13,000. The medical supervision would be obtained from the existing staff of the Scaldah Hospital. The dieting and other contingencies would amount to a small sum monthly, of which half would be defrayed by Government, provided that the other half were met from private subcriptions. In this manner a humble, though useful, beginning might be made for an institution that is much needed in Calcutta.

RESOLUTION ON THE SUBJECT OF SCHOLARSHIPS FOR GIRLS.

GENERAL DEPARTMENT—EDUCATION—No. 1204.

The 24th April 1876.

READ—

A letter, dated the 26th February 1875, from the Honorary Secretary to the Ootturpara Hitakari Sobha, forwarding a report of the proceedings of the Society.

A letter, No. 4963, dated the 29th November 1875, from the Director of Public Instruction, reporting on the establishment of a system of scholarships for girls.

Read again—

The report of the Director of Public Instruction for the year 1874-75.

THE Lieutenant-Governor has read with much interest the report of the proceedings of the Ootturpara Hitakari Sobha. This useful institution has done much to ameliorate the condition of the inhabitants of Ootturpara and the neighbourhood, and in particular it has exerted itself diligently, and with a considerable measure of success, in the promotion of female education. A special feature of the proceedings of the Sobha, in this department of its labors, is the adoption of a system for the award of scholarships to girls. The Association holds an annual competitive examination of the girls of a number of schools in the districts of Hooghly and the 24-Pergunnahs, and awards scholarships to the most successful candidates. The money for these scholarships is provided partly from the funds of the Sobha, and partly from a contribution given by Government under the grant-in-aid rules.

2. The slow progress of female education in Bengal is a subject of much concern to the Government; and the Lieutenant-Governor has considered how far it may be possible to carry out on a larger scale the system which the Ootturpara Sobha has successfully inaugurated in the localities to which its operations have extended. The Director of Public Instruction has been consulted, and that officer, after taking the opinions of the Circle Inspectors of schools, and of the several local committees, has submitted an outline of the proposals which he would recommend for adoption.

3. Mr. Woodrow considers that in the three divisions of the Presidency, Burdwan and Dacca female education is sufficiently advanced to allow of the system being adopted with a reasonable prospect of success, and that it will be better to make a commencement in these three divisions than to attempt any general introduction of the measure. In the districts which comprise these divisions he proposes to have scholarship examinations for girls held in three grades—primary, intermediate, and vernacular. He would make the standards nearly the same as in the corresponding scholarships for boys, substituting needle-work, embroidery, and knitting for higher arithmetic and science.

4. In view of the numerous calls which are made upon Government for educational grants of various kinds, the Director is of opinion that no additional assignment for these scholarships will be necessary except in the town of Calcutta. In the other districts he thinks it will be sufficient to authorize the local committees to expend upon these scholarships such portion of their scholarship grants as they consider advisable, not exceeding one-fourth of the whole scholarship assignment of the district. For Calcutta, where there is no district committee, he asks for a grant of Rs. 1,800, being Rs. 600 for scholarships in each of the three grades.

5. The Lieutenant-Governor is pleased to approve generally of these recommendations, and to request that the Director, in communication with the local committees, will arrange the necessary details for holding these examinations, and for the appropriation of the required funds. But though the plan which has been proposed commends itself to the Lieutenant-Governor, as well calculated to further an object which it is very desirable to attain, it would be the wish of Sir Richard Temple to leave it in a great measure to the discretion of the local committees to encourage female education in this or in any other way which the circumstances of the district may indicate as most suitable. It appears to be the practice in some districts to give gurus of primary schools a

bonus of one rupee per month for every five girls who attend the patshala, or in some cases to give pecuniary rewards to the girls themselves for regular attendance. The district committee would probably be better qualified than the Government to determine whether these methods of encouraging female education are more practically useful than the establishment of a certain number of primary scholarships for girls would be; and the Lieutenant-Governor would desire to leave to the committee the decision of this question. But it must be understood that in all districts of the three divisions referred to, and as far as possible in all districts throughout the Lower Provinces, the Government will expect that some substantial portion either of the Government grant-in-aid or of the scholarship assignment, or of both these funds, shall be devoted to the promotion of female education.

6. The Lieutenant-Governor has considered the application of the Director for a special grant to meet the cost of scholarships in the town of Calcutta. The condition, however, of the provincial revenues is such as to make it impossible for the Government to increase the educational grant by this extra assignment, and the foundation of these scholarships in Calcutta must therefore be deferred for the present year, unless the Director is able to apply a portion of the grant-in-aid to this purpose. The Director is authorized to include the amount in his budget for next year, and it is hoped that funds will then be available.

7. It is not to be supposed that the establishment of these scholarships will give the Government that command over the course of female education which it obtains by the scholarship system as applied to the education of boys. A patshala student, who obtains a primary scholarship, is required to hold it in an intermediate or a middle vernacular school, and the Government is thus enabled to regulate not only the subjects of his study before the scholarship is awarded, but the course which he pursues afterwards. The Lieutenant-Governor observes that this principle has been extended by the District Committee of the 24-Pergunnahs to scholarships for girls, the scholarships awarded being either made tenable in female schools of a higher class, or being expended in the payment of a teacher to instruct the scholarship-holder at home. But it would seem that, even in a district like the 24-Pergunnahs, the effect of this rule must be to restrict the competition, as girls cannot usually leave their homes to hold scholarships in schools at a distance; and in districts in which female schools are few and scattered, and private teachers cannot easily be obtained, the adoption of this system would present serious difficulties. In such districts the Lieutenant-Governor recognizes the necessity of making these scholarships simply rewards for present proficiency; though even in these cases some effect will no doubt be produced by grading the scholarships, and giving the most valuable rewards to those girls who pass the higher standard of education.

8. In conclusion, the Lieutenant-Governor desires specially to commend this important subject to the earnest consideration of all educational officers and district school committees.

INDUSTRIAL SCHOOL AT HASTINGS.

No. 1917.

Extract from the Proceedings of the Hon'ble the Lieutenant-Governor of Bengal in the Public Works Department (Civil Buildings), under date the 25th April 1876.

Read again Proceeding of this Department for April 1875 (Establishment B) No. 144, being a Minute by the Hon'ble the Lieutenant-Governor of Bengal, dated the 2nd idem, for the establishment of a Training School for Natives of Bengal.

RESOLUTION.—In reference to the Lieutenant-Governor's Minute of the 2nd April 1875, regarding Technical and Industrial Schools for the Natives of Bengal, the formation of an Industrial School or Workshop for the practical instruction of the passed students of the Civil Engineering Classes of the Presidency College has from time to time been under the consideration of Government, but the expense attending the foundation of a separate institution for this purpose, and the difficulties in organizing it, has delayed the introduction of the scheme.

2. Minor Workshops have had to be formed in some of the Public Works Divisions of Calcutta for constructing iron-work for some of the large buildings and works lately erected at the Presidency, and some machinery has been bought from time to time for the requirements of these Divisional Workshops. It has been considered desirable to concentrate these Workshops and place them in one yard at Hastings, and advantage has been taken of this to organize an Industrial School for the practical instruction of the passed students of the Civil Engineering Classes of the Presidency College.

3. The additional machinery required for such an institution has been purchased, the sheds are being erected, and the machinery is being set up.

4. The school is primarily one for the instruction of the passed students of the College, but other native students will be allowed to enter the institution to receive practical instruction in carpentry and iron-work under skilled workmen. The rules and conditions under which such individuals will be allowed to enter the institution will be drawn up in this Department and notified in the *Calcutta Gazette* when the buildings are sufficiently advanced for the reception of apprentices.

By order of the Lieutenant-Governor of Bengal,

G. F. E. S. NEILL, *Captain*, M.S.C.,

Offg. Asst. Secy. to the Govt. of Bengal,
in the Public Works Department.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 22nd April 1876.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, Apl. 24,* '76	·11	Weather—Rainfall at Cutwa was 1·20 inches Want of rain is much felt. Cholera is still prevalent.
2	Bankoora „ 22, „	0·08	Weather—Generally dry, with occasional dust storms. Rain much wanted. A few cases of sporadic cholera still reported.
3	Beerbhoom, „ 22, „	Nil.	Weather—Easterly winds prevail. Rain is much wanted, especially for indigo, cotton, and oil-seeds.
4	Midnapore, „ 22, „	Nil.	Weather—There have been storms all over the district, though not at the Sudder Station. It now turns out that the storm of the 13th was so violent in the west of the district as to destroy many villages and cause much loss of life. The rain was needed, although the violence of the storm has occasioned serious injury in places.
5	Hooghly, „ 22, „	·10	Weather—Hot. Slight rain on the 21st. Sugarcane cuttings are still being planted out. *Aous* paddy being sown in a few places. Land is being prepared for *aous* and *amun* paddy. More rain is wanted. Indigo, *boro dhan*, cucumbers, &c., and onions on the ground, are doing well. Cucumbers and such like crops are being gathered. *Boro* harvest has commenced. Cholera is abating at Hooghly, but is still bad at Serampore, in the Boidobatty township, and in some places in the interior.
	Howrah, „ 22, „	Nil.	Weather—Very warm still. No rain yet. No crop to report on.
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, Apl. 24,† '76	Nil.	Weather—Windy and very warm. No crops on the ground. Rain is much wanted. Cholera is prevailing in thanas Habra, Deygunga, Barripore, and Russeerhat. No report is received from Satkhira.
7	Nuddea, „ 22, „	0·39	Weather—Rain in small quantities and partial. Sowings of early rice have been continued, and in the most advanced parts the seed has begun to germinate.
8	Jessore, „ 22, „	Nil.	Weather—Hot. Spring rice continues to be gathered, and the sowing of the early rice is progressing favorably. Millet and mango crops in the Jhenidah sub-division have suffered from a hail-storm.
9	Moorshedabad, „ 22, „	·10	Weather—There was no rain in any part of the district save a slight shower at the Sudder Station. It is hot, but nights are cool for the season. The *rubbee* has been harvested. The late rain has done much good to mulberry, indigo, sugarcane, and *til*. The *boro* rice is everywhere well reported on except in Lalbagh, where the crop is indifferent. Cholera is bad in the Jellinghi thana, but has abated in Ramporehaut and Jungypore.
RAJSHAHYE DIVN. 10	Dinagepore, „ 21, „	·38	Weather—Sultry. A slight thunder-storm on the evening of the 20th instant. More rain is needed. No alteration in the state and prospects of the crops since last week. Cholera and small-pox are prevalent in the district.
11	Maldah, „ 22, „	Nil.	Weather—Hot and sultry. Clouds occasionally collect but soon disperse. It is excessively hot and oppressive. Rain threatening. *Boro* thriving, but more rain is wanted. Weather excessively hot and oppressive. Twenty-nine deaths from cholera reported during the week.
12	Rajshahye, „ 22, „	Nil.	Weather—Has been cloudy and hot. There was a little rain in all the stations except Beauleah, Nattore, Barigaon, Godagaree, and Charghat, during the week. More rain is wanted. *Amun*, or winter rice, is now being sown in several stations. *Boro dhan* (spring rice crop) has been much benefited by the rain. Lands are being prepared for sowing *aous dhan*, or autumn rice crop. *Til* (sesamun) is thriving. Cholera still prevails in Charghat, Beauleah, Belmaria, Nattore, and Pootea, though not to the extent it did a short time back.
13	Rungpore, „ 21, „	·90	Weather—Cool. Rain on four days. The rainfall at Bhowanigunge was ·57 inches, and at Kurigram ·33 inches. Sowings of *aous* are progressing all over the district. In Kurigram sub-division *aous* rice and the millets are looking well. Cholera has broken out in various directions, and there is cattle disease on the north-east corner of the district adjoining Gowalpara.
14	Bogra, „ 22, „	A few drops.	Weather—A few drops of rain fell at the Sudder Station, but not appreciable by the rain-gauge. No change in the character of the weather since last week. Ploughing going on actively on the Denrah lands. Some of the rice is well up, and has been much benefited by last week's rain.
15	Pubna, „ 22, „	0·45	Weather—Seasonable. Showers have fallen. Only 0·10 inches of rain fell at Serajgunge. The weather during the week has been generally favorable for agricultural operations. Since the heavy rains of last week cholera has abated.

* Telegram of the 24th April, received on the same day, shows rainfall during the seven days immediately preceding.

† Report of the 24th April, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Central Districts.—(Continued.)		
Cooch Behar Divn. 16	Darjeeling, Apl. 21, '76	0·03	Weather—It has been reported that the rain of the previous week did extend to the plains of this district. There was a sprinkling of rain during the past week, and the sky is now very threatening. In the hills the wheat and barley have been reaped, and all the young crops are doing well. In the plains very little sowing has been done except in wheat; but now that rain has fallen the rice sowings will proceed.
Cooch Behar Divn. 17	Julpigoree, „ 22, „	·15	Weather—Intensely hot, though the crops have to some extent been benefited by the slight shower of Tuesday. Rain is still urgently wanted.
Cooch Behar Divn.	Cooch Behar, „ 20, „	·34	Weather—It has cooled down a little, as some rain fell during the week. The rainfall during the week was very small. The prospects of the *bitri dhan* and of the *cheena* and the *kaon* crops continue very unfavorable. The price of coarse rice has risen to Rs. 3 a maund in the bazar.
	Eastern Districts.		
Dacca Divn. 18	Dacca, Apl. 24,* '76	0·89	Weather—Warm, with showers and storms. Prospects of crops are very good. Cholera is abating.
Dacca Divn. 19	Fureedpore, „ 22, „	Nil.	Weather—Seasonable and cooler. The rainfall at Goalundo was 1·14 inches, and at Madaripore 0·79 inches during the week. State of the crops is fair. Prospects are good. Cholera decreased.
Dacca Divn. 20	Backergunge, „ 20, „	1·68	Weather—Last Saturday there was a violent storm of thunder, lightning, rain, and wind, which continued for about an hour and a half. The crops are good. The rain produced a beneficial effect, and diminished the cholera for a few days. But cholera still continues in every thana of the district, though not yet in an epidemic form. In other respects the state of the district is good.
Dacca Divn. 21	Mymensingh, „ 21, „	1·30	Weather—Showery and windy. Decidedly cool for this season. The *boro* rice is being reaped. The sowings of *aous* rice are nearly finished.
Dacca Divn. 22	Tipperah, „ 21, „	2·34	Weather—Hot, with occasional storms. Ploughing for the autumn and winter rice is going on. General prospects are good.
Chittagong Divn. 23	Chittagong, „ 20, „	·36	Weather—Hot and close. Cultivation not commenced generally. Cholera extremely prevalent.
Chittagong Divn. 24	Noakholly, „ 20, „	1·48	Weather—Variable; frequently cloudy, but comparatively cool, the highest heat being 89′, against 91′ of the preceding week. Wind from south; occasionally a little high. Rain fell on the 13th, 15th, and 16th. It was slight on the last two days. Pulses, chillies, &c., are doing well, and some are being gathered. Ploughing for the early rice crop, and sowing of early and late rice, are now going on under favorable conditions. There is cholera still in some of the stations, and other diseases are rather more prevalent than usual.
Chittagong Divn. 25	Chittagong Hill Tracts, „ 18, „	1·85	Weather—Rainy throughout the week. Owing to heavy falls of rain the joom burning has been delayed. No crops on the ground.
Chittagong Divn.	Hill Tipperah, „ 19, „	1·98	Weather—Cool. There has been rain almost every day during the past week. Prospects of the crops are satisfactory.
BEHAR.			
Patna Divn. 26	Patna, Apl. 24,* '76	Nil.	Weather—Seasonable. Days exceedingly hot. The crops have all been harvested A good deal of cholera about generally throughout the district, but especially in the city of Patna, where Assistant Surgeons have been deputed by the Civil Surgeon with men to work under them.
Patna Divn. 27	Gya, „ 22, „	Nil.	Weather—East wind prevailing with great heat. Highest reading of the thermometer was 104° 8′ in the shade. *Rubbee* crops are harvested. *Cheena*, which is sown, is good. Cholera and small-pox are prevalent.
Patna Divn. 28	Shahabad, „ 22, „	Nil.	Weather—Hot and seasonable. *Rubbee* crops are harvested. *Bhadoi* lands being ploughed. *Mohwa* is a good crop, and mango is fair in the south. Cholera is reported in the Sasseeram division.
Patna Divn. 29	Durbhunga, „ 22, „	Nil.	Weather—Warm. Intermittent east wind. Nothing special to remark. Preparations for ensuing sowings continue.
Patna Divn. 30	Mozufferpore, „ 22, „	Nil.	Weather—Very hot and sultry, with east winds. There is nothing new to report about the state of crops in the Mozufferpore sub-division. In the Hazeepore sub-division 0·11 inches of rain fell during the week, and more rain is wanted for *cheena*. In the Sitamarhee sub-division a fair amount of *cheena* and moong have been sown, principally in Jalla and Sewhur, and indigo has been sown all over the sub-division.

* Telegrams of the 24th April, received on the same day, show rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVN.—(*Contd.*) 31	Sarun, Apl. 22, '76	Nil.	Weather—Hot and clear, with variable wind. There was a fall of rain in the Sewan and Gopalgunge sub-division which has benefited *cheena* millet, sugarcane, and *bhadoe dhan*. Reports as to indigo vary. In some places it is said to be doing well, while in others it is reported to be coming on badly Cholera is reported from Revelgunge, in the Sudder sub-division.
32	Chumparun, „ 21, „	Nil.	Weather—Very close and hot, and the wind steady from the east. The weather is excellent for the growing crops, but more rain after a week or ten days will do a great deal of good.
BHAGULPORE DIVN. 33	Monghyr, „ 22, „	Nil.	Weather—Fair, with east winds. Only irrigated crops on the ground. The indigo has been improved by the recent rain in the Begoosarai sub-division, and the mango crop is said to be the best for the last twenty years. The *mohwa* is nearly always good, and this year forms no exception to the rule.
34	Bhagulpore, „ 24,* „	Nil.	Weather—East wind is prevalent with threatening clouds. Rain at Banka on the 20th was ·53 inches. At Muddehpoorah the rainfall on the 22nd was ·18 inches, with strong north-western wind. Soopole reports all low land paddy has been sown down, and the plants are very healthy. Land for *bhadoe* sowings is prepared, and some has been sown. Prospects of the crops are good. Prices are easy. General health is very good, though small-pox and cholera are still reported from various parts of the district.
35	Purneah, „ 22, „	Nil.	Weather—Hot and sultry. Rain is still wanted in the north and centre, but it is apparently coming. A good shower fell in the south-west of the district on Friday. Prices are rising. Cholera is still prevalent.
36	Sonthal Pergha. „ 23, „	Nil.	Weather—Hot again at Doomka. Rainfall at Deoghur was ·32, at Godda ·02, and at Rajmehal 1·5. No crops on the ground. Health is improving.
ORISSA.			
ORISSA DIVN. 37	Cuttack, Apl. 15, '76	·05	No change in the character of the weather and state of the crops since last week.
38	Pooree, „ 20, „	Nil.	Weather—Seasonable. Rain is much wanted for tillage The harvesting of the *dalua* crop is still continuing. Cotton is dying for want of rain. Cholera is raging in the town of Pooree and in the interior.
39	Balasore, „ 21, „	1·30	Weather—Ordinarily dry, but a shower falls every three or four days. Ploughing is progressing satisfactorily. Sporadic cholera still exists. No new cases of small-pox are reported.
CHOTA NAGPORE			
	South-Western Frontier Agency.		
40	Hazareebagh. Apl. 21, '76	Nil.	Weather—Seasonable. Very warm, with hot west winds. Nothing on the ground. The *mohwa* crop has been a full one. Rain is much wanted to enable the ryots to plough their land. Cholera is still reported from the interior of the district.
41	Lohardugga. „ 22, „	Nil.	Weather—Hot, with variable wind. The *mohwa* has been abundant. Rain is much wanted for ploughing. Small-pox and cholera still prevalent in parts.
42	Singbhoom, „ 21, „	Nil.	Weather—Seasonable. No crops to report about. The continued drought is drying up fast the pasturage, and renders it impossible to prepare any ground for cultivation, and agricultural prospects are altogether unfavorable. The prevalence of cholera mentioned in last week's report appears, from information since received, to have been much exaggerated. It is bad only in the north part of the district, and deaths from it have been ascertained to have occurred in two villages, Kandra and Narainpore. The rest of the district is reported to be free of it.
43	Manbhoom, „ 22, „	Nil.	Weather—Unusually dry and sultry, with little of the hot westerly breeze usually experienced at this time of year. Rain is much wanted. If there is no rain within the next twenty days the prospects of the crop will be very bad. This has been an unusual season. Cholera is rife all over the district apparently. Purulia is up to date free from the disease.

* Telegram of the 24th April, received on the same day, shows rainfall during the seven days immediately preceding.

NOTE.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. CANDIDATES for vernacular masterships may present themselves for examination at any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle-class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools and girls' schools.

7. Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year :—

(1.) His name.
(2.) His age.
(3.) His father's name.
(4.) Residence (*i.e.*, village, district, &c.).
(5.) Normal school where he wishes to be examined.
(6.) Grade of teachership for which he is a candidate.
(7.) Certificates as to character and antecedents.

8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.

9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORT WILLIAM, the 1st May 1876. H. WOODROW, *Director of Public Instruction.*

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacular scholarship examination is known, as may be most conducive to the benefit of the normal schools, and not later than the 1st February each year. The annual examination will ordinarily be held in December.

4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.

5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle Inspector.

6. Deductions from scholarships for absence from school shall be made in accordance with the rules and practice of the Education Department.

7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present :—

		Rs.
Hooghly Normal School	... ...	200
Calcutta ditto	... ...	120
Bauleah ditto	... ...	100
Dacca ditto	... ...	120
Chittagong ditto	... ...	100
Patna ditto	... ...	100
Bhagulpore ditto	... ...	100
Cuttack ditto	... ...	100
Ranchi ditto	... ...	100

8. Scholarships not taken up at one normal school under these rules may be transferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of normal schools who may not enter them as scholarship-holders shall be eligible for normal school scholarships if they acquit themselves creditably at the annual examinations of the normal schools. Those who actually hold vernacular scholarships will be allowed to retain their scholarships in addition to the normal school scholarships.

11. The head-master of each first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition-fees, but all other pupils of the pundit's department shall pay a fee of eight annas a month at Hooghly, Calcutta, Dacca, and Bauleah, and four annas a month at the five remaining schools.

The Indian Law Reports.

Published under Authority.

THE first Part of the "Indian Law Reports," published under the authority of the Governor-General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.

SCHEDULE.

An Act for constituting and regulating the Banks of Bengal, Madras and Bombay.

Preamble.

WHEREAS the Bank of Bengal is now constituted and regulated by Act No. IV of 1862, as amended by Acts No. VI of 1862 and No. XIX of 1870, and its capital consists of twenty-two millions of rupees, in shares of one thousand rupees each;

And whereas the Bank of Madras is now constituted and regulated by Madras Act No. VI of 1866, as amended by Madras Act No. I of 1871, and its capital consists of five millions six hundred and twenty-five thousand rupees, in shares of one thousand rupees each;

And whereas a Bank named the Bank of Bombay was constituted and regulated by Bombay Act No. X of 1863, as amended by Bombay Acts No. XV of 1866 and No. I of 1867; but such Bank has been wound up and the said Bombay Acts are now obsolete and should be expressly repealed;

And whereas on the tenth day of December 1867, a joint-stock Banking Company was registered and incorporated at Bombay, by virtue of the Indian Companies Act, 1866, under the name of "The New Bank of Bombay, Limited," with a Memorandum of Association and Articles of Association then also registered, and prescribing the constitution and regulations for the management of such Bank;

And whereas the Government of India now holds two thousand two hundred shares in the

said Bank of Bengal, and five hundred and sixty-two and a half shares in the said Bank of Madras; and, under the provisions of the said Act No. IV of 1862 and Madras Act No. VI of 1866, is bound to appoint, and has power to remove, certain of the directors of the said Banks of Bengal and Madras respectively, and has also power to give a proxy to any person whom the Governor General in Council may appoint, to attend and vote at any meeting of the proprietors of each of the same Banks;

And whereas the Government of India has determined to sell its said shares and to surrender its said powers; and it is expedient to relieve the said Government from the said duty of appointing directors, and to repeal the said enactments and to consolidate such of them as relate to the said Banks of Bengal and Madras respectively with the changes rendered necessary or desirable by such sale, surrender and relief;

And whereas it is expedient to reduce the said capital of the Bank of Bengal by two millions of rupees and to reduce the said capital of the Bank of Madras by six hundred and twenty-five thousand rupees, and to divide the capital so reduced of each of the same Banks into shares of five hundred rupees each;

And whereas it is expedient that the said New Bank of Bombay, Limited, should be reconstituted and regulated, in manner in this Act provided, under the name of the Bank of Bombay;

It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Short title. 1. This Act may be called "The Presidency Banks Act, 1876;"

Commencement. And it shall come into force on the first day of May 1876.

Repeal of enactments. 2. On and from that day the statute specified in the first part of the schedule hereto annexed shall be repealed to the extent mentioned in the third column thereof, and the Acts specified in the second, third and fourth parts of the same schedule shall be wholly repealed. But all bye-laws and regulations made under any such Act, and then in force, shall, so far as they are consistent with this Act, be deemed to have been made hereunder.

References in Act X of 1866. The references made in the Indian Companies Act, 1866, to the Bank of Bengal, the Bank of Madras and the Bank of Bombay, shall be deemed to be made respectively to the Bank of Bengal, the Bank of Madras and the Bank of Bombay as constituted by this Act.

Interpretation-clause. 3. In this Act, unless there be something repugnant in the subject or context—

"The Bank" means the Bank of Bengal, the Bank of Madras, or the Bank of Bombay (as the case may be), as constituted and regulated by this Act:

Capital of New Bank of Bombay, Limited, to be capital of Bank of Bombay.

11. The capital of the said New Bank of Bombay, Limited, already created, shall, on the first day of May 1876, constitute the capital of the Bank of Bombay, subject to be increased as aforesaid.

Surrender of paid-up shares for stock.

12. Any shareholder may from time to time surrender his wholly paid-up shares, or any of them, to the directors, and demand and receive from the Bank, in lieu thereof, capital stock to the amount represented by the shares so surrendered,

Surrender of stock for shares.

and any proprietor may from time to time surrender his stock, or any portion thereof, to the directors, and demand and receive from the Bank in lieu thereof shares to the like amount, or as near thereto as practicable.

Power to increase or reduce capital.

13. The proprietors and shareholders of the Bank may from time to time by special resolution and with the previous sanction of the Governor General in Council increase or reduce the capital of the Bank:

Provided that no such special resolution shall be deemed to have been passed, unless at least one-third in number of the proprietors or shareholders, holding at least one-half of the paid-up capital of the Bank for the time being, be present in person or by proxy, and a majority poll by open voting in favour of the said resolution.

Procedure on resolution to increase capital.

14. When any such special resolution to increase the capital has been passed, the directors may, subject to the provisions of this or any other Act for the time being in force regulating such Bank, and to the special direction (if any) given in reference thereto by the meeting at which such resolution has been passed,

(*a*) make such orders as they think fit for the opening of subscriptions towards such increase of capital by the proprietors and shareholders;

(*b*) allow to the proprietors and shareholders such period to fill up the subscription as to the directors seems fit;

(*c*) prescribe the manner in which the proprietors and shareholders shall subscribe and pay into the Bank the proportions of new capital which they may respectively desire to subscribe; and

(*d*) make such orders as the directors think fit for the disposal and allotment of the amount of new capital that may not be subscribed for and paid up in manner aforesaid:

Provided that the capital shall not exceed, in the case of the Bank of Bengal, thirty millions of rupees, in the case of the Bank of Madras, twelve millions of rupees, and in the case of the Bank of Bombay, twenty millions of rupees.

Procedure on resolution to reduce capital.

15. When any such special resolution to reduce the capital has been passed, the directors may (subject as aforesaid) prescribe the manner in which the reduction shall be carried into effect.

New capital to be subject to provisions of Act.

16. Any new capital created under the provisions of section thirteen shall be subject to the provisions of this or any other Act regulating the Bank in force for the time being.

CHAPTER IV.

FORFEITURE OF STOCK AND SHARES.

Powers in regard to proprietors or shareholders indebted to Bank.

17. If any proprietor or shareholder is indebted to the Bank, the Bank may withhold payment of the dividends on the stock or shares of such proprietor or shareholder not being registered as held in trust, or as executor or administrator, and apply them in payment of the debt;

and the Bank may refuse to register the transfer of any such stock or shares until payment of such debt;

and after demand and default of payment, and notice in that behalf given to such proprietor or shareholder, or his constituted agent, or by public advertisement in the local official Gazette, if the debt remain unpaid for the space of three months after such notice, the Bank may advertise in the local official Gazette such stock or shares for sale on a day not less than fifteen days from the publication of such advertisement;

and may, on such day, sell by public auction, and subject to such conditions, if any, as the Bank thinks fit, such stock or shares, or so much or so many thereof as may be necessary, and apply the proceeds thereof in or towards payment of the said debt, with interest, from the day appointed for the payment of such debt to the time of actual payment, at such rate as may have been agreed upon, or, in the absence of such agreement, at the highest rate current for advances by way of local discounts by the Bank;

and shall pay over the surplus, if any, to such proprietor or shareholder or to his lawful representative.

CHAPTER V.

CERTIFICATES, TRANSFER AND TRANSMISSION OF SHARES AND STOCK.

Certificates for shares.

18. Every shareholder shall be entitled to a certificate, under the corporate seal of the Bank, and signed by two Directors and the Secretary and Treasurer, specifying the shares held by him, and in the case of shares which are not wholly paid up, the amount paid thereon,

and any holder of more than one half share may, at his option, demand a certificate for each such half share, or one or more certificates for all or any of such half shares, and such certificate or certificates shall be delivered to him accordingly: provided that the number of such certificates shall in no case exceed the number of half shares in respect of which they are so delivered.

Receipts for stock.

Every proprietor of capital stock shall be entitled to a receipt signed by two Directors and the Secretary and Treasurer, and specifying the amount of stock held by him, and any such proprietor may, at his option, demand one receipt for the whole of the stock, or separate receipts for any portions of the stock, so held by him, and such receipt or receipts shall be delivered to him accordingly: Provided that no receipt shall be delivered for a portion of stock less than two hundred and fifty rupees.

Fees for certificates and receipts.

For every certificate and receipt delivered under this section there shall be paid such fee as may for the time being be prescribed under section sixty-three, clause (*k*): Provided that no fee shall be payable for certificates or receipts delivered to the persons referred to in section four for shares in or stock of the Bank.

Certificates and receipts to be evidence.

Every such certificate and receipt shall be *primâ facie* evidence of the title of the shareholder or proprietor to the shares or stock therein specified.

Stock and shares to be moveable property.

19. The stock and shares of every proprietor and shareholder shall be moveable property, capable of being transferred in manner provided by the regulations contained herein, or in any other Act regulating the Bank for the time being in force, and shall not be of the nature of immoveable property; and each share shall be distinguished by its appropriate number.

Form of transfer to be approved by Board.

20. Every transfer of stock or shares may be by endorsement on the certificate or in such other form as the Board from time to time may approve, and shall be presented to the Bank accompanied by such evidence as the Board may require to prove the title of the transferor.

Board may require evidence of transmission.

Every such transfer shall be verified in such manner as the Board require, and the Board may refuse to register any such transfer until the same be so verified, and, in the case of shares not fully paid up, unless the transferee is approved by the Board.

Transferor to remain proprietor till transfer registered.

The transferor shall be deemed to remain the proprietor or holder of the stock or shares transferred until the name of the transferee is registered in respect thereof.

Power to close transfer-books.

21. The directors may from time to time close the register and transfer-books of the Bank for any period or periods not exceeding in the whole thirty days in any twelve consecutive months.

Corporation to consist of registered proprietors or shareholders only.

22. The proprietors and shareholders for the time being, and no other persons, shall be members respectively of the bodies corporate hereby constituted,

Notice of trusts.

and, except for the purpose of excluding the provisions of section seventeen, the Bank shall not be bound or affected by notice of any trust to which any stock or share may be subject in the hands of the proprietor or holder thereof;

Shares vested in several holders.

and when any stock or share is vested in more than one proprietor or holder, such proprietors or shareholders shall, as between themselves and the Bank, be considered as joint owners with benefit of survivorship:

Provided that, as regards voting at meetings, service of notices, and receipt of dividend, the person whose name stands first in the register as one of the proprietors or holders of such stock or shares shall be deemed the sole proprietor or holder thereof.

Transmission of stock or shares of deceased proprietors or shareholders.

23. When by the death of any proprietor or shareholder his stock or shares shall devolve on his legal representative, the Bank shall not be bound to recognize any legal representative of such proprietor or shareholder other than a person who has taken out from a Court having jurisdiction in this behalf probate of the will or letters of administration to the estate of the deceased.

Transmission on insolvency or marriage.

Any person becoming entitled to stock or shares in consequence of the insolvency or bankruptcy of any proprietor or shareholder, or in consequence of the marriage of any female proprietor or shareholder, may be registered as a proprietor or shareholder upon such evidence being produced as the directors may from time to time require.

CHAPTER VI.

DIRECTORS.

Board.

24. The business of the Bank shall be managed by the Board, which shall in the first instance consist of six directors, and may subsequently consist of such number, not less than six, and not more than nine, as may be fixed by a special resolution.

Such directors shall be selected by vote of a general or special meeting.

Quorum.

Three of the directors shall form a quorum for the transaction of business.

Present directors to be continued.

25. The persons who, on the first day of May 1876, are respectively directors of the Bank of Bengal, the Bank of Madras, and the New Bank of Bombay, Limited, shall be respective-

ly directors of the Bank of Bengal, the Bank of Madras, and the Bank of Bombay, as constituted by this Act, subject to removal as hereinafter provided and to the other provisions herein contained.

Two directors to go out by rotation annually.

26. The two directors who have been longest in office shall go out of office at the general meeting.

Any director so retiring may be re-elected at such meeting; and if any question arise as to which of the directors who have been the same time in office shall retire, such question shall be decided by the directors by ballot.

Qualification of directors.

27. *Clause* 1.—No person shall be qualified to serve as a director of a Bank who is not a proprietor or holder in his own right of unencumbered stock or shares of such Bank, to the nominal amount of ten thousand rupees at the least.

Disqualification of directors.

Clause 2.—No person shall be qualified to serve as a director—

If he holds the office of director, provisional director, promoter, agent or manager of any other joint-stock Bank established, or having a branch or agency, in British India, or advertised as about to be established, or to have a branch or agency, in British India; or

If he is a salaried officer of Government not specially authorised by the Governor General in Council to serve as a director;

And the office of director shall be vacated—

If the person holding it resigns his office or dies;

If he accepts or holds any other office of profit under the Bank;

If he becomes insolvent or bankrupt, or compounds with his creditors;

If he is declared lunatic, or becomes of unsound mind;

If he is absent from the Board for more than three consecutive months;

If he ceases to hold in his own right the amount or number of unencumbered stock or shares required to qualify him for the office.

Co-partners of same firm not to serve as directors at same time.

Clause 3.—No two persons who are partners of the same mercantile firm, or one of whom is the general agent of, or holds a power of procuration from, the other, or from a mercantile firm of which the other is a partner, shall be eligible or qualified to serve as directors at the same time.

Power to remove directors.

Clause 4.—The proprietors or shareholders may, by a special resolution passed by the votes of proprietors or shareholders holding in the aggregate not less than one-half of the capital, remove any director before the expiration of his period of office, and appoint, in his stead, a qualified person, who shall in all respects stand in his place.

Directors to choose president and vice-president.

28. At the first meeting of the directors in every year, they shall choose a president and vice-president from among themselves,

and whenever the office of president or vice-president becomes vacant, they shall, at their next meeting, choose a successor for the remainder of the current year.

Chairman.

The president, or in his absence the vice-president, shall be chairman at all meetings whether of directors or of proprietors or shareholders, or of proprietors and shareholders, and shall have an additional or casting vote in all cases of an equal division of votes. Provided that if both the president and vice-president be absent at any meeting the directors present shall elect a chairman for such meeting from among themselves, and such chairman shall, in case of an equal division of votes, have an additional or casting vote.

Casting vote.

Vacancies among directors how filled up.

29. The Board shall have power at any time, and from time to time, to supply any vacancies in their number arising from the death, resignation, or disqualification under section twenty-seven, of any director.

Any director so appointed shall, for the purposes of section twenty-six, be considered to have held office from the date on which the director in whose place he is appointed was elected, or (where such director was appointed under this section) from the date on which his mediate or immediate predecessor was elected.

Acts of directors valid notwithstanding subsequent discovery of disqualification.

30. All acts done by any person acting in good faith as a director shall be as valid as if he was a director, notwithstanding it be afterwards discovered that there was some defect in his appointment or qualification.

Indemnity of directors.

31. Every director shall be indemnified by the Bank against all losses and expenses incurred by him in or about the discharge of his duties, except such as happen from his own wilful act or default.

No director shall be responsible for any other director or for any officer, clerk or servant of the Bank, or for any loss or expense happening to the Bank by the insufficiency or deficiency of value of, or title to, any property or security acquired or taken on behalf of the Bank, or by the insolvency, bankruptcy or wrongful act of any customer or debtor of the Bank, or by anything done in the execution of the duties of his office or in relation thereto, or otherwise than for his own wilful act or default.

CHAPTER VII.

OFFICERS OF THE BANK.

Appointment, salaries, suspension and removal of officers.

32. The directors shall have power—

to appoint such officers, clerks and servants as may be necessary to conduct the business of the Bank,

to grant salaries, pensions and other emoluments to such officers, clerks and servants, and

to suspend or remove any officer, clerk or servant of the Bank.

Accounts, receipts and documents of Bank by whom to be signed.

33. The Secretary and such other officers of the Bank as the directors may by writing notify in the local official Gazette (and, in the case of the Bank of Bengal, also in the *Gazette of India*) are hereby severally empowered for and on behalf of the Bank to endorse and transfer promissory notes, stock-receipts, stock, debentures, shares, securities and documents of title to goods, standing in the name of, or held by, the Bank,

and to draw, accept and endorse bills of exchange, bank post-bills, and letters of credit, in the current and authorized business of the Bank,

and to sign all other accounts, receipts and documents connected with such business.

Officers forbidden to engage in other commercial business.

34. No Secretary, Inspector, Manager, or Accountant in the service of the Bank,

and no Khazánchi, Cashier or Shroff in the service of the Bank at the principal office,

and, without the previous sanction of the Board, no Agent, Khazánchi, Cashier or Shroff at any branch or agency of the Bank,

shall engage in any other banking or commercial business, either on his own account or as agent for any other person or persons, or shall act as broker or agent for the sale or purchase of Government or other securities.

Security from officers.

35. Every person appointed to hold, or act in, any one or more of the said offices, and every other officer from whom the directors may from time to time think fit to require it, shall give security to the directors, for the faithful discharge of his duty to the satisfaction of the directors, in such amount and in such manner as they think proper.

The security to be given as aforesaid by the person holding or acting in the office of Secretary shall not be in a less amount than fifty thousand rupees.

CHAPTER VIII.

BUSINESS.

Business which Banks may transact.

36. The Bank is authorized to carry on and transact the several kinds of business hereinafter specified (that is to say) :

(*a*) the advancing and lending money, and opening cash-credits, upon the security of—

(1) promissory notes, debentures, stock and other securities of the Government of India, or of the United Kingdom of Great Britain and Ireland;

(2) bonds, debentures and annuities charged by the Imperial Parliament on the revenues of India ;

(3) stock or debentures of, or shares in, Railway or other Companies, the interest whereon shall have been guaranteed by the Secretary of State for India in Council ;

(4) debentures or other securities for money issued by, or on behalf of, any municipal body under the authority of any Act of a legislature established in British India;

(5) bullion or other goods which, or the documents of title to which, are deposited with, or assigned to, the Bank as security for such advances, loans or credits ; and

(6) accepted bills of exchange and promissory notes indorsed by the payees :

Provided that such advances and loans may be made, if the directors think fit, to the Secretary of State for India in Council, without any specific security ;

(*b*) the selling and realization of the proceeds of sale of any such promissory notes, debentures, stock receipts, bonds, annuities, stock, shares, securities, bullion or goods which, or the documents of title to which, have been deposited with, or assigned to, the Bank as security for such advances, loans or credits, or which are held by the Bank, or over which the Bank is entitled to any lien or charge in respect of any such loan or advance or credit or any debt or claim of the Bank, and which have not been redeemed in due time in accordance with the terms and conditions (if any) of such deposit or assignment ;

(*c*) the drawing, discounting, buying and selling of bills of exchange and other negotiable securities payable in India, or (in the case of the Bank of Madras) in Ceylon ;

(*d*) the investing of the funds of the Bank upon any of the securities specified in paragraph (*a*) of this section, clauses (1), (2), (3) and (4), and converting the same into money when required,

and from time to time altering, converting and transposing such investments for or into others of the investments above specified ;

(*e*) the making, issuing and circulating of bank-post-bills and letters of credit made payable in India, or (in the case of the Bank of Madras) in Ceylon, to order, or otherwise than to the bearer on demand ;

(*f*) the buying and selling of gold and silver, whether coined or uncoined ;

(*g*) the receiving of deposits and keeping cash-accounts on such terms as may be agreed on ;

(*h*) the acceptance of the charge and management of plate, jewels, title-deeds or other valuable goods on such terms as may be agreed upon;

(*i*) the selling and realizing of all property whether moveable or immoveable, which may in any way come into the possession of the Bank in satisfaction or part satisfaction of any of its claims ;

(*j*) the transacting of pecuniary agency business on commission ;

(*k*) the acting as agent on commission in the transaction of the following kinds of business (namely) :—

(1) the buying, selling, transferring and taking charge of any securities, or any shares in any public Company ;

(2) the receiving of the proceeds, whether principal, interest or dividends, of any securities or shares ;

(3) the remittance of such proceeds at the risk of the principal by public or private bills of exchange, payable either in India or elsewhere ;

(*l*) the drawing of bills of exchange, and the granting of letters of credit, payable out of India, for the use of principals for the purpose of the remittances mentioned in the last preceding clause of this section ;

(*m*) the buying, for the purpose of meeting such bills or letters of credit, of bills of exchange payable out of India, at any usance not exceeding six months ;

(*n*) and, generally, the doing of all such matters and things as may be incidental or subsidiary to the transacting of the various kinds of business hereinbefore specified :

(*o*) It shall also be lawful for the Bank under any arrangement or agreement with the Secretary of State for India in Council—

(1) to act as banker for, and to pay, receive, collect and remit money, bullion and securities on behalf of the Government;

(2) to undertake and transact any other business which the Government may from time to time entrust to the Bank;

And the directors shall have power from time to time to arrange and settle with the Governor General in Council the terms of remuneration on which such business shall be undertaken by the Bank, and also as to the examination and audit from time to time of the accounts and affairs of the Bank by or on behalf of the Governor General in Council.

Business which Banks may not transact.

37. The directors shall not transact any kind of banking business other than those above specified, and in particular they shall not make any loan or advance—

(*a*) for a longer period than three months; or

(*b*) upon the security of stock or shares of the Bank of which they are directors; or

(*c*) upon mortgage, or in any other manner upon the security, of any immoveable property, or the documents of title relating thereto.

(*d*) Nor shall they lend or advance, by discount of bills or otherwise, to any individual or partnership firm (except upon the security mentioned in section thirty-six, paragraph (*a*), numbers (1) to (5) inclusive), any sums of money exceeding in the whole at any one time such sum as may be prescribed by the bye-laws for the time being in force.

(*e*) Nor shall they discount or buy, or advance and lend, or open cash-credits on the security of any negotiable instrument of any individual or partnership firm, payable in the town or at the place where it is presented for discount, which does not carry on it the several responsibilities of at least two persons or firms unconnected with each other in general partnership.

(*f*) Nor shall they discount or buy, or advance and lend, or open cash-credits on the security of any negotiable security having at the date of the proposed transaction a longer period to run than three months, or if drawn after sight, drawn for a longer period than three months: provided that, in the case of the Bank of Madras, the directors may discount negotiable securities payable in Ceylon having at the date of the transaction a period to run not exceeding four months.

Overdrawing.

Nothing contained in this Act shall be deemed to prevent the directors from allowing any person who keeps an account with the Bank from overdrawing such account, without security, to the extent of sums not exceeding at any one time two thousand rupees in the whole.

Sums payable by or to Government to be payable at Banks.

38. Until the expiration of at least fourteen days after notice has been given by notification of the Governor General in Council published, in the case of the Bank of Bengal, in the *Gazette of India* and the *Calcutta Gazette*, and in the cases of the Bank of Madras and the Bank of Bombay, in the local official Gazette, that the Bank will no longer act as banker for, or pay, receive, collect or remit money, bullion and securities on behalf of the Government,

all sums payable by or to the Secretary of State for India in Council, or by or to the Governor General in Council, or the Government of Bengal or the Governor of Fort St. George in Council or the Governor of Bombay in Council, on behalf of the Secretary of State for India in Council, at the General Treasury of Fort William in Bengal, or at the General Treasury at Madras, or at the General Treasury at Bombay,

shall be payable—

in the case of the Secretary of State for India in Council, or the Governor General in Council—at the office of the Bank of Bengal, the Bank of Madras, or the Bank of Bombay, as the case may be,

in the case of the Government of Bengal—at the office of the Bank of Bengal;

in the case of the Governor of Fort St. George in Council—at the office of the Bank of Madras; and

in the case of the Governor of Bombay in Council—at the office of the Bank of Bombay.

Presentment of promissory notes at Banks.

39. Whenever presentment of any promissory note, bond or other security for payment or any other purpose at any of the said General Treasuries would heretofore have been necessary or sufficient, presentment for such purpose shall be necessary or sufficient (as the case may be) until the expiration of fourteen days after the giving of the notice mentioned in section thirty-eight—

in the case of the General Treasury of Fort William—at the office of the Bank of Bengal;

in the case of the General Treasury at Madras—at the office of the Bank of Madras; and

in the case of the General Treasury at Bombay—at the office of the Bank of Bombay.

Place of business.

40. The office of the Bank of Bengal shall be at Calcutta, that of the Bank of Madras shall be at Madras, and that of the Bank of Bombay shall be in the Island of Bombay;

and the business of the Bank shall be carried on at its office, and at such other place or places in India as the Board may deem advisable, under the provisions of section forty-two.

Acquisition of business premises.

41. For the purpose of providing offices and places in and at which to carry on and manage the business of the Bank, and proper residences for its agents, the directors may—

(*a*) acquire any interest in immoveable property, and

(*b*) sell, buy in, resell, exchange, let, furnish, repair, insure against fire and otherwise deal with all or any part of the same as they may consider most conducive to the interests of the Bank.

Establishment of branches and agencies.

42. It shall be lawful for the directors to maintain as branches or agencies of the Bank, any branches or agencies of the present Banks, which may be in existence on the first day of May 1876,

and, from time to time, to establish branches or agencies at such places within the Presidency in which the Bank is situate as they deem advantageous to the interest of the Bank,

and, with the previous consent of the Governor General in Council, and subject to such restrictions as to the business to be transacted as he thinks fit in each case to impose (such consent and restrictions being notified in the *Gazette of India*), to

establish branches or agencies at such places outside the Presidency in which the Bank is situate, as the directors deem advantageous for the interests of the Bank:

Provided that no agency of the Bank now or hereafter established in Bombay, Calcutta or Madras shall advance, or lend money, or open cash-credits on securities, or receive deposits and keep cash-accounts, or discount bills of exchange drawn and payable in the Presidency in which it is so established,

Proviso.

or shall act as agent on commission, or transact any business except as agent of its principal Bank, or any of its branches or other agencies.

The directors may discontinue any branch or agency maintained or established under this section.

CHAPTER IX.

ACCOUNTS AND DIVIDENDS.

43. The directors shall cause the books of the Bank to be balanced on every thirty-first day of December and every thirtieth day of June.

Books to be balanced twice a year.

A statement of the balance at every such period, signed by a majority of the directors, shall be forthwith sent to a Secretary to the Government of India, and in the cases of the Bank of Madras and the Bank of Bombay, also to a Secretary to the Local Government.

The Governor General in Council in the case of each of the said Banks, and the Local Government in the case of the Bank of Madras and the Bank of Bombay, shall (so long as any such arrangement with the Government as aforesaid, which has already been, or shall hereafter be, entered into remains in force) at all times be entitled to require of the directors any information touching the affairs of the Bank and the production of any document of the Bank,

and in the case of each of the said Banks the Governor General in Council may require the publication of such statements of its assets and liabilities at such intervals and in such form and manner as the Governor General in Council thinks fit.

Every requisition under this section shall be signified in writing under the hand of a Secretary to the Government of India or to the Local Government (as the case may be), and the directors shall comply with every such requisition.

44. An account of the profits of the Bank during the previous half-year shall be taken on or immediately after every thirty-first day of December and every thirtieth day of June;

Dividends to be determined half-yearly.

and a dividend shall be made as soon thereafter as conveniently may be,

and the amount of such dividend shall be determined by the directors, subject to the provisions of section forty-five;

No unpaid dividend shall bear interest as against the Bank.

45. The directors, before declaring any dividend, may set aside out of the profits of the Bank such a

Reserve-fund.

invest the same upon any of the securities specified in section thirty-six, paragraph (*a*), clauses (1), (2), (3) and (4).

46. The directors may from time to time apply such portion as they think fit of the reserve-fund to meet contingencies, or for equalizing dividends, or for any other purposes of the Bank, which they from time to time deem expedient.

Application of reserve-fund.

CHAPTER X.

AUDIT.

47. Two auditors shall be elected and their remuneration fixed at the annual general meeting.

Election of auditors.

The auditors may be proprietors or shareholders; but no director or other officer of the Bank is eligible during his continuance in office.

Who may be auditors.

Any auditor shall be re-eligible on his quitting office.

Auditors re-eligible.

The persons who shall be auditors on the first day of May 1876, and all auditors elected under this section, shall severally be and continue to act as auditors until the first general meeting after their respective elections:

Auditors' tenure of office.

Provided that if any casual vacancy occurs in the office of any auditor, the directors shall forthwith call a special meeting for the purpose of supplying the same.

Supply of casual vacancy in office.

48. Every auditor shall be supplied with a copy of the half-yearly balance-sheet, and it shall be his duty to examine the same, with the accounts and vouchers relating thereto.

Rights and duties of auditors.

Every auditor shall have a list delivered to him of all books kept by the Bank, and shall at all reasonable times have access to the books, accounts and other documents of the Bank, and may (at the expense of the Bank) employ accountants or other persons to assist him in investigating such accounts, and may, in relation to such accounts, examine the directors or any other officer of the Bank.

The auditors shall make a report to the proprietors and shareholders upon the annual balance-sheet and accounts; and in every such report they shall state whether, in their opinion, the balance-sheet is a full and fair balance-sheet containing the particulars required by the bye-laws made under this Act and properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs, and in case they have called for any explanation or information from the directors, whether it has been given by the directors and whether it has been satisfactory.

Such report shall be read together with the report of the directors at the annual general meeting.

CHAPTER XI.

MEETINGS.

49. On the first Monday of the month of August in every year, or as soon after such day as is convenient, a general meeting

Annual general meeting.

A notice convening such meeting, signed by the Secretary, shall be published in the local official Gazette, and in the case of the Bank of Bengal also in the *Gazette of India*, at least fifteen days before the meeting is held.

Special meetings.

50. Any ten or more proprietors or shareholders holding stock or shares, or both, to the aggregate amount of fifty thousand rupees, or any three directors, may convene a special meeting upon giving fifteen days' previous notice of such meeting, and of the purpose for which the same is convened, as well to the directors as also by public advertisement in the local official Gazette, and in two of the English daily newspapers and one of the Vernacular newspapers:

Provided that three months' previous notice shall be thus given of any special meeting held for the purpose of increasing or reducing the capital of the Bank, and shall also be served on every proprietor and shareholder.

Quorum.

51. No business shall be transacted at any meeting, whether general or special, unless a quorum of twenty proprietors or shareholders, or both, in person or by proxy, is present at the commencement of such business.

If within one hour from the time appointed for the meeting a quorum is not present, the meeting, if convened by proprietors or shareholders not being directors, shall be dissolved: in any other case it shall stand adjourned to the same day in the following week at the same time and place, and if at such adjourned meeting a quorum is not present it shall be adjourned *sine die*.

Decision by majority of votes.

52. At meetings whether general or special, every election and other matter submitted to the meeting shall be decided by a majority of votes, except as in section thirteen and in section twenty-seven, clause 4, is specially provided,

and no person shall be allowed to vote at any such meeting in respect of any stock or share acquired by transfer, unless such transfer shall have been completed and registered at least three months before the time of such meeting.

Persons not allowed to vote.

53. A declaration by the chairman of any meeting, except a special meeting held under section thirteen, that a resolution has been carried thereat upon a show of hands, shall be conclusive, and an entry to that effect in the book of proceedings of the Bank shall be sufficient evidence of that fact, without proof of the number or proportion of the votes recorded in favour of, or against, such resolution demanded in writing by five proprietors or shareholders present and entitled to vote at such meeting.

Poll to be taken, if demanded.

54. If a poll be demanded, it shall be taken at such time and place, and (except at the special meeting last aforesaid) either by open voting or by ballot, as the chairman directs and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.

Proceedings and resolutions at meetings to be binding.

55. The proceedings at any meeting, and all resolutions and decisions of such meeting, shall be valid and binding on the Bank, so far as such proceedings, resolutions and decisions are consistent with the provisions of this or any other Act for the time being in force and regulating the Bank.

Scale of votes.

56. At all such meetings, the proprietors or shareholders shall vote according to the following scale:—

57. Any proprietor or shareholder entitled to vote at any meeting under this Act may give a proxy in writing, either general or special, under his hand or the hand of his attorney duly authorized, to any other proprietor or shareholder.

Proxies of proprietors or shareholders.

Such proxy shall be produced at the time of voting, and shall entitle the person to whom it is given to vote on such matters as shall be authorized by the tenor of such proxy.

But no person shall be permitted to vote in virtue of such proxy unless it has been left for registration at the office of the Bank at least three clear days before the time for holding the meeting at which it is intended to be used:

Provided that a general proxy which has been registered at such office need not be again left for registration previous to any subsequent meeting.

Proxies existing and in force with reference to any of the present Banks, on the first day of May 1876, shall continue in force and be available at meetings under this Act, anything herein contained notwithstanding.

Existing proxies.

A general power-of-attorney shall be deemed a proxy within the meaning of this section.

58. If any proprietor or shareholder is a lunatic or idiot, he may vote by his committee or other legal curator, and if any proprietor or shareholder is a minor, he may vote by his guardian, or any one of his guardians, if more than one.

Voting by lunatic and minor shareholders.

CHAPTER XII.

NOTICES.

59. Every notice or other document requiring to be served by the Bank upon any proprietor or shareholder may be served either personally, or by leaving it for, or sending it through the post by registered letter addressed to, him at his registered place of abode;

Service of notices by Bank.

and every notice sent through the post shall be deemed to have been served at the time at which, in the usual course of post, it would have been delivered.

60. Any proprietor or shareholder who changes his name or place of abode, or being a female marries, and the husband of any such female, respectively, shall not be entitled to recover any dividend or to vote until notice of the change of name or abode or marriage be given to the Bank, in order that the same may be registered.

Notices by shareholders.

Every notice to be given on the part of any proprietor or shareholder shall be left at the office of the Bank, or sent through the post by registered letter addressed to the Secretary of the Bank at its principal office.

61. Every person who by operation of law, transfers or otherwise becomes entitled to any stock or shares, shall be bound by any and every notice or other document which, previously to his name and address being entered upon the register of the Bank in respect of such stock or shares, has been given to the person from whom he derives his title thereto.

Shareholder bound by notices to previous holders.

62. When any notice or document is delivered or sent, in accordance with this Act, at or to the registered place of abode of a proprietor or shareholder, then, and notwithstanding he be then deceased, and whether or not the Bank have notice of his decease, such service of the notice or other document shall, for all purposes of this Act, be deemed service thereof on him, or, if dead, on his heirs, executors, administrators, and every of them.

Service of notices good notwithstanding shareholder's death.

CHAPTER XIII.

BYE-LAWS.

63. The directors shall as soon as may be make, and may from time to time alter, bye-laws regulating the following matters or any of them:—

Power of directors to make bye-laws.

(*a*) the maximum amount which may be advanced or lent by discount of bills, or otherwise, to any individual or partnership, without the security mentioned in section thirty-six, paragraph (*a*), Nos. (1) to (5) inclusive,

(*b*) the circumstances under which alone advances may be made to directors or officers of the Bank, or the relatives of such directors or officers, or to companies, firms or individuals with which or with whom such directors, officers, or relatives are connected as partners, directors, managers, servants, shareholders, or otherwise,

(*c*) the particulars to be contained in the half-yearly balance-sheet,

The directors may from time to time make bye-laws regulating the following matters or any of them:—

(*d*) the distribution of business amongst the directors,

(*e*) their remuneration,

(*f*) the delegation of any powers of the directors to committees consisting of members of their body,

(*g*) the procedure at the meetings of the board or of any committee of the directors,

(*h*) the books and accounts to be kept at the head and other offices respectively,

(*i*) the reports and statements to be prepared and made by the Chief Accountant, the heads of departments, and the other officers of the Bank,

(*j*) the management of the branches and agencies,

(*k*) the fees payable for certificates of shares or receipts for stock, or for registration of transfers of shares or stock,

(*l*) the renewal of certificates of shares and receipts for stock, which have been worn-out or lost,

(*m*) and, generally, for the conduct of the business of the Bank:

Provided that no bye-law, or alteration or rescission of any bye-law, shall be of any validity, except in so far as the same is consistent with the provisions of this Act, and has been previously approved by the Governor General in Council, and such approval has been signified in writing under the hand of a Secretary to the Government of India.

Proviso.

CHAPTER XIV.

MISCELLANEOUS.

Power to institute and compromise suits.

64. The directors may institute, conduct, defend, compromise, refer to arbitration and abandon legal and other proceedings and claims by or against the Bank or the directors or officers of the Bank, and otherwise concerning its affairs.

Evidence in legal proceedings against shareholders.

65. In any suit brought against any shareholder to recover any debt due for any call or other monies due from him in his character of shareholder, it shall be sufficient to allege that the defendant is a shareholder of the Bank, and is indebted to the Bank in respect of a call made or other monies due, whereby a right to sue has accrued to the Bank;

and, on the hearing of any suit brought by the Bank against any shareholder to recover any debt due for any call, it shall be sufficient to prove that the name of the defendant is on the register of shareholders of the Bank as the holder of the shares in respect of which such debt accrued, and that the call was made, and that notice of such call was duly given to the defendant in pursuance of this or any other Act for the time being in force regulating the Bank;

and it shall not be necessary to prove the appointment of the directors who made such call, nor that a quorum of directors was present at the Board at which such call was made, nor that the meeting at which it was made was duly convened or constituted.

Modification of 33 Geo. III, sess. 2, cap. 52.

66. Nothing in the Thirty-third of George the Third, session two, chapter fifty-two, shall be deemed to render it unlawful for any servant of Government, or for any Judge of a High Court, to become a member of any corporation established under this Act.

Power to wind up Bank under Indian Companies Act.

67. Notwithstanding anything contained in this Act or in section 231 of Act No. X of 1866, whenever the proprietors and shareholders have passed a special resolution that the Bank shall be wound up voluntarily under the Indian Companies Act, 1866, the Bank shall be wound up accordingly, as if it were a Company under that Act:

Provided that no such special resolution shall be deemed to have been passed unless at least one-third of the proprietors and shareholders holding at least one-half of the paid-up capital of the Bank for the time being, be present in person or by proxy, and a majority poll by open voting in favour of the said resolution, and such resolution has been confirmed by a majority of such proprietors and shareholders at a subsequent special meeting held at an interval of not less than one month, nor more than two months, from the date of the meeting at which such resolution was first passed.

Sale to Banks of Bengal and Madras of Government shares therein.

68. And whereas the Government of India has agreed to sell, and the directors of the present Bank of Bengal have agreed to purchase, at a premium of twenty-two and a half per centum, the said two thousand two hundred shares of one thousand rupees each held by the Government of India in the said Bank: and it is intended that the directors of the Bank of Bengal as constituted by this Act shall cancel two thousand of such shares, and sell for the benefit of the Bank four hundred shares in the same Bank corresponding with the remaining two hundred shares so agreed to be sold and purchased;

And whereas the Government of India has agreed to sell, and the directors of the present Bank of Madras have agreed to purchase, at a premium of ten per centum, the said five hundred and sixty-two and a half shares held by the Government of India in the same Bank: and it is intended that the directors of the Bank of Madras as constituted by this Act shall cancel the same shares;

Purchase and cancellation by directors of 62½ shares in present Bank of Madras.

And whereas the directors of the present Bank of Madras have purchased and cancelled other sixty-two and a half shares in such Bank;

And whereas the said respective directors of the present Bank of Bengal and Bank of Madras had no power to enter into the said agreements with the Government of India, and the directors of the Bank of Bengal as constituted by this Act have no power to sell the four hundred shares referred to in this section, and the said directors of the present Bank of Madras had no power to purchase and cancel the said other sixty-two and a half shares;

And whereas the directors of the Bank of Bengal as constituted by this Act have no power to cancel the said two thousand shares and the said directors of the Bank of Madras as constituted by this Act have no power to cancel the said five hundred and sixty-two and a half shares;

And whereas it is expedient to confirm the said agreements with the Government of India, and to indemnify the said respective directors of the present Bank of Bengal and Bank of Madras for entering into the same, and to confirm the said purchase of the said other sixty-two and a half shares by the directors of the present Bank of Madras, and to indemnify the same directors for making the same, and for cancelling the same shares, and to empower the directors of the Bank of Bengal as constituted by this Act to sell the said four hundred shares, and to empower the respective directors of the Bank of Bengal and Bank of Madras as constituted by this Act to cancel the said shares so intended to be cancelled; It is hereby further enacted as follows:—

Confirmation of agreements with Government.

(*a*).—The said agreements with the Government of India are hereby confirmed, and the said respective directors of the present Bank of Bengal and Bank of Madras are hereby indemnified for entering into the same; and no suit or other proceeding shall be maintained against any such director in respect of any thing *bonâ fide* done in pursuance of either of such agreements.

Confirmation of purchase of the 62½ shares.

(*b*).—The said purchase of the said other sixty-two and a half shares is hereby confirmed, and the said directors of the present Bank of Madras are hereby indemnified for making the same and for cancelling the same shares; and no suit or other proceeding shall be maintained against any such director in respect of anything *bonâ fide* done in effecting such purchase

(*c*).—The directors of the Bank of Bengal as constituted by this Act shall have power to sell, and shall, as soon as conveniently may be, sell, the said four hundred shares, either together or in parcels, and either by public auction or private contract, and shall apply the proceeds in or towards paying the price of the shares of the Government of India so agreed to be purchased by the directors of the present Bank as aforesaid, or otherwise for the benefit of the Bank of Bengal as constituted by this Act.

Sale by directors of 400 shares in Bank of Bengal.

(*d*).—The directors of the Bank of Bengal as constituted by this Act shall have power to cancel, and shall, as soon as conveniently may be, cancel, the said two thousand shares, and the directors of the Bank of Madras as constituted by this Act shall have power to cancel, and shall, as soon as conveniently may be, cancel, the said five hundred and sixty-two and a half shares.

Cancellation of certain shares.

[Third Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 11th April 1876, and is hereby promulgated for general information:—

ACT NO. XII OF 1876.

An Act for the repeal of certain Obsolete Enactments.

WHEREAS it is expedient that the enactments mentioned in the schedule to this Act, which have ceased to be in force otherwise than by express and specific repeal, or have by lapse of time and change of circumstances become unnecessary, or which merely repeal prior enactments, should be expressly and specifically repealed; It is hereby enacted as follows:—

Preamble.

1. The enactments described in the schedule annexed to this Act are hereby repealed to the extent mentioned in the third

Enactments in schedule repealed.

Provided that the repeal by this Act of any enactment shall not affect any Statute, Act or Regulation, in which such enactment has been applied, incorporated, or referred to:

And this Act shall not affect the validity or invalidity of anything already done or suffered, or any indemnity already granted, or any right or title already acquired or accrued, or any remedy or proceeding in respect thereof, or the proof of any past act or thing:

Nor shall this Act affect any principle or rule of law, or established jurisdiction, form or course of pleading, practice or procedure, or existing usage, custom, privilege, restriction, exemption, office or appointment, notwithstanding that the same respectively may have been in any manner affirmed, recognized, or derived, by, in, or from any enactment hereby repealed:

Nor shall this Act provide or restore any jurisdiction, office, custom, privilege, restriction, exemption, usage or practice not now existing or in force.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 29th April 1876.

No	District, and date of return	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
Western Districts			
BURDWAN DIVN. 1	Burdwan, May 1,* '76	Nil.	Weather—Strong south wind. Ploughing stopped. Til, oilseed, and cotton are suffering from want of rain. Cholera is reported to have abated in Raneegunge, but still prevails in the east of the district.
2	Bankoora, Apl 29, „	Nil.	Weather—Hot and dry Rain is much wanted. Cases of cholera reported from the district.
3	Beerbhoom, „ 29, „	Nil.	Weather—Hot, with high winds from west and east alternately. Rain is much wanted for early ploughings and for indigo.
4	Midnapore, „ 29, „	Nil.	Weather—Hot and sultry. Rain is wanted. Such crops as are on the ground would be benefited by a good shower.
5	Hooghly, „ 29, „	Nil.	Weather—Very hot. Sowings of *aous* and *arhur* retarded from want of rain. Sugarcane is still being planted out in some places. October sowings of indigo, onions, cucumbers, water-melons, &c., on the ground are doing well, but rain is much needed. Harvest of *boro* or spring paddy is going on. The country generally shows no cultivated blade beyond the skirts of the villages. Want of drinking-water is seriously felt in several parts. Cholera is abating.
	Howrah, „ 29, „	Nil.	Weather continues to be warm. Nothing new to report on the state and prospects of the crops.

* Telegram of the 1st May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs, May 1,* '76	Nil.	Weather—Hot and windy. No crops on the ground. Land is being prepared for cultivation. Scattered cases of cholera reported from Busseerhaut, Baraset, Satkhira, and Barripore.
Presidency Divn. 7	Nuddea, Apl. 29, „	Nil.	Weather—Very hot and dry. A considerable portion of the early rice, and some late rice, have been sown; the former is germinating. Both rice and indigo require rain.
Presidency Divn. 8	Jessore, „ 29. „	1·06	Weather—Clear and hot, some rain has fallen. The reaping of the spring rice continues in Narrail, and has been finished in Bagirhaut. Outturn is good. Millet has also given a good crop. Indigo and the rice crops are progressing favourably.
Presidency Divn. 9	Moorshedabad, „ 29, „	Nil.	Weather—Very warm during the day. No rain in any part of the district. The slight rainfall at the end of last week enabled cultivators to continue ploughing and preparing their lands. In some parts rice sowings have been effected and the seeds have germinated. Indigo and mulberry are doing well. Prices are stationary. Cholera has considerably abated.
Rajshahye Divn. 10	Dinagepore, „ 28. „	·32	Weather—Occasional showers, and wind shifting to all quarters. The ploughing for *bhadoe* or early crops is going on satisfactorily. Though the crop is late, some is above ground. The *boro* or spring dhan is much injured by drought. Mungo is good; tobacco is poor. Thirty-three deaths from cholera, ten from small-pox, which is increasing. Cholera is decreasing.
Rajshahye Divn. 11	Maldah, „ 29. „	·01	Weather—Very hot and close; slight rain has fallen; more is required. At present the crops are all right. Four deaths from cholera.
Rajshahye Divn. 12	Rajshahye, „ 29, „	Nil.	Weather—There was moderate rain in the jurisdiction of the following stations on the 22nd instant, viz. Nattore, Barigonn, Bagmara, Tanore, Bandai, Kaharah, Singra, and Mundah. The prospects of the *boro* dhan or spring paddy are good throughout the district. Til or sessamum crops are thriving well. Rice sowings are going on. More rain is required. Cholera has much abated.
Rajshahye Divn. 13	Rungpore, „ 28, „	Nil.	Weather—Hot. The rainfall at Gyabanda has been ·21, at Bagdogra ·71, and at Kurigram 1·77 inches. Sowings of rice have become general. Rain is wanted to the south; to the east the fall has been very plentiful, and rice and millets are flourishing.
Rajshahye Divn. 14	Bogra, „ 29, „	Nil.	Weather—Cloudy and threatening, but no rain. Very hot after midday. Rain would help the sowing of the later *aous*. The early *aous* on the low damp lands is well on, and will be cut next month.
Rajshahye Divn. 15	Pubna, „ 29. „	Nil.	Weather—Very hot. 1·8 inches of rain fell on the 21st and 22nd at Serajgunge, where the weather is reported to have been stormy. State and prospects of the crops at date are excellent, but more rain would do good in the sudder subdivision. Cholera has almost disappeared from Pubna, but a few sporadic cases both of cholera and small-pox have been reported at Serajgunge.
Cooch Behar Divn. 16	Darjeeling, „ 28, „	·28	Weather—Rain fell on Saturday, Sunday, and Monday, and although the fall was slight, it has done good. It is said to have fallen in the plains also, but of this no formal report has been received by the Deputy Commissioner. The young crops in the hills, and the sowings in the plains, are progressing favorably.
Cooch Behar Divn. 17	Julpigoree, „ 29. „	2·42	Weather—Variable. Prevailing wind east by north. The showers which have fallen on three days of the past week have done great good. From eight to twelve annas of the early rice have been sown.
Cooch Behar Divn.	Cooch Behar, „ 27. „	1·63	Weather—Rain fell on the 22nd and 23rd. Weather variable and cloudy, but very hot when not raining. General prospects of harvest much improved by the rain. The price of rice has fallen to Rs. 2-8, and in some places to Rs. 2 a maund. The *cheena* crop is but so and so, but the prospects of the *kaon* crop are improving; also of the *bitre dhan*. Cholera is very prevalent.
	Eastern Districts.		
Dacca Divn. 18	Dacca, May 1,† '76	Nil.	Weather—Seasonable. Crops are very good. Cholera is raging in the Manikgunge Sub-division.
Dacca Divn. 19	Fureedpore, Apl. 29. „	·35	Weather—Very strong south winds. The rainfall at Goalundo has been ·77 inch, and at Madaripore ·37 inch. State and prospects of sugarcane, low land rice, and jute, are good. Rain wanted for high lands. Cholera has nearly left the district.
Dacca Divn. 20	Backergunge, „ 27, „	·2	Some rain has fallen. Prospects of crops are good. There has been an improvement in the health of the district. Cholera is still prevalent, but not so bad as it was before.
Dacca Divn. 21	Mymensingh, „ 28, „	·10	Weather—Nights dull and hot. It is oppressive in the day. Sowing of early rice and jute is carried out extensively. *Boro* rice crop is nearly reaped.
Dacca Divn. 22	Tipperah, „ 28, „	Nil.	Weather—Hot, with high southerly gales. The ploughing for the winter rice has been going on during the week, and the sowing of the early rice has been nearly completed.

* Report of the 1st May, received on the same day, shows rainfall during the seven days immediately preceding.

† Telegram of the 1st May, received on the same day, shows rainfall during the seven days immediately preceding.

	***Eastern Districts.*—(*Continued.*)**		
CHITTAGONG DIVN. 23	Chittagong, Apl. 27, '76	Nil.	Weather—Hot and bright. Rain is wanted. Cholera is very prevalent throughout the district.
24	Noakholly, „ 27, „	Nil.	Weather—Generally fair and hot. Wind from the south was strong on the 23rd and 24th. Pulses, chillies, linseed, &c, are progressing moderately. Rain is wanted everywhere. Ploughing for the early rice crop, and sowing for early and late rice, continue. Cholera still prevails in the interior. Fever has slightly increased on account of the heat.
25	Chittagong Hill Tracts, „ 25, „	Nil.	Weather—Excessively hot throughout the week. *Joom* burning nearly finished. There are no crops on the ground.
	Hill Tipperah, „ 26, „	Nil.	Weather—Windy and cloudy. State and prospects of the crops are good.
	BEHAR.		
PATNA DIVN. 26	Patna, May 1,* '76	Nil.	Weather—Hot; east winds are chiefly prevailing. The *rubbee* crops have been harvested; those that are coming on, such as *cheena* millet and sugarcane, are reported to be doing well, notwithstanding there being no rain. A good deal of cholera, and some cases of small-pox, prevail generally throughout the district.
27	Gya, Apl. 29, „	Nil.	Weather—High west winds and extreme heat. The thermometer is recorded at 111° 4′ in shade. *Rubbee* crops are harvested. *Cheena* millet, which is sown is good. Cholera and small-pox are prevalent, but not on the increase.
28	Shahabad, „ 29, „	Nil.	Weather—Hot, with westerly wind. *Rubbee* crop is all in. *Cheena* millet and sugarcane are being sown. Sharp epidemic of cholera in Buxar and Arrah. It is prevalent more or less in Bhabooah. Small-pox is still reported from Bhabooah.
29	Durbhunga, „ 29, „	Nil.	Weather—Very warm, and strong easterly wind prevailing. As far as crops are concerned, the Collector finds nothing new to report, except that at present indigo promises well everywhere in the district. Cholera of a sporadic form has made its appearance, and cases of small-pox have also been reported. As this is the most unhealthy season of the year, the existence of disease is not abnormal. The requirements of those tracts of the Mudhoobany sub-division affected by last year's drought are being met.
30	Mozufferpore, „ 28, „	Nil.	Weather—Pleasantly warm, with east and west winds alternately. The rain that fell on 13th instant has done much good, and *cheena* millet, where sown, is growing well. More rain is wanted. Cholera is decreasing.
31	Sarun, „ 29, „	Nil.	Weather—Hot and close, with variable wind. No change in the state of the crops since last report. *Cheena* millet and *bhadoe dhan* or early rice, sugarcane, and cotton, are doing well. Prices (wheat excepted) are rising. Cholera is still prevalent in Revelgunge.
32	Chumparun, „ 28, „	Nil.	Weather—Very close and hot. It is excellent for the growth of *cheena* and *kodo* millets and *arhur* pulse and indigo, and some other crops sown lately. Rain is much wanted for preparing the fields for sowing *makai*, *marwá* millets, &c.
BHAGULPORE DIVN. 33	Monghyr, „ 29, „	Nil.	Weather—Fair. Alternate east and west winds. Indigo is improved, and the mango crop is said to be the best for the last twenty years. The *mohwa* is good. Rain is wanted generally.
34	Bhagulpore, May 1,* „	Nil.	Weather—Mild west wind during the first half of the week, since then strong easterly wind. At Soopole agricultural prospects are excellent. General health is very good, but cholera and small-pox cases are still reported from various parts of the district.
35	Purneah, Apl. 29, „	Nil.	Weather hot, with high east wind. The *bhadoi* sowings are very backward owing to want of rain. *Makai* or Indian-corn is doing well. Cholera is still prevalent.
36	Sonthal Pergha. „ 29, „	Nil.	Weather—Very hot and dry everywhere. Indigo and mango crops are reported very good from Rajmehal. Health improved in Deogrur. Cholera reported from Rajmehal.

* Telegrams of the 1st May, received on the same day, show rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Div. 37	Cuttack, Apl. 23, '76	Nil.	Rain is much wanted. Ploughing for early rice has begun, but cannot proceed satisfactorily for want of rain. Cholera is still somewhat prevalent.
Orissa Div. 38	Pooree, „ 26, „	Nil.	Morning up to 8 A.M. cool; days very hot. Rain is very urgently required for the commencement of tillage. The harvesting of the *dalua* rice crop is still continuing. Cotton dying for want of rain. The new sugarcane crop is being planted. Mangos are ripening, but the crop is very poor. Cholera is raging in Pooree and parts of Khoordah.
Orissa Div. 39	Balasore, „ 27, „	·49	In the north of the district the progress in ploughing is satisfactory, and some of the early rice is being sown. In the south the ploughing is retarded by want of sufficient rain. Occasional deaths by cholera still reported.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, Apl. 28, '76	Nil.	Weather—Very hot, with strong west winds. Nothing on the ground. The *mohwa* crop has been a full one. Rain is much wanted to enable the ryots to plough their land. Cholera is still reported from the interior of the district.
41	Lohardugga, „ 28, „	Nil.	Weather—Days hot with comparatively cool nights. No crops on the ground. Rain is much wanted for ploughing. None has fallen for upwards of six months. Cholera and small-pox are still reported, the latter being very prevalent in Palamow.
42	Singbhoom, „ 28, „	Nil.	No rain has fallen. The prospects of the crops are nothing different since last week, *i.e.*, no crops to report about. The continued drought is drying up fast the pasturage, and renders it impossible to prepare any ground for cultivation, and agricultural prospects are altogether unfavorable. No further reports of cholera in the mofussil, but one case has occurred in the station.
43	Manbhoom, „ 29, „	Nil.	Rain not having fallen as usual in the cold weather, the country is dried up, and sickness, owing to scarcity and impurity of water, is on the increase. In Gobindpore, and some other parts of the district where rain has fallen in small quantities, a little ploughing has been done, but the want of water is greatly felt by man and beast. This continued drought may do good if rain falls within the next fifteen days, as it will thoroughly dry up the soil and prevent insects.

NOTE.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

[First Publication.]

The 9th May 1876.—The following is in substitution of the declaration to the same purport published at page 383 of the *Calcutta Gazette* of the 12th April 1876, and republished at pages 398 and 434 of the issues of the 19th and 26th idem respectively:—

DECLARATION.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the Campbell Medical School and Hospital at Sealdah, Dihi Punchanogram, district 24-Pergunnahs, it is hereby declared that for the above purpose a piece of land measuring 58 beeghas, more or less, bounded on the north by the Sealdah Small Cause Court premises and the Calcutta and South-Eastern State Railway lands; on the east by the same railway lands; on the south by the Municipal Railway and holdings Nos. 19, 22, 21, and (34 and 38A), the property respectively of Brojo Nath Kundu, Brindabasini Dassi, Debnarain Chatterjee, and Government, the Muchipara Lane, and holding No. 49, the property of Diljan Ostagar; and on the west holdings Nos. 33 and 49, the property respectively of Shaikh Abdul Sovan and Diljan Ostagar, and the Lower Circular Road, is required in Sub-division XIX, Division III, Khas Mehal Punchanogram.

2. This declaration is made, under the provisions of Act X of 1870, to all whom it may concern.

3. A plan of the land may be inspected at the Office of the Collector of 24-Pergunnahs at Alipore.

NOTIFICATION.
No. 156.
The 6th May 1876.

UNDER Section 89 of Act X of 1871, the following annual accounts and reports of the District Road Committees of Chittagong, Noakholly, and the Chittagong Hill Tracts, of works done and in progress during the past cess year 1874-75, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

G. A. D. ANLEY, C.E.,

No. 65L, dated Chittagong, the 13th December 1875.

From—T. M. KIRKWOOD, Esq., Chairman of the District Road Committee,
To—The Commissioner of the Chittagong Division.

I HAVE the honor to submit a report of the Road Cess Committee's operations during the cess year 1874-75 in this district. The detailed account current of the receipts and expenditure of the District Road Fund during that year, a copy of which has been already forwarded to you with this office No. 13L, dated the 2nd ultimo, having been approved and passed by the Committee convened on the 2nd instant for that purpose, is forwarded in Appendix A.

2. The original District Road Committee was during the year abolished, and the present Road Cess Committee, consisting of five official and ten non-official members, were appointed by the Government Resolution of the 28th December 1874. I give below a list of the names of the members, showing against each the number of meetings held since his appointment and the number at which he has attended.

3. Mr. Veasey, acting as Magistrate-Collector, was Chairman up to the beginning of February, when I took over charge of the district. On the 27th April last Baboo Nobin Chundra Sen, Deputy Collector in charge of Road Cess Office, was elected Vice-Chairman of the Committee. Much good work has been done at the meetings; some of the native non-official members have taken considerable interest in the subjects discussed, especially Sheik Abdool Malum, Baboo Gopee Mohun Ghose, and Baboo Kanto Prosad Hazari.

The following table shows, side by side, the estimated and actual receipts of the year:—

		Estimated receipts.			Actual receipts.		
		Rs.	A.	P.	Rs.	A.	P.
1.	Miscellaneous cesses	.....			474	15	1
2.	Canal tolls	3,220	0	0	4,314	2	7
3.	Ferry tolls	4,209	0	0	6,135	4	3
4.	Grant-in-aid from Government ...	15,000	0	0	15,000	0	0
5.	Fines and refunds	.....			756	10	2
6.	Miscellaneous receipts ...	.....			5	0	0
	Total ...	22,429	0	0	26,686	0	1
	Balance at close of cess year 1873-74	31,040	3	11	31,040	3	11
	Grand total ...	53,469	3	11	57,726	4	0

It will be seen that the actual receipts have exceeded the estimate by Rs. 4,257.

4. Of the Rs. 474 shown as miscellaneous cesses, Rs. 329 are the proceeds of the one per cent. road cess levied on some of the recently settled Government estates, the rest being made up of fines realized from the proprietors of estates for non-submission of returns called for under section 6 of Act X of 1871.

The canal and ferry tolls for the present year, 1875-76, fetched at public auction a much higher figure than was anticipated, and the deposit payments on this head account for much of the excess shown.

The Rs. 756 shown as fines and refunds represents the unexpended balance refunded by persons who had received petty advances for works undertaken by them.

5. The following table shows, side by side, the estimated and actual expenditure of the year:—

		Estimated expenditure.			Actual expenditure.		
		Rs.	A.	P.	Rs.	A.	P.
1.	Cost of Committee's office establishment	420	0	0	414	1	3
	Contingencies	300	0	0	290	11	9
2.	Cost of establishment for assessment and collection of revenue ...	5,990	0	0	6,617	1	3
3.	Office contingencies for assessment and collection of revenue ...	366	0	0	615	1	10
4.	Original road works	21,693	0	0	23,716	1	11
5.	Original expenditure on ferries ...	3,050	0	0	3,710	0	0
6.	Repairs of roads	8,783	0	0	8,047	9	10
7.	River and canal works ...	4,799	0	0	3,928	10	4
8.	Ferry establishment with contingencies	1,572	0	0	1,229	14	7
9.	Road establishment with contingencies	4,061	0	0	3,322	4	10
10.	Reserved for petty works ...	600	0	0	.....		
11.	Reserved for village roads ...	1,400	0	0	.....		
12.	Tools and plant	350	0	0	168	2	7
13.	Refunds	.....			74	3	0
	Total ...	53,384	0	0	52,133	15	2
	Balance	.....			5,592	4	10
	Grand total ...	.....			57,726	4	0

Thus it will be seen that the total actual expenditure falls short of the estimate by Rs. 1,250. This is owing to the fact that though Rs. 500 were during the year advanced for petty works, and Rs. 1,400 for repairing village roads, the accounts of the final expenditure of these sums had not been received up to the close of the year, so that they are not shown under the head of expenditure.

The entire amount shown as cost of establishment employed on assessment and collection of revenue and as contingencies on that account was disbursed on account of the establishment now engaged in the assessment of the road cess—an operation which, instead of extending over three months, as was estimated for, will probably extend over, more approximately, three years. On the subject of the progress of these assessments and the cost of making them a separate report was, on the 16th November last, submitted. It will suffice

here to note that Government has ordered that this establishment is to be paid from the ordinary funds of the Committee so long as they can bear the charge, and that when that cannot be done, Government will advance to the Committee the cost of the establishment at Rs. 1,250 per mensem for a period not exceeding eighteen months. Up to the close of the year Government had accordingly advanced to the Committee Rs 2,499-4-1 on this account; this sum is not shown on either side of the Committee's accounts. Record of the transaction remains in the treasury, and the amount is to be refunded out of the first year's collections of the cess.

The works on the very urgently required new roads (*a*) from Chittagong to Ramgurh on the Fenny, 50 miles, and (*b*) from Hathazari, on that road, to the Hill Tracts boundary, where it will meet the road from Rungamuttee, the head-quarters of the Hill Tracts district, 20 miles, were pushed on with the utmost energy our funds admitted of, and occasioned an excess outlay on original works to the amount of Rs. 2,023, which is more than set off by the savings under headings 6, 7, and 9.

6. On the 13th August it was estimated that the balance available for the year 1875-76 would be Rs. 8,500. But this estimate was framed under the impression that an amount of Rs. 3,372 paid to the road cess assessment establishment subsequently to the middle of April last, the date up to which the Committee had previously agreed to pay from their funds the cost of that establishment, would have been at once recovered in cash from the advance promised by Government; the terms of the more recent orders, however, forbid as yet the recovery of this amount.

7. Up to April last all the works of the District Road Committee were undertaken by the Executive Engineer, but under the Government Resolution No. 1209 of the 8th March 1875, it was resolved at a meeting held on the 27th April last that a separate road establishment, at a total annual cost of Rs. 4,800, should be entertained under the Committee. Original works of importance were to be placed under the supervision of the Executive Engineer of the division, and for this the Committee proposed to pay to Government a sum equivalent to 4½ per cent. on the outlay on works so supervised. This proposition was agreed to by Government. The percentage on an outlay of Rs. 11,417 since April last amounts to Rs. 513, while for the use of the Department Public Works establishment from October to March we paid Rs. 1,258.

8. The Committee much regret the extra drain which has been put on their already insufficient funds by the maintenance for some months of the cess assessment establishment—an outlay from which they can expect no return for another two years, and which reaches the (to them) very important sum of Rs. 7,000. They believe the figures given in paragraph 5 will show how earnestly they have set themselves to the work of effecting every possible economy, while they are determined to push on the works so much required by this district with all the energy of which their inadequate funds admit. It is with satisfaction that they perceive that their work establishment charges are but 12 per cent. on the value of the work executed by that agency (Rs. 3,322 on Rs. 27,756,*) and that they find their canals showing such an expanding revenue. These sold for Rs. 7,410 for the year 1875-76, as against Rs. 6,000 for the year 1874-75 and Rs. 4,653 as the average of the last five years.

9. The work done during the year is summarized below; further details are to be found in Appendix B:—

(1)—Widening, straightening, and bridging the road from Chittagong to Ramghur, distance 50 miles (from 12th mile to 15th mile).

(2)—Construction of a new road from Hathazari towards the Hill Tracts, distance 20 miles (from 2nd mile to 3rd mile).

(3)—Widening and straightening the road from Chittagong to Ookhia Ghât on the Naaf, distance about 100 miles, called the Arakan road (from 34th mile to 38th mile), with some bridging.

(4)—Construction of the road from Chittagong to the house of Sheik. Abdool Malum, one and a half miles (one mile constructed). Towards this road the above mentioned gentleman contributed half the cost, or Rs. 5,074, and now offers a further sum of Rs. 400 towards the Rs. 2,000 still necessary for its completion. The Port Fund has been charged with the other moiety.

(5)—Construction of bridges on a road from Cox's Bazar to Ramoo, distance about 10 miles.

(6)—Part construction of a road on Kutubdeah Island (one mile).

(7)—Purchase of three boats for the ferry from Kumeria to Sundeep Island, which is managed directly by the Committee.

(8)—Compensation for the resumption of Bagkhali ferry.

(9)—Providing the gate in Boalkhali canal with wing walls and angle irons.

(10)—Deepening the Banskhali and Boakhali canals.

(11)—Repairs to the completed portions of the main roads shown above as under construction and to several small works, mostly lying within a circle of ten miles round the town of Chittagong.

10. An unprecedented flood swept across a part of this district early in August last; I regret to say that it here and there caused much damage to the masonry works on our roads;

the damage it did to the earthwork, though considerable, is repaired with little difficulty. It completely swept away one bridge on the 29th mile of the Arakan road, and damaged the wing walls of many bridges on all the roads, especially on the Hill Tracts road.

11. Our estimated income for the present year is Rs. 29,792, including Rs. 5,592 the balance in hand at the close of year 1874-75. Our estimated expenditure disposes of the whole of this sum.

12. The Committee have rightly, I consider, determined to concentrate their operations more than has hitherto been the case. It appears to them that a road is of comparatively little use until it is open from end to end, and they have therefore resolved not to prosecute original works in the centre and south of this long straggling district to any extent until the important roads they have undertaken in the north are complete. The southern and central portions of this district are rich in water routes, but the fifty miles which lie north of the river Kurnafoolee is almost without these. They have therefore adopted the policy, in which I fully concur, and to which their slender resources compel them if they would confer any real benefit on the district, of starving as far as possible all other localities until the road from Chittagong to Ramghur on the Fenny and the road to the Hill Tracts boundary are accomplished facts. It can scarcely be doubted that the effect of the road to Ramghur will be to open up a considerable tract of country in thana Futtekcherry, embracing an area of some 200 square miles, which is at present, as far as I know, the only considerable tract in this district which admits of cultivation and has not been utilized. This portion of the district is at present but very thinly populated, and the means of locomotion are confined to narrow and broken foot-paths through jungle. The opening of this road would be certain to bring with it speedily the cart traffic, which is even now springing into existence on the thirteen miles completed at the southern end. Fifteen years ago the Dacca road, which runs through the north of the district parallel with the Ramghur road but separated from it by an impassable range of hills, had not a cart on it; its wheel traffic is now very heavy, and each of the villages along the roadside can show a score of carts.

The Hill Tracts road is scarcely less important. Its length in this district will be about twenty miles and in the Hill Tracts about fourteen miles. It branches from the Ramghur road twelve miles north of the town of Chittagong; Rungamuttee, the head-quarters of the Hill Tracts, will thus be brought within about forty-six miles of Chittagong. The tract of country through which the road passes has no good water-routes. It will give the hillmen great opportunities of visiting the markets of regulation districts, and will no doubt add considerably to the prosperity of the country through which it passes. On these two roads then, the Ramghur and the Hill Tracts, we mean to concentrate our energies until we bring them to a successful completion.

13. The matter which we hold to rank next as most urgent is the improvement of the waterways in the centre of the district. We have at present a most serviceable line of canals connecting the Kurnafoolee at Chittagong with the Sungoo, and the Sungoo with the Matamorce, in thana Chakoria (Cox's Bazar sub-division). The total length of the line is about forty miles. The increase of traffic on this route may perhaps be judged from the fact that while in 1874-75 these canals were farmed out for Rs. 6,000, they sold at the end of that year for 1875-76 for Rs. 7,410. Nevertheless in its present state this route is not complete; the waters are tidal and heavily laden with silt, which causes us much trouble, and necessitates frequent closures, remission of revenue, and expenditure. We have it therefore in contemplation to place locks at the entrance from the Kurnafoolee, as well as on either side of the Sungoo, and also at the southern terminus. But the expense will be heavy, and although some time may elapse before we can find the funds for the execution of this project, we apprehend that the time now expended in deliberation upon it will not be wasted if we can devise some efficient and economical method of effecting our purpose as soon as funds are available.

14. We also have under deliberation the opening up of the old and now almost unused Moiskhali canal connecting the port of Chittagong directly with the Bay of Bengal at a spot where the sea is, owing to the island of Sundeep, much less open and dangerous to boats than it is at the mouth of the Kurnafoolee. The length of this canal would be about seven miles; it would cut across the long tongue of land which now separates the windings of the Kurnafoolee from the sea. The cost, however, would be considerable, probably not less than Rs. 75,000, as the canal to be really efficient must be locked at both ends.

15. These are the projects which immediately press upon us. But it may not be out of place to note here the other lines of communication which, though second in importance to the above, are still very greatly needed.

Dividing the district into three portions, we have—

North of the Kurnafoolee.

(1)—Nazir Hât to Bibi Hât and Fennoa tea gardens (already in existence, requires improvement) eight miles (*a*).

(2)—Nazir Hât to Ranjan and Lamboo Hât on the Kurnafoolee, twenty-four miles (*a*).

(3)—Ranjan to Chowdhry Ghât on the Hulda, twelve miles (*a*).

II.—Sudder sub-division south of the Kurnafoolee.

(4)—Ten miles of the Arakan road at the southern end and some bridging, ten miles (*a*).

(5)—Puttea to Anwarah, eight miles (*b*).

(6)—Pathurghatta (opposite the town of Chittagong) to Jhalda, Parkee, and Gohira, along the south bank of the Kurnafoolee, and the sea face, eighteen miles (*a*).
(7)—Chandpore on the Sungoo, to Patanee on the Arakan road, twenty miles (*b*).
(8)—Chandpore on the Sungoo, due south, *vid* Juldee to Chunnna, twenty miles (*b*).
(9)—Four good bridges across the forty miles of canal.

III.—Cox's Bazar Sub-Division.

(10)—Arakan road from sudder sub-division boundary to Ookhia Ghât on the Naaf, fifty miles (*a*).
(11)—Cox's Bazar town to Ramoo on the Arakan road, ten miles, partly done (*a*).

N.B.—Roads which should be 12 feet broad are marked (*b*), roads which should be 16 feet broad are marked (*a*); no roads in this district need be more than 16 feet broad at the top. All the roads in this district are unmetalled.

We have thus before us (including the incompleted portions of the Ramghur road, thirty-five miles, and of the Hill Tracts road, seventeen miles) about 182 miles of unmetalled road sixteen feet wide with heavy bridging, and forty-eight miles of unmetalled road twelve feet wide with heavy bridging.

16. Besides this, there are the canal improvements already spoken of, and many small village roads and feeders. These latter are now being much attended to. The removal of encroachments is insisted on, zemindars and village headmen are compelled to look to their repair, jungle on either side is cut, and bridges which can be crossed in safety are being constructed. Provided the rest of the road is put in good repair, we now offer to construct the bridges on these village roads up to such a limit as that portion of our income which we annually set aside for this purpose will allow of. Some native gentlemen, amongst whom I may mention Sheik Abdool Malum and Deputy Collector Baboo Goluck Chunder Rai, are aiding us with liberal contributions towards the construction of roads in the neighbourhood of their villages. In several cases it is found that Mahomedan gentlemen and villagers have bequeathed lands for the maintenance of certain bridges and roads near their homes. Hitherto the object of the bequest has often been forgotten or neglected either wilfully or through the difficulties which in such a case numerous shareholders present; we are taking steps to enforce the observance of the obligation imposed, offering as an alternative to take over and manage the lands so bequeathed, if such an arrangement should be more convenient to the shareholders.

17. What we are at present each year enabled to effect in the way of opening communications is deplorably incommensurate with what should be done, but we can but husband to the utmost such funds as we have and carefully seek to expend them to the utmost advantage.

Ditto Poroikorah road	...	3 miles ditto ditto.
Ditto Sakeerapole road	...	2 ditto ditto.
Ditto Boalkhali towing path	...	4 bridges repaired.

The following are further details respecting these works :—

1. *Ramghur Road.*—The widening and straightening of this road has been carried out for about 2½ miles between 12th and 15th miles, having a width of 16 feet at top. It has also been turfed. One wooden bridge of 21 feet span with masonry abutment and wing walls, and masonry abutments and wings to a wooden bridge, 46 feet span, have been constructed on the 14th mile. This road has received surface repairs between the 3rd and 15th miles; 33 wooden bridges have been repaired and 8 tarred. It is proposed that during the year 1875-76 the road should be widened and straightened from the 15th to 19th mile, and surface repairs effected from 3rd to 14th miles. Existing bridges will be thoroughly repaired and some of the timber bridges tarred.

2. *Hill Tract Road.*—This road has been constructed three-quarters of mile in length and 16 feet on the top from the village Rohobullapore to Goherah. It has been turfed throughout the three miles complete, and has received surface repairs. Three wooden bridges and one masonry bridge have been repaired, and two wooden bridges tarred. The bridging for the three miles of road is not yet complete. This road will during the year be extended about three miles from Goherah village to the old Ranjan road, and a timber bridge of 64 feet span will be placed over the khal on the third mile. Surface repairs will be executed.

3. *Arakan Road.*—This road has been widened and straightened to sixteen feet on the top from 34th to 38th mile, and about half a mile on the 31st mile. It is not passable for vehicles beyond the 30th mile owing to the absence of bridges. The wooden superstructure over the masonry work of bridge No. 41, 100 feet span, and a culvert No. 43, of 5 feet 9 inches span, on the 30th mile, have been completed. It is not contemplated that new works will be taken in hand in 1875-76, except renewing five wing walls to the culvert and bridges Nos. 22½, 23, and 25 on the 16th and 17th miles, which have been damaged more or less by the floods which swept through the district in the first week of August. The road has received surface repairs from the east bank of the Kurnafoolee to the 29th mile, and is now in good order. Eighteen wooden bridges with wing walls have also been repaired. Surface repairs to the road from the east bank of the Kurnafoolee river to the 38th mile will be made during 1875-76, and the wooden bridges repaired and coal-tarred.

4. *Moishkhali Strand Road.*—This road from the village Gohaildanga, towards Abdul Malum's house at Halishohur, about one mile in length, with a width of sixteen feet to the top, has been constructed and turfed, and is perfectly passable for vehicles. The road has received surface repairs, and two masonry bridges have been plastered with Portland cement. Stone facing has been put on to the slope of the road 107 feet × 8 feet at Gohaildanga to protect the embankment from the encroachment of the river Kurnafoolee. Surface repairs will be executed on this line of road during the year 1875-76, and it is hoped to complete the remaining half mile to Abdul Malum's house. Rs. 2,000 is required for this, towards which Abdul Malum has offered Rs. 400.

5. *Road from Cox's Bazar to Ramoo.*—Two wooden bridges, each 6 feet by 16 feet, were constructed at a cost of Rs. 115-8. Another wooden bridge, 21½ feet by 12 feet, was constructed on masonry abutments at a cost of Rs. 97-9-6. This road has also been repaired within the limits of the Cox's Bazar municipality. Earthwork by the sides of five bridges was repaired. One wooden bridge, No. 1, 37½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 258-8-2, of which Rs. 20 were advanced before October 1874. Another wooden bridge, No. 2, 29½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 202-5-2. A third wooden bridge, No. 3, 21½ feet by 16 feet, was made on masonry abutments at a cost of Rs. 130-12-11. All these bridges have been strongly constructed of jarool planks, 2½ inches to 3 inches thick. The bridges appear to have been constructed on a scale larger than the traffic or funds warrant; a breadth of twelve feet is ample.

6. *Sluice gate on the Boalkhali Canal.*—Angle irons have been fixed for strengthening the gate and wing walls, and a terrace floor constructed.

7. Surface repairs to the following minor roads have been completed:—Robertgunge road, Mahajun Hât road, Tipperah Pass, Nusseerabad, Kaloor Ghât, Bakoleah, Halishohur, Moiskhali towing path, Anwarah, Paroikorah, Chandpore, Sakeerahpole, Dhulghat, towing paths on the banks of Boalkhali canal and Rangoneah roads. Sixteen wooden bridges have been repaired and twenty-three bamboo revetments have been put to the ends of bridges on the Chandpore road; wooden bridges, four on the Robertgunge road, one on the Sakeerahpole road, four on the towing paths on the banks of Boalkhali canal; two bamboo bridges on the Mahajan Hât road, and one bamboo bridge on the Rangoneah road have been repaired and constructed; two wooden bridges on the Anwarah road have been tarred, seven wooden bridges on the Kaloor Ghât road repaired. These roads will receive surface repairs during the year 1875-76. Necessary repairs to the wooden bridges will be executed.

4. The Committee is little better than a farce; the Road Cess Act and the business done under it are regarded as purely Government measures, and the Chairman and Vice-Chairman are the real managers of the whole. Non-official members take little or no interest in the matter of local improvements, and of official members, the Executive Engineer has not been here once during the year. Some difficulty has been experienced in getting together a quorum for the transaction of business as required by the Road Cess Act, and meetings had to be adjourned on several occasions in consequence. A meeting was convened on the 3rd instant to consider the annual accounts for the past year under sections 88 and 89 of the Act, but as no quorum was found, the accounts are submitted under the Chairman's countersignature, because to call a new meeting to elect a Sub-Committee and again call a Committee to pass the accounts, will take two or three months more. The Committee is an irresponsible body, and hence care little about the accounts.

5. The following works have been carried out during the cess year ending 30th September 1875:—

Construction of 38 bamboo bridges and deepening the Attiatolly canal have been completed.
Excavating a canal and constructing spurs to prevent encroachment of Chaprassee khal
Constructing Shahebghatta bridge.
Raising and widening the Laksham road between Nowtallee and Burroolla.
Widening the Dewangunge road, and plastering and raising masonry portions of the new bridges on the same.
Constructing masonry portions of six timber-topped bridges on the Laksham road.
Plastering and raising the masonry portions of the new bridges on the Begumgunge road.
Constructing bamboo spurs to prevent encroachment of Shahebghatta road.
Planting trees on the sides of the district roads.
Metalling the station road.
Turfing and filling up holes on the earthworks of the Dewangunge road.
Repairs to the Gullakhally, Taktakhally, and Cherakhally road.
Ditto Ramgunge road.
Ditto second section of the old Lakhipore road.
Ditto fencings of the trees on the sides of some of the district roads.
Ditto kutcha road of the sudder station.
Ditto Chittagong road and its bridges.
Ditto Luckipore road and its bridges.
Ditto Laksham or Begumgunge road.
Ditto Masonry portions of the old bridges on Dewangunge road.
Ditto Shahebghatta and Taktakhally road.
Raising and repairing the Dewangunge road.
Repairing, turfing, and dressing the earthworks on the Laksham road.
Raising and widening a section of Laksham road.
Repairs to the old Lakhipore road.
Raising the Raipore road damaged by last spring tide.

6. The following are the works proposed to be carried out during the cess year 1875-76:—

Cutting a canal at Shahebghatta to prevent encroachment on the road.

Constructing additional arches for the Shahebghatta bridge, and making road for approaching it.

Compensation for land taken for the Laksham road from Bazrah to Burroolla, the limit of this district, and for improving the road from Nowtallee to Burroolla.

Construction of temporary bridges on the Laksham road from Bogra to Burroolla.

Repairing and raising the Dhumchur bridge on the Robertgunge or Chittagong road.

Thorough repairs to the four important roads of the district, 104 miles, at Rs. 50 per mile—Chittagong, Dewanguuge, Lakhipore, and Laksham roads.

Thorough repairs to the petty and traffic roads of the sudder station, and to six bridges on them, viz. Taktakhally, Gullakhally and Cherkhally roads.

Thorough repairs to Ramgunge road, and raising approaches to four high bridges.

Thorough repairs to the old Lakhipore road from Madams Ghât *viâ* Chondragunge to Begumgunge, and from Begumgunge to Fazil, 40 miles.

Thorough repairs to four old bridges in the district roads, masonry, and timber tops.

Repairing fences and replanting trees on the sides of some of the district roads.

Repairing the kutcha out-station roads, 12 miles.

Repairing the metalled continuations of the district roads and their drains passing through the town.

Reconstruction of temporary bridges of district dâk and police station roads.

Completing reconstruction of the Banchanagore bridge.

Repairing the Begumgunge road from Mohindaghona to Begumgunge.

2. The sum of Rs. 3,600 shown as balance at credit of deposits was added to the funds of this district in May 1874 by a mistake in the Accountant-General's office. It is shown under that head by the order of the Controller, Public Works Accounts, Bengal. The Treasury Officer and the Accountant-General have been requested to adjust the mistake at their earliest convenience.

3. At the commencement of the year there were Rs. 14,447-0-9 outstanding on account of advances made to Myoni Tipras and others as per Bengal Government letters No. 3071 of 18th May 1872 and No. 1563 of 18th June 1873, received with Commissioner's endorsements No. 257 of 23rd May 1872 and No. 548 of 30th June 1873. At the close of the year there is a balance of Rs. 8,071-4-6 shown as advances outstanding. Out of which a sum of Rs. 1,661-0-9 was advanced to sufferers during the heavy floods in July and August last, and to Public Works Department for surveying the road from Rungamuttee towards Chittagong, leaving Rs. 6,410-3-9 recoverable on account of Road Fund from Myoni Tipras and others. The greater portion of this amount may be recovered during the working season of 1875-76.

4. It was proposed in the budget estimate for 1874-75 to execute works amounting to Rs. 25,568-15-3, but pending a professional survey all works were postponed, the expenditure, which amounts to Rs. 12,245-12-6, has thus fallen short of the original estimate, the balance, Rs. 13,323-2-9, is available for the current year, 1875-76.

5. *Communications, Original Works.—Roads and Bridges—South-Eastern Trunk Road, Lushai branch.*—The following works have been executed during the year under review:—An embankment 15 feet in breadth has been made on about two and a half miles of marshy land between Rungamuttee and Chittagong, 600,000 cubic feet of earth excavated at a cost of Rs 1,318-5-4, débris and boulders removed from a part of that road extending over a mile, and the road widened from two to six feet. Cost Rs. 200.

6. *Ditto.*—About 300,000 cubic feet of earth excavated from Manickcherry Moin, thus enlarging the cutting and reducing the height of that hill by ten feet. Cost Rs. 600.

7. *Ditto.*—Twenty-five bridges, consisting of large trunks of trees, and 67 small bridges constructed on that road. Cost Rs. 630-1-4.

8. *Ditto.*—The roads at Rungamuttee (head-quarters) have been improved and widened at a cost of Rs. 329-3-6.

9. *Ditto.*—About three and a half miles of road from Feskicherra towards Demagiree were improved by deeper cuttings in the sides of rocky hills by felling trees, uprooting stumps, and sunn grass, and removing them from the road; 20 bridges of large logs of wood planed on the top constructed. Cost Rs. 1,492-8.

10. *Ditto.*—On the road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee, large trees have been cut and removed, stumps of trees and sunn grass cleared, making a foot-path to an extent of 32 miles. Cost Rs. 3,104-2-8.

11. *Communications, Original Works.—River and Canal Works.*—The channel at Utanchutta rapids, between Rungamuttee and Demagiree, has been deepened and improved by cutting a passage through the rocks. At present boats with a cargo of twenty maunds can with ease go to Demagiree. Cost Rs. 306-13-3.

12. *Minor Original Works.*—The masonry revetment on the side of the head-quarters road has been plastered with soorkee and whitewashed at a cost of Rs. 227-5-6. The large well in the bazar at Rungamuttee has been plastered with soorkee and whitewashed at a cost of Rs. 79-15, and a masonry spring well has been constructed for Rs. 419-15, aggregate cost Rs. 499-14. These wells are a great boon to the station, inasmuch as they afford a supply of pure water, and since they have been in working order no outbreak of cholera or dysentery has occurred. The frequent outbreaks which formerly took place were attributed to bad water alone. The masonry ghât at Rungamuttee has been repaired and plastered with soorkee, and whitewashed. Cost Rs. 246-4-6.

13. *Repairs and Maintenance.—Roads and Bridges.*—Three miles of road from Chunderghona towards Rungamuttee have been repaired by earthwork, amounting to 40,000 cubic feet, and by levelling. Cost Rs. 118-5-4. Twenty miles of road from Rungamuttee towards Chittagong repaired at a cost of Rs. 279-10-8; about two miles of road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee repaired. Cost Rs. 33-2-5.

14. *Establishment.*—Special allowance of Mr. A. DeRozario, Inspector of Police, Rs. 600; salary of Charifoo, mohurir, Rs. 130, and of two overseers Rs. 150. Need no remarks.

15. *Tools and Plant.*—Rs. 1,935-11-9 spent for the purpose of purchasing tools for the use of the frontier police for constructing roads, clearing jungle, and for general purposes (*vide* Commissioner's letter No. 812 of 11th October 1873), and Rs. 24-14-2 paid for repairing tools, require no fresh comments.

16. Before detailing the works proposed to be undertaken during the year 1875-76, it is necessary to state that the construction of most of the works during 1874-75 on the two roads, first from Rungamuttee towards Chittagong, and second from Ruma, the head-quarters of the Sungoo sub-division, to Rungamuttee, have been postponed in order that they may be professionally surveyed and estimates framed by a professional engineer. A sub-engineer is at present employed in surveying the first-named road; as soon as he completes his work he will be deputed to the other road; but as it cannot be exactly ascertained when he will have finished and to what extent his estimate will amount, all money available for district roads for 1875-76 has been shown in lump sums in the budget estimate above named. I here take occasion to notice the immense damage caused to the Rungamuttee and Chittagong road by the unprecedented rainfall in July and August last, and the consequent floods. Extensive hardships have taken place. Out of 87 temporary woodeu bridges, each from 20 to 100 feet in length, which were constructed at much cost and labour over hill streams in previous years, 58 bridges have been washed away, and 17 bridges have been removed from their original positions. Large portions of road along the sides of steep and rocky hills and along the beds of nullahs whose course had been diverted were submerged, and in many such places no vestige of the road can now be traced. Large boulders and débris have fallen on the road from the hills above, and embankments have been swept away here and there. It is hoped that these damages may be repaired before the next rainy reason, otherwise much inconvenience will be caused by the interruption of communications.

17. The following works are proposed in the budget estimate for the year 1875-76:—

18. *Communication, Original Works.—Roads and Bridges.—South-Eastern Trunk Road, Lushai Branch Road No.* 5 (*vide* Bengal Government Circular, Public Works Department, No. 59 of 14th September 1875.—Constructing one mile of road at a cost of Rs. 1,000 from Rungamuttee towards Chittagong, by cutting in the sides of rocky hills and by changing the courses of nullahs near Gagra Moin and Champatholly.

19. *Ditto.*—Constructing six miles of road at a cost of Rs. 3,000 from Rungamuttee towards Chittagong, by raising the earthwork 3 feet high and 15 feet broad.

20. *Ditto.*—Cutting 500,000 cubic feet of earth from the hill near Rungamuttee, so as to make the road practicable in future for wheeled carts, at a cost of Rs. 1,500.

21. *Ditto.*—Cutting 400,000 cubic feet of earth at Rs. 1,200 from Manickcherry Moin for the above purpose.

22. *Ditto.*—Cutting rocky sides of hills and changing the bed of Saufcherry nullah at a cost of Rs. 600.

23. *Ditto.*—Improving the roads at the head-quarter station of Rungamuttee by widening them from 10 feet to 15 feet. Cost of throwing 100,000 cubic feet of earth Rs. 300.

24 *Minor Works.*—Constructing a dam at Rungamuttee for Rs. 478-8 to collect clean water (*vide* Commissioner's letter No. 70H. of 14th May 1875).

25. *Ditto.*—Constructing a circuit and staging bungalow at Rungamuttee, portion payable from Road Fund, Rs. 762 (*vide* Bengal Government letter No. 3935 of 7th August 1875).

26. Constructing 67 temporary bridges for Rs. 2,680, at Rs. 40 each, on the road from Rungamuttee towards Chittagong.

27. *Ditto ditto Road No. 7, ditto ditto.*—Constructing thirteen miles of road out of 66 miles from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamattee, by cutting and removing jungle, uprooting stumps and roots of trees, and digging out weeds and sunn grass. Cost Rs. 6,500.

28. *Ditto ditto ditto.*—Constructing a road at the head-quarter of the Sungoo sub-division 15 feet broad. Cost of throwing 150,000 cubic feet of earth Rs. 450.

29. *Minor Works.*—Constructing a village road for Rs. 80 from the mouth of Mukbaun to Nolleoniahbit, and another for Rs. 240 from the banks of the river Kurnafoolee to the village of Suhurchurry.

30. *Communication, River and Canal Works, No. 9, ditto ditto.*—Enlarging and deepening the channel at Uttanchuttra between Rungamuttee and Demagiree at a cost of Rs. 500, by cutting and blasting rocks from the bed of the river.

31. *Maintenance and Repairs, No. 2, ditto ditto.*—Repairing three miles of road for Rs. 50 from Chunderghona towards Rungamuttee, and a bridge for Rs. 20 on that road.

32. *Ditto ditto Road No. 5, ditto ditto.*—Repairing twenty miles of road towards Chittagong twice in the year—once during the rainy season, between July and September, again after the rains in December—by cutting and removing sunn grass and undergrowth of trees, at a cost of Rs. 1,000; removing débris and boulders from one mile of road for Rs. 200; repairing the head-quarters road for Rs. 100; a bridge for Rs. 25; masonry ghât for Rs. 100; whitewashing two wells for Rs. 50, and masonry revetment for Rs. 25.

33. *Maintenance and Repairs, Road No. 7, ditto ditto.*—Repairing 24 miles of road from Ruma, the head-quarters of the Sungoo sub-division, towards Rungamuttee twice in the year—once during the cold weather, and again during the rainy season—by cutting and removing sunn grass and weeds. Cost Rs. 1,200.

34. Special allowance of Mr. A. DeRozario, Inspector of Police, Rs. 600, salary of a clerk Rs. 240, of a mohurir Rs. 120, and of three overseers Rs. 450, will be paid locally, and Rs. 3,385, detailed in the margin, will be paid for establishment that may be entertained in the Public Works Department.

35. Purchasing new tools for Rs. 100, repairing tools for Rs. 100, and a reserve for unforeseen contingencies and other charges of Rs. 1,268-0-9 have been entered in the budget estimates.

36. The following is an abstract of the proposed budget estimates for 1875-76:—

37. It is necessary, for reasons mentioned in paragraph 16, to keep the roads from Rungamuttee towards Chittagong, and from Ruma, the head-quarters of the Sungoo, to Rungamuttee, open throughout the year, and it may take a long time before a professional survey and estimates are complete and meet the sanction of Government. Even if that sanction is obtained, it will take years before the road from Rangamuttee towards Chittagong can be made practicable for wheeled carts, which fact has been often brought to notice in previous reports; it is therefore proposed to employ the Myoni Tipperas and others, from whom large advances are recoverable, in executing the works detailed in paragraphs 18, 19, 22, 24, 26, and 28 to 33 of this report, by which not only the communication will be kept open, but a great portion of the advances will be repaid in labour. I trust this proposal will be approved of and sanctioned.

A. W. B. POWER,
Offg. Deputy Commissioner.

No. 73GM., dated Chittagong, the 28th February 1876.

From—E. E. LOWIS, Esq., Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Department.

In compliance with the instructions laid down in Government circulars Nos. 50 and 51 of the 23rd July 1873 and 8th August last respectively, I have the honor to enclose herein copies of the reports on local improvements, together with the annual accounts of the District Road Fund for the cess year 1874-75, submitted by the Chairman of the District Road Committees of Chittagong and Noakholly and the Deputy Commissioner of the Chittagong Hill Tracts.

2. The delay in the submission of the above reports is partly owing to the non-receipt of the report and accounts from the Chairman of the District Road Committee, Chittagong,

until the 13th instant, and partly owing to my having had to await the explanations which I called for from that officer as well as from the Chairman of the District Road Committee of Noakholly with regard to certain discrepancies in the accounts submitted by them. With regard to the date of the submission of the above report and accounts, a reference has also been made by me to Government (*vide* this office No. 483GM., dated 13th December 1875), but no reply has yet been received on the subject.

3. The receipts of the year from tolls and cesses, &c., throughout the division amounted to Rs. 21,054-3-5, which, with the balance and advances outstanding on the 1st October 1874, *i.e.*, Rs. 51,985-0-7, as well as the grant-in-aid from Provincial Funds of Rs. 35,000, made up a total sum of Rs. 1,08,039-4-0 available for works of local improvements in this division for the cess year under review.

4. Out of the total sum of Rs. 1,08,039-4, Rs. 57,726-4-0 were available in the district of Chittagong, Rs. 24,744-0-9 in the district of Noakholly, and Rs. 25,568-15-3 in the Chittagong Hill Tracts. The total estimated receipts amounted to Rs. 1,04,898-0-7, as shown in the margin, including Rs. 55,585-0-7, the unexpended balance remaining at the commencement of the year under review. From the figures given above it will be seen that the actual receipts in the districts of Chittagong and Noakholly exceeded the estimated receipts by Rs. 6,741-3-5. The excess receipts are due to the fact that the canal and ferry tolls for the year 1875-76 fetched at public auction larger amounts than were anticipated, and also to the amounts deposited by the ferry farmers being larger.

Noakholly ...	22,250	13	5
Chittagong Hill Tracts	29,168	15	3

including Rs. 3,6 0, being the balance at credit of deposits.

5. The accompanying statement (marked A.) will show the several heads of receipts and the amounts collected under each head during the past cess year.

6. The total expenditure of the year amounted to a sum of Rs. 82,303-3-9, against Rs. 70,809 of the preceding year. The following were the chief heads of expenditure, viz :—

	Rs.	A.	P.
Charges on collection	8,318	5	1
Charges on original works	42,146	7	10
Charges for repairs and maintenance of district works ...	24,341	14	5
Establishment	4,932	4	10
Purchase of tools and plant	2,490	0	7
Total ...	82,229	0	3

Besides the amount of Rs. 82,229-0-3 just mentioned, Rs. 743 were refunded in the district of Chittagong. The balance at credit at the close of the year amounted to Rs. 25,736-0-3, as detailed below:—

	Rs.	A.	P.
Cash in hand	20,701	7	9
Advance outstanding on the 30th September 1875	8,634	8	6
	29,336	0	3
Deduct balance at credit of deposits	3,600	0	0
Total ...	25,736	0	3

7. With a view to give a clear idea of the charges incurred by the District Committees of Chittagong and Noakholly, and also by the Deputy Commissioner of the Hill Tracts during each quarter of the year, the statement marked B. is submitted herewith. If this is compared with the annual accounts of the Deputy Commissioner of the Hill Tracts, it will be observed that there is a discrepancy of Rs. 4-4 in the figures entered in column "Total" under the head "Charges on collection of revenue under the Committee's control," and also under the head "Tools and plant." The Deputy Commissioner has not furnished any explanation regarding the difference. I have, however, requested that officer to supply the omission now.

8. The following discrepancies are also observable in the quarterly and annual accounts now submitted by the Chairman of the District Road Committee, Chittagong :—

Charges on district original works—

	Rs.	A.	P.
Total amount shown in the quarterly statement as expended	26,766	1	11
Total amount shown in the annual statement as expended	27,426	1	11

Total amount shown in the quarterly statement as expended	7,836	15	1
Total amount shown in the annual statement as expended	7,898	13	5
Difference ...	61	14	4
Charges on repairs and maintenance of district works—			
Total amount shown in the quarterly statement as expended	13,206	2	9
Total amount shown in the annual statement as expended	13,244	5	5
Difference ...	38	2	8

9. With regard to these discrepancies the Chairman has submitted the following explanations:—

The amount of Rs. 660 which was expended in the purchase of a ferry boat for Kumaria ferry, and which is now shown in its proper column against heading "Ferries, original works," in the annual accounts, was mentioned under "Tools and plant, other charges," in the fourth quarterly statement. A charge of Rs. 660 having been shown under heading "Original works, ferry boats," in the second quarterly account, which was submitted to the Controller of Public Accounts on the 28th April last, that officer directed that the above amount should be transferred to heading "Tools and plant, other charges." The Chairman accordingly got his office copy of the accounts corrected. For the same reason the sum of Rs. 660 in question was exhibited under heading "Tools and plant, other charges," in the fourth quarterly statement; but in the annual accounts it has been shown against its proper heading "Ferries, original works," and hence this difference.

	Rs.
Charges on District original works—	
Difference	660
Tools and plant—	
Difference	660

Rupees 105, charged under the marginally noted heading (*a*) in the first quarterly statement, were transferred to heading (*b*) by the Controller, the Chairman accordingly corrected his own office copy. The total of quarterly return under heading marked (*a*) will therefore be Rs. 3,317-5-10 after deducting Rs. 105 as stated above, and not Rs. 3,422-5-10. Thus there is a difference of Rs. 4-15 only between the totals Rs. 3,317-5-10 and Rs. 3,322-4-10, being the sum expended by the road establishment for the contingent expenses. There being no proper heading for such expenses in the quarterly statement, it is included under the heading "Collection of revenue, contingent charges," in the fourth quarterly statement, but it is now shown in its proper column against heading "Contingent charges of the road establishment" in the annual accounts.

	Rs.	A.	P.
(*a*)—Road establishment—			
Difference ...	100	1	0
(*b*)—Charges on collection of revenue—			
Difference ...	61	14	4

Owing to the transfer of Rs. 105 from heading (*a*) to (*b*) as represented above, it will be seen that the total of quarterly statement under heading (*b*) will be Rs. 7,941-15-1 instead of Rs. 7,836-15-1. Between this latter sum and Rs. 7,941-15-1 there is a difference of Rs. 43-1-8, deducting from which Rs. 4-15, *i.e.*, contingent charges of the road establishment, included under the heading (*b*) in the fourth quarterly statement, there will be a difference of Rs. 38-2-8, which was by an oversight included under the heading (*c*), "Contingent charges of ferry establishment," instead of under heading (*b*), "Contingent charges of collection of revenue," during the compilation of the annual accounts. Now Rs. 76-5-2 shown as contingent charges of ferry establishment under heading (*c*) has been altered to Rs. 38-2-6, and Rs. 867-10-11 shown as contingent charges under heading (*b*) is altered to Rs. 905-13-7 in the annual accounts, and the total is accordingly increased by Rs. 38-2-8 to Rs. 7,937-0-1.

	Rs.	A.	P.
(*b*)—Charges on collection of revenue—			
Difference	61	14	11
(*c*)—Charges on district works, maintenance and repairs—			
Difference	38	2	8

The difference of Rs. 38-2-8 being reconciled as explained above, the total in the annual accounts under the heading as per margin should be reduced by Rs. 38-2-8 to Rs. 13,206-2-9.

	Rs.	A.	P.
(*b*)—Charges on district works, maintenance and repairs—			
Difference	38	2	8

10. I now proceed to notice other subjects of importance which require any comments from me.

Committee.—At the close of the year the Road Cess Committee in the Chittagong district consisted of fifteen members, five official and ten non-official, and in the district of Noakholly the said Committee consisted of seventeen members, of which three were official and the rest non-official.

The number of meetings held during the year was seven in Chittagong and eight in Noakholly.

In the former district the Chairman reports that some of the native non-official members, and especially Sheik Abdool Maloom, Baboos Gopee Mohun Ghose and Kant Persad Hajari, have taken considerable interest in the subjects discussed before the meetings. The first of these members and Deputy Collector Baboo Goloke Chunder Roy have prominently been brought to my notice as offering liberal contributions towards the construction of roads in the neighbourhood of their villages. In the district of Noakholly, with the exception of the Chairman and the Vice-Chairman, the other members are reported to have taken little or no interest in matters of local improvements. In the Hill Tracts there was no District Road Committee, and everything was managed by the Deputy Commissioner through the agency of his assistant.

CHITTAGONG.

11. *Statement of works.*—As the report and statement of work done and in progress in the Chittagong district, furnished by the Chairman of that district and forwarded herewith, give detailed information of roads and other works executed during the year under review, I refrain from transcribing them here. The total expenditure in original works amounted to Rs. 27,426-1-11, and that on repairs, &c., was Rs. 13,206-2-9. The amount estimated under the former head was Rs. 24,743, and the amount of estimated expenditure under the head of "Repairs" was Rs. 15,154.

12. It will be seen that the amount actually spent has exceeded the amount originally estimated for original works. The Chairman attributes the cause of this excess outlay to the works executed on two urgent and new roads, viz. road from Chittagong to Ramghur on the Fenny, and the road from Hathajari on that road to the Hill Tracts boundary, where it will meet the road from Rungamuttee, the head-quarters of the Chittagong Hill Tracts. The falling off in the expenditure incurred in the repairs to several roads was owing to the undertaking of mere surface repairs to the Robertgunge road, the Mahajan's Hât road, and other minor roads.

13. The District Road Committee of Chittagong have estimated only Rs 18,600 for original works and Rs. 4,000 for repairs during the current cess year 1875-76. They observe that the contemplated expenditure is, from want of funds, much less than what they should wish to incur, and much less than what is urgently required. They have proposed that in carrying out the present original works, in connection with almost all of which there are old lines of narrow road more or less encroached upon by the ryots, but still with good though narrow bridges, to adhere to the old lines as much as possible, only in special cases (such as where it is remarkably tortuous) diverge from it. In this manner much expenditure in the construction of bridges and the acquisition of land, &c., may be avoided. It is also resolved by them to recover all the lands adjacent to public roads which have been encroached upon by private individuals without authority.

14. The Committee have further, with my approval, determined to concentrate their operations in the north of the district, where the want of roads is severely felt, and to starve as far as possible all other localities until the roads from Chittagong to Ramghur on the Fenny and the road to the Hill Tracts boundary are accomplished. This proposal, as I have said, has been approved, for it is impossible, except at great waste of superintending power and great risk of bad work, to carry on simultaneously important works some forty miles north and some forty miles south of the sudder station. The Chairman reports that the southern and central portions of this district are rich in water-routes, and therefore roads are not so much a necessity there as in the northern portion of it. It appears to me that the condensing of operations and the completion of one or two lines of important road, before taking in hand half a dozen other roads of lesser importance, is manifestly desirable.

It is worth while mentioning here that a work of great importance is at present under contemplation of the Chittagong District Committee. It is the deepening of the Moiskhally canal, in which the merchants are largely interested. The importance of the work as opening a safe outlet from the river Kurnafoolee, the mouth of which is at present rendered difficult for navigation by the formation of new churs, to the Bay of Bengal has also been fully recognized by Government, and has formed the subject of a separate correspondence.

NOAKHOLLY.

15. In Noakholly the total expenditure on original works was Rs. 5,765-11-10 and Rs. 10,704-9-3 were expended on repairs. The amounts estimated under each of these two heads of charges were respectively Rs. 9,590 and Rs. 11,379; it will thus be seen that the District Committee of Noakholly have not spent the full amounts which were expected to be disbursed on original works and repairs, although all the works which were contemplated for execution and which were shown in the budget estimates for the past year appear to have been undertaken during the year. The Chairman has failed to furnish a detailed history of the progress of each work in his annual report now submitted. In short, his report is a meagre one; I have therefore requested him to submit a supplementary report which should be as complete as possible, treating of all matters of importance. A list of all original works and repairs has been furnished by the Chairman with his report herewith forwarded, I need not therefore repeat them in my divisional report.

16. The construction of, and repairs to, village roads have not been carried out fully, nor was provision made in the budget estimate for that purpose owing to the inadequacy of funds. Moreover, the Chairman of the District Committee of Noakholly reports that there is nothing like regular villages in his district, as the homesteads of the residents are widely scattered instead of being grouped together to form a village. Hence, in his opinion, village roads are not very necessary, or their construction practicable in such a manner as to benefit the population.

17. The amount proposed to be disbursed during the current cess year is Rs. 7,075 on original works and Rs. 16,830 on repairs.

The former of these two amounts is comparatively smaller than the amount entered in the estimate of the past year under the head "Original works." The Chairman observes that the works which appeared to the Committee to be of the greatest importance and of urgent nature have been proposed to be undertaken during the current year, and that owing to the inadequacy of the funds the District Road Committee is unable to make any provision for the improvement of the village roads or the subsidary communications, but intend to do so as soon as the cess collections are made.

18. The amount estimated for repairs is comparatively larger than what was estimated during the past year. The Chairman reports that the increase is due to a larger amount being required for putting the roads in proper order, as they have sustained considerable damage during the heavy rains in August last, and to the fact of provision having been made for repairs to the Doomchur bridge which, from the strain put upon it by the flood, has become unsafe for cart traffic.

HILL TRACTS.

19. The amount expended on original works in the Hill Tracts was Rs. 8,954-10-1, and the amount disbursed on repairs and maintenance of roads was Rs. 431-2-5. The amount originally estimated for was Rs. 20,860 and Rs. 1,280 respectively, under the above two heads. Although it was contemplated that a large amount of work should be undertaken during the year under report, almost all the important works were postponed, as they required to be professionally surveyed before they were taken in hand.

20. The detailed informations regarding the abovementioned works and repairs have been furnished by the Deputy Commissioner in his annual report herewith submitted. I need not therefore reiterate the same.

21. The sums of Rs. 19,290-2-0 and Rs. 2,770 have been proposed to be disbursed for original works and repairs respectively during the current cess year. It is contemplated to repair during the current and ensuing years a good many roads and bridges which were washed away or otherwise affected by the late flood. Hence a larger amount than usual has been estimated for repairs.

22. *Establishment.*—Rs. 4,932-4-10 were disbursed during the year under report on account of the road establishment and contingencies. Of this amount Rs. 3,322-0-10 were spent in the district of Chittagong, Rs. 730 in the district of Noakholly, and Rs. 880 were spent by the Deputy Commissioner of the Chittagong Hill Tracts. The amounts originally budgeted for were as follows :—

	Rs.
In the district of Chittagong	4,061
In the district of Noakholly	862
In the Chittagong Hill Tracts	3,180

Hitherto all the district works of Chittagong and Noakholly were undertaken by the Executive Engineer, but on receipt of the Government Resolution No. 1209 of the 8th March 1875, the District Committees were obliged to entertain separate establishments of their own, though all works of importance still remained under the supervision of the abovementioned officer, whose services are being remunerated by a percentage on the outlay on works supervised by him.

23. The total amount of expenditure incurred on account of original works and repairs in this division during the past year amounted to Rs. 66,488-6-3, and that incurred on account of work establishment was Rs. 4,932-4-10, giving a percentage of Rs. 7 on the value of work executed by that agency.

24. In the Chittagong Hill Tracts there was no Executive Engineer, and all the works were executed by Mr. Rozario, Inspector of Police, assisted by a mohurir and two overseers. For the extra duty entrusted to Mr. Rozario Rs. 50 per mensem were allowed him under Government orders. Besides the aforesaid employés, the Deputy Commissioner had to appoint a clerk for six months on a monthly salary of Rs. 40 for keeping up accounts of receipts and disbursements.

25. During the year under review an unprecedented flood swept across the Hill Tracts and the northern portion of the Regulation District of Chittagong. The Chairman of the latter district reports that it caused much damage to the masonry works on the roads, while the damage it caused to the Hill Tracts roads is reported by the Deputy Commissioner to be immense, a full description of which will be seen in his paragraph 16.

E. E. LOWIS,
Commissioner.

No. 313LF., dated Noakholly, the 25th March 1876.

From—R. PORCH, ESQ., Officiating Magistrate of Noakholly,
To—The Commissioner of the Chittagong Division.

WITH reference to your letter No. 99GM. of the 8th March 1876, I have the honor to state as follows.

2. Bamboo bridges (38 in number) were constructed on the district dâk and police station roads. They last for about one season only.

3. A buttress was made, measuring 1,206 cubic feet, for the Shahebghatta bridge. This bridge has, however, been temporarily abandoned, as it was found that a bridge of the the kind estimated for would not stand in consequence of the strong current in the khall there.

4. A portion of the Laksham road, about three miles, has been raised and widened, and the remaining portion between Nowtollah and Barullah was in course of repair. The earth-work done on that portion was 81,099 cubic feet.

5. A portion of the Dewangunge road was also widened to the extent of 449,337 cubic feet. The raising of the masonry portion of the new bridges on this road was not taken up, as materials were not ready.

6. The raising of the masonry works on the six timber-topped bridges on the Laksham road was completed to the extent of 2,534 cubic feet, with earth-work measuring 19,020 cubic feet. Jungly wood posts and planks have been procured.

7. The plastering and raising of the masonry portion of the new bridges on the Begumgunge road has been finished to the extent of 1,334 cubic feet; planks have been put on eight bridges. The work remaining to be done is now in progress.

8. Bamboo spurs were constructed to prevent encroachment on the Shahebghatta road with jungly wood posts.

9. Three hundred and seventy-six trees were planted out on some of the road sides.

10. *Rivers and canals.*—The deepening of the Attiatully canal has been completed, and the banks have been raised by the earth dug from the canal.

11. The two bends of the Chaprassy khall were cut to strengthen the passage and to prevent the encroachment on the bridge; across this khall spurs have been made of bamboos and wood to complete the protection of this bridge, which suffered much in last year's flood.

12. *Repairs.*—The station roads have been metalled to the extent of 47,984 cubic feet. The metal used was *khoa jhama.* Further improvements in this respect have been undertaken.

13. *Surface repairs.*—Jungle clearing and filling up holes have been executed on 110 miles of the district roads. The earthwork done on the Laksham road has been dressed to the extent of 124,590 superficial feet, and turfed to the extent of 84,000 superficial feet; 2,000 cubic feet of earthwork has been done on the Laksham road in raising and widening a section, which has also been dressed to the extent of 163,000 superficial feet.

14. The masonry portion of the old bridges on the Dewangunge, Chittagong, and Lukhipore roads have been repaired to the extent of 1,543 cubic feet. The old planks and the posts of the bridges which have deteriorated have been renewed where it was found necessary.

15. The fences put round the trees planted on the road sides have been repaired.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. CANDIDATES for vernacular masterships may present themselves for examination at any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle-class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools and girls' schools.

7. Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year:—

(1.) His name.
(2.) His age.
(3.) His father's name.
(4.) Residence (*i.e.*, village, district, &c.).
(5.) Normal school where he wishes to be examined.
(6.) Grade of teachership for which he is a candidate.
(7.) Certificates as to character and antecedents.

8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.

9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORT WILLIAM, the 1st May 1876. H. WOODROW, *Director of Public Instruction.*

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacular scholarship examination is known, as may be most conducive to the benefit of the normal schools, and not later than the 1st February each year. The annual examination will ordinarily be held in December.

4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.

5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle Inspector.

6. Deductions from scholarships for absence from school shall be made in accordance with the rules and practice of the Education Department.

7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present:—

		Rs.
Hooghly Normal School	... ...	200
Calcutta ditto	... ...	120
Bauleah ditto	... ...	100
Dacca ditto	... ...	120
Chittagong ditto	... ...	100
Patna ditto	... ...	100
Bhagulpore ditto	... ...	100
Cuttack ditto	... ...	100
Ranchi ditto	... ...	100

8. Scholarships not taken up at one normal school under these rules may be transferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of normal schools who may not enter them as scholarship-holders shall be eligible for normal school scholarships if they acquit themselves creditably at the annual examinations of the normal schools. Those who actually hold vernacular scholarships will be allowed to retain their scholarships in addition to the normal school scholarships.

11. The head-master of each first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition fees, but all other pupils of the pundit's department shall pay a fee of eight annas a month at Hooghly, Calcutta, Dacca, and Bauleah, and four annas a month at the five remaining schools.

FORT WILLIAM, the 1st May 1876. H. WOODROW, *Director of Public Instruction.*

MOULVIE ELAHEE BUKSH, Deputy Inspector of Schools, Bhagulpore, has been granted privilege leave for sixteen days from the 8th to the 23rd instant.

N.B.—Maps are *not sold* at the Office of the Surveyor-General of India, Calcutta, but applications for maps on payment should be made to Agents. This Department only issues maps, *free of charge*, on the Public Service. It is particularly requested that the nearest local Agent as above be first applied to for any map required on the Public Service before indenting on this Department. The cost of postage of parcels must be borne by applicants themselves, as also such incidental charges as may be incurred at their request for mounting and binding maps. The best maps are invariably supplied in lieu of those asked for, which may not be available, and lists of all newly-published maps are periodically notified in the Gazettes of India and of local Governments.

ENDOWMENT FOR A SCHOLARSHIP BY BABOO LUCHMUN PRASAD GORGO.

GENERAL DEPARTMENT—EDUCATION—No. 1354.

Calcutta, the 8th May 1876.

I AM directed to acknowledge the receipt of your letter No. 53, dated 4th May 1876, with enclosures, and in reply to say that the Lieutenant-Governor is pleased to accept the offer of Baboo Luchmun Prasad Gorgo to found a scholarship of Rs. 5 a month to be awarded to the best student of the Midnapore High School who fails to obtain a Government scholarship at the First Arts Examination.

2. I am to request you to convey to Baboo Luchmun Prasad Gorgo the thanks of the Lieutenant-Governor for his liberality, and to say that the papers on the subject will be published in the next issue of the *Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Acting Asst. Secy. to the Govt. of Bengal.

No. 53, dated Burdwan, the 4th May 1876.

From—H. A. COCKERELL, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, General Department.

I HAVE the honor to submit copy of a letter No. 23, dated the 24th ultimo, from the Magistrate of Midnapore, reporting the offer of a stipend of Rs. 5 a

month by Baboo Luchmun Prasad Gorgo, the zemindar of Mysadul, to be awarded to the best student of the Midnapore High School who fails to obtain a Government scholarship at the First Arts Examination.

2. I beg leave to recommend that the zemindar's offer be accepted, and a suitable acknowledgmemt made by Government of the foundation.

No. 23, dated Midnapore, the 24th April 1876.

From—H. L. HARRISON, ESQ., B.A., C.S., Vice-President, District School Committee, Midnapore,

To—The Commissioner of the Burdwan Division.

I HAVE the honor to inform you that Baboo Luchmun Prasad Gorgo, the zemindar of Mysadul, has offered a stipend of Rs. 5 a month, tenable for two years, at an affiliated college teaching up to the B. A. degree standard, to be awarded to the best student of the Midnapore High School who passes the First Arts Examination, but fails to obtain a Government scholarship. The Baboo promises to invest for the purpose a sum of Rs. 2,000 stock in the Calcutta Municipal Debentures at 6 per cent. in the joint names of the Director of Public Instruction and the Collector of Midnapore, according to rule 10 of the rules for the guidance of the District School Committee. I beg therefore to recommend the acceptance of his offer, and request the favor of your obtaining the sanction of Government to the same, and also a suitable acknowledgment of the foundation.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 6th May 1876.

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.				
		Western Districts.		
Burdwan Divn.	1	Burdwan. May 8,* '76	·21	Rainfall at Jehanabad ·20 inches. Rain much wanted. Cotton and *til* seed are suffering. Cholera on the decrease.
	2	Bankoora, „ 6, „	·64	Weather—Occasional dust-storms, with one shower on the 4th instant. The rain was not general, but was of some use when it fell. A few cases of cholera still reported.
	3	Beerbhoom, „ 6, „	Nil.	Weather—Hot, with high winds from west and east alternately. Rain is much wanted for oil-seeds, vegetables, and indigo.
	4	Midnapore, „ 6, „	·42	Weather—Exceptionally high winds from south and south-east during the week. A good shower fell on Thursday night at the Sudder, and apparently there have been rain-storms during the week in other parts of the district. Want of rain is much felt, especially by indigo. The river in the beginning of the week was lower than has been known for years.
	5	Hooghly, „ 6, „	·31	Weather—Very hot. Cloudy on the night of the 4th instant. Strong south wind throughout the week. A few drops of rain fell. Sugarcane plantings are over. Sowings of *aous* and *arhur* are at a stand-still from want of rain. The crops on the ground, such as October indigo, onions, cucumbers, &c., as well as mangoes, have been slightly injured from want of rain. A good shower of rain is greatly needed. *Boro* harvest is going on. Cucumbers, water-melons, and mangoes are being gathered. Cholera is abating.
		Howrah. „ 6, „	16	Extraordinary high winds for the time of the year. Skies cloudy, with signs of rain, but hardly any rain has fallen notwithstanding. In this district the crops will be none the worse if no rain falls between this date and the middle of June next.
		Central Districts.		
Presidency Divn.	6	24-Pergunnahs, May 8,† '76	·09	Weather—Hot and windy. No crops on the ground. Rain is wanted. Cholera cases reported from Baraset, Barripore, and Satkhera.
	7	Nuddea. „ 6, „	·07	Weather—Hot, with strong winds. Rain is much required. Some of the lands sown will have to be resown. October indigo is doing very well, but want of rain stops the spring sowings.
	8	Jessore, „ 6, „	·04	Weather—Hot, with a strong gusty south wind. Rain is generally wanted. Rice, indigo, and *til* (oil-seed) are doing well. The spring rice has yielded a good outturn.
	9	Moorshedabad, „ 6, „	·4	Weather—Intensely hot everywhere. The rainfall at Jungypore has been 2·82 inches, but none at other sub-divisions. The sky was cloudy at Rampore Haut, and rain seemed probable. The rain where it fell has done good. Indigo and mulberry are well reported of. Prospects of crops are otherwise fair. Cholera has decreased.
Rajshahye Divn.	10	Dinagepore, * „ 5, „	Not enough to measure.	Weather—Cool and cloudy. Wind shifty, but mainly north-east. Probably showers of rain fell somewhere. Ploughing going on. *Bhadoe* rice, *pat* or jute, showing above ground, but late; sugarcane is fair. Cholera still in the district, but abating. Small-pox in several quarters.
	11	Maldah, „ 6, „	Nil.	Weather—Great heat. Slight rain fell over a very small tract to the south-east. Rain again wanted badly. Mangoes, which promised exceedingly well, will be worth little without rain. Clouds gather daily, but disperse without a fall. Thirteen deaths from cholera.
	12	Rajshahye, „ 6, „	Nil.	Weather—Very unfavorable. It has been excessively hot. There has been a southerly wind throughout the week, and though it has been generally cloudy in the mornings, the clouds have been dispersed by the wind. There has been no rain. The long protracted drought and the scorching heat have put a stop to the sowing of the rice crops, and have injuriously affected the *til* and sessamum crops. The *boro dhan*, however, is doing well. Heavy rain is much wanted, and if it does not soon fall, the prospects of the rice crops will be seriously affected. Cholera and small-pox have almost altogether disappeared.

* Telegram of the 8th May, received on the same day, shows rainfall during the seven days immediately preceding.

† Report of the 8th May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Central Districts.—(Continued.)		
Rajshahye Divn.—(*Contd.*) 13	Rungpore, May 5, '76	·6	Weather—Stormy. The rainfall at Gyabunda has been ·11, at Kurigram 1·16, and at Bagdogra ·9 inches. State and prospects of the crops are generally in good condition. Sowings going on in most parts. Millets in ear.
14	Bogra, „ 6, „	1·79	Weather—Very hot and threatening, with strong wind on the mornings and evenings, ending into a downpour on Friday. Sowing of the *aous* or early rice, which has been retarded, will now go on quickly, and the breaking up of the land for the *amun* or late rice crop, which had commenced, will be put in hand everywhere. Early *aous* on low lands will be cut in about a fortnight. No other crops on the ground, except melons and cucumbers, which are giving a good yield.
15	Pubna, „ 6, „	·41	High wind, with occasional storms of thunder and lightning. State and prospects of the crops are fair, but more rain is wanted. Cholera is abating in the Pubna sub-division, but is present at Mowpore and Chohali, in Serajgunge.
Cooch Behar Divn. 16	Darjeeling, „ 5, „	·72	Weather—A little more rain than last week, but still far less than might be expected at this time of the year. The sowings in the plains, and the young crops in the hills, are somewhat backward for want of rain.
17	Julpigoree, „ 6, „	·81	Weather—Cool. Strong wind from the east, and two north-westers during the week. Rain has fallen everywhere, and prospects of all crops have improved.
	Cooch Behar, „ 4, „	3·56	Weather—Cloudy; very cool for the time of the year. Heavy rain on Saturday and Tuesday. The rain has removed all apprehension of a total failure of the *bitri dhan*. Seeds which where sown early had died, and the fields are being resown. Later sowings are doing well. The *bitri dhan* and *kaon* may now be estimated at an 8-anna crop. *Cheena* has suffered most, but will give a 4-anna crop. There are no present prospects of scarcity. Cholera continues very prevalent, but has not increased in severity.
	Eastern Districts.		
Dacca Divn. 18	Dacca, May 8,* '76	2·5	Weather is cool for the season. State of the crops is very favorable, both rice and jute.
19	Fureedpore, „ 6, „	·08	Weather—Hot and very windy. A storm on Wednesday, and a few drops of rain on Friday. Sugarcane, *til* or sessamum, *cheena* millet, and rice on low lands are doing well Rain is wanted for some of the rice planted, and for sowings of high lands, which are delayed. *Boro* or *jali* rice is being cut in places.
20	Backergunge, „ 4, „	Nil.	Weather—No rain has yet fallen. It is very much wanted. High winds for the last week. Crops are good. There is a good deal of sickness, and cholera and fever are reported to be still present. The health of the cattle is good.
21	Mymensingh, „ 5, „	Nil.	Slight rain in places in the interior, and promise of rain, which is much needed. The *boro* crop in the east is reported to have been a full one. The early sown *aous* is in much need of rain.
22	Tipperah, „ 5, „	·09	Weather—Hot, with strong southerly gales. The young rice wants a little more rain. It is withering owing to the drought.
Chittagong Divn. 23	Chittagong, „ 4, „	A few drops.	Weather hot and windy. No change in the state of the crops. Rain is wanted.
24	Noakholly, „ 4, „	Nil.	Weather fair and hot; wind from the south, but gusty and strong. Pulses, chillies, sessamum, &c., are progressing fairly, and some are being reaped. The reaping of the *shaita dhan*, or paddy grown in sixty days, has begun. The fields are still being cultivated for the early and late rice crops. General health is better. Stray cases of cholera still occur.
25	Chittagong Hill Tracts, „ 2, „	Nil.	Weather—Excessively hot throughout the week. High wind on the 2nd instant. Rain is shortly expected. Joom-burning is over. The hill people are busily engaged in clearing their jooms for sowing paddy and other crops as soon as the rains set in.
	Hill Tipperah, „ 3, „	Nil.	Weather—Warm, but windy. Rain is expected. State and prospects of the crops are good.
BEHAR.			
Patna Divn. 26	Patna, May 8,* '76	Nil.	Weather—Extremely hot. No crops now on the land, except *cheena* and sugarcane. A good deal of cholera throughout the district generally. A good fall of rain would do much good.
27	Gya, „ 6, „	Nil.	Weather—West wind for part of the week and east for the remainder. Maximum reading of the thermometer is 112° 4′ in shade. Nothing new to report regarding the state and prospects of the crops. In Nowadah sub-division sugarcane is being planted out. Cholera and small-pox are still prevalent.
28	Shahabad, „ 6, „	Nil.	Weather—Very hot. Winds variable. Thermometer reported 104° in shade. *Cheena* and sugarcane are being sown. Cholera prevailing in the district. Small-pox reported in Bhubhooah.

* Telegrams of the 8th May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVN.—(*Contd.*) 29	Durbhunga, May 6, '76	Nil.	Weather—Continuous easterly wind. Nothing special to report. Things are much the same as last week, *i.e*, at present indigo promises well everywhere in the district. Cholera of a sporadic form has made its appearance, and cases of small-pox have also been reported. The requirements of those tracts of the Mudhoobunnee sub-division affected by last year's drought are being met.
30	Mozufferpore, „ 6, „	Nil.	Weather—Warm, with east wind. Rain is much wanted, especially for Indigo crop. Prices continue very low.
31	Sarun, „ 6, „	Nil.	Weather—Hot and clear, with east wind prevailing. No change in the state and prospects of the crops since last report. Rain is much wanted for indigo, *cheena* millet, and sugarcane. Cases of cholera and small-pox have been reported both from Sewan and the Sudder sub-division, but the outbreak of the former was only local, and has considerably abated.
32	Chumparun, „ 5, „	Nil.	No rain. The weather is very hot and close; constant east winds. More rain will be wanted shortly. At present the prospects of the crops are good.
BHAGULPORE DIVN. 33	Monghyr, „ 6, „	Nil.	Weather—Fair, with high east winds. No change since last week. *Bhadoe* sowings will commence with the first rain. The district is now in the eighth month with only one shower Prices continue unusually low, and the ryots find difficulty in selling their surplus grain for cash.
34	Bhagulpore, „ 8* „	Nil.	A very severe nor-wester on the night of the 1st instant at Mudehpoorah and Soopole, with large hail and plenty of rain, except in Bongong thana. Strong east winds. Weather like that of rains. All agricultural prospects are good. General health is very good. Small-pox and cholera less frequent.
35	Purneah, „ 6. „	·31	Weather—Cool; strong east winds. Rain is still wanted. Some has fallen, but it has been very partial. The sowing of the *bhadoe* is seriously retarded for want of it. Cholera is very prevalent in the north, but it is spreading westward.
36	Sonthal Pergha. „ 7, „	·53	Weather—Dust-storm followed by rain from the south on Friday. Rainfall at Deoghur has been ·15 inches. Nothing anywhere else. Wells and tanks very dry in Deoghur. Water is bad. Indigo lately sown in Rajmehal is withering. Indian-corn is being sown on Dearah. Cholera and small-pox are still hanging about.
ORISSA.			
ORISSA DIVN. 37	Cuttack, April 29, '76	Nil.	Weather—No rain in any part of the district. Some anxiety is felt, as the ploughing and sowing for the early rice crop is being retarded. Canal water is being leased more freely this year than last in consequence of the long-continued drought. Prices are still low, and show no signs of rising. Public health is fairly good, with the exception of a little cholera here and there
38	Pooree, „ 4. „	Nil.	Weather—Very hot. Rain is very urgently required for tillage. The harvesting of the *dulua* paddy crop is nearly completed. The new sugarcane crop is being planted. Cotton is in flower. Mangoes are ripening. Cholera is still raging in Pooree.
39	Balasore, „ 5, „	·55	In the north and south of the district the ploughing has been checked for want of rain. Cholera has broken out with renewed virulence, though still sporadic. Small-pox also is occasionally fatal.
CHOTA NAGPORE			
	South-Western Frontier Agency.		
40	Hazareebagh. May 5, '76	Nil.	Weather—Very hot. Winds variable, bringing up clouds which disperse. No change in the state and prospects of the crops to report, *i.e.*, the *mohwa* crop has been a full one. Rain is much wanted to enable the ryots to plough their land. Cholera is still reported from the interior of the district.
41	Lohardugga, „ 6, „	Traces only.	Weather—Very hot indeed. No ploughing is going on for want of rain, and consequently no crops to report about. Rain is urgently wanted, and if some does not fall soon, the consequences may be serious.
42	Singbhoom, „ 5, „	Nil.	Weather—Seasonable. A dry north-west storm on the evening of the 1st instant, and possibly some rain fell in the district, though none at head-quarters. No crops to report about. The continued drought is drying up fast the pasturage, and renders it impossible to prepare any ground for cultivation, and agricultural prospects are altogether unfavorable. Cholera has abated in the mofussil, and no fresh cases in the station.
43	Manbhoom, „ 6, „	Nil.	Weather—Hot. Sugarcane plantings are poor. The little rice sown on high ground has suffered from want of rain. There has been a little rain during the week, though too late to include in this report. Ploughing has not commenced owing to the ground being hard. The district is unhealthy, and until there be steady rain for some days, the Deputy Commissioner is afraid that the present sickness in the district will continue. In Purulia it is fairly healthy, but both man and beast are suffering from the continued drought in the mofussil.

* Telegram of the 8th May, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

PART I A.

Orders and Notifications by the Government of India.

The following orders, issued by the Government of India in the Home Department, are republished for general information :—

No. 272.—*Simla, the 2nd May* 1876.—*Appointments.—Notifications.—Establishments.*—Mr. T. J. Murray, C.S., Assistant Commissioner of the 2nd Grade in Assam, to be Assistant Secretary to the Chief Commissioner of Assam *vice* Captain H. J. Peet, who returns to his appointment in the 2nd Grade of Assistant Commissioners.

No. 280.—*The 4th May* 1876.—Mr. T. C. Mitchell, B.C.S., to be a Supernumerary Assistant Commissioner in British Burmah *vice* Mr. A. C. Bainbridge, deceased.

The following order, issued by the Government of India in the Foreign Department, is republished for general information :—

No. 1088*P.*—*Simla, the 5th May* 1876.—*Notification.—Political.*—Subject to the confirmation of Her Majesty's Government, His Excellency the Viceroy and Governor-General in Council is pleased to recognize the appointment of Mr. Richard Macallister, American Vice-Consul General at Calcutta, as in charge of the office of Consul General for the United States of America at Calcutta during the absence of Mr. Litchfield.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 44.—*Simla, the 4th May* 1876.—*Leave and Allowances.*—The daily travelling allowance of a public officer, while absent from his head-quarters on duty, is sometimes erroneously called *Tentage*. As confusion arises from this practice, the term "Tentage" should in future be applied only to an allowance made to enable an officer to provide tents, and not to any form of travelling allowance.

No. 34.—*The 4th May* 1876.—*Pensions and Gratuities.*—The Governor-General in Council directs that the Table printed as Appendix F to the Civil Pension Code be headed as follows :—

Table A.—Calculation of present value of a monthly pension.

and that the following Note be added to the Table :—

[NOTE.—To calculate the amount of a temporary life annuity granted under Section 90A, the following formula will be employed :—

$$Y = 12 \left\{ \frac{G}{A\,x - A\,x+n \frac{D\,x+n}{D\,x}} \right\}$$

y = amount payable monthly on account of annuity.
G = amount of gratuity.
x = age last birth-day.
n = number of years for which the annuity is payable.
$A\,x$ and $A\,x + n$ are the numbers shown in column headed "Adjusted value" opposite Age x and Age $x + n$ respectively.
$D\,x$ and $D\,x + n$ are the numbers shown in column headed $D\,x$ opposite Age x and Age $x + n$ respectively.]

The Governor-General in Council directs that the following be inserted as Table B in Appendix F to the Civil Pension Code:—

No. 35.—The Governor-General in Council directs that the following be inserted as Section 90A in Chapter XIX of the Civil Pension Code:—

Section 90A.—A gratuity may, at the discretion of the Government of India, or, with the sanction of the Government of India, on the application of the recipient, be converted either to a life annuity, or to a temporary life annuity, or to an annuity payable for a certain number of years, with remainder to the recipient's heirs in case of his death.

The Governor-General in Council directs that the following be inserted as Rules 1 to 4 under Section 90A of the Civil Pension Code:—

1. The amount of a life annuity will be determined in accordance with the rates shown in Table A printed as Appendix.

2. The amount of a temporary life annuity will be determined by the formula given in the Note to Table A in Appendix F.

3. In calculating the amount of an annuity for a fixed number of years, the Savings' Bank rate of interest will be employed. For the present that rate is $3\frac{3}{4}$ per cent.,—*vide* Table B in Appendix F.

4. The Government of India will never insist on the conversion of a gratuity into a life annuity, or temporary life annuity, unless the expectation of life of the recipient be reported by competent medical authority to be equal to the average.

The Governor-General in Council directs that the following be inserted as a Note at the end of the Rules under Section 90A of the Civil Pension Code:—

[NOTE.—These Rules for the commutation of gratuities do not in any way modify the periods of service for pension required by the existing Rules.]

The Indian Law Reports.

Published under Authority.

THE first Part of the "Indian Law Reports," published under the authority of the Governor-General in Council, will appear as soon after the 1st January 1876 as can be arranged for. The Reports will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
„ Thacker, Vining and Co.,
„ Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay;
The Government Book Depôt, Allahabad.

The publication of the Bengal Law Reports and the Madras, Bombay, and N. W. P. High Court Reports will cease on the completion of the volumes now in course of publication.

Subscribers to the Bengal Law Reports, who have already paid their subscriptions to the end of June 1876, will be supplied with the complete set of Reports for the first half of 1876 in lieu of the volume of the Bengal Law Reports which they would otherwise have received.

☞ The following books may be had from the office of Superintendent, Government Printing, No. 8, Hastings Street. No orders can be attended to, unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every rupee's worth of stamps for discount in exchanging them for cash. Service labels are not received.

Books required on the public service are only supplied when authorized by the Department under whose orders they are published.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 13th May 1876.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, May 15,* '76	Nil.	Weather—There has been rainfall at Cutwa ·84, at Bood-bood ·15, and at Jehanabad ·1 inches. No rain to speak of yet at the Sudder Station, though there were storms, thunder and lightning, with a few drops of rain and hail-storms one or two evenings in the last week. Rain will probably fall shortly. It is much wanted. Cholera is abating.
2	Bankoora, „ 13, „	·72	Weather—Showery and tolerably cool. In some parts of the district the rain has been sufficient to admit of preparatory ploughing, but generally more rain is urgently required. Cholera is still reported.
3	Beerbhoom, „ 13, „	·91	Weather—Cool and cloudy. State and prospects of the crops have improved by recent showers. More rain is wanted for oil-seed, cotton, vegetables, and early ploughing.
4	Midnapore, „ 13, „	·62	Weather—Two good showers at the Sudder station, and partial showers over the rest of the district during the week. State and prospects of the crops are as before, *i.e.*, want of more rain is much felt, specially for indigo.

* Telegram of the 15th May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.—(*Contd.*)		
	Western District.—(Continued.)		
Burdwan Divn.—(*Contd.*) 5	Hooghly, May 13, '76	·1	Weather—Very hot. Tantalizing clouds in the night. A few drops of rain on the 9th instant. Strong winds. No sowings have been reported to be going on. Sowings of *aous*, *arhur*, and jute retarded from want of rain. Much land still remains unploughed owing to the same cause. The young sugarcane and the *aous* already sown are dying. Vegetables and fruits are suffering much. Boro harvest is going on. Cucumbers, water-melons, &c., and mangoes, are being gathered. Cholera still prevailing in the Hooghly and Chinsurah municipality, but abating in the interior. Want of drinking-water is severely felt.
	Howrah, „ 13, „	Nil.	Weather—Rain constantly threatening, but never falling. No change in the state and prospects of the crops.
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs, May 15, *'76	·3	Weather—Windy and cloudy. Rain is much wanted. Sowings retarded for want of it. Cholera cases reported from Baraset, Barripore, and Satkhira.
7	Nuddea. „ 13, „	·39	Weather—Very hot, with high winds; apparently unsettled. There has been heavy rain at Kooshtea and Chooadangah, a little at Meherpore, and none at the other two sub-divisions. The whole district still requires rain very much.
8	Jessore. „ 13. „	·54	Weather—Hot, with a few showers in the north of the district. The rain has done much good to rice, indigo, sugarcane, and other crops in the north, and a fall is much wanted in the south.
9	Moorshedabad, „ 13, „	1·15	Weather—Rain has fallen over all parts of the district, but the heat has not been much reduced. Ploughing for the late rice crop is being extensively carried on. *Aous* seedlings look healthy, and indigo is also progressing satisfactorily. Prices almost stationary. Health improved. Cholera has disappeared in most parts.
Rajshahye Divn. 10	Dinagepore, „ 12, „	3·845	Weather—Wind strong from north-east. Occasional heavy rain, with thunder. Cloudy and cool. Prospects of crops are good since rainfall. *Boro dhan* improved. *Bhadoe* and jute coming up, but a month late. Ploughing is going on. Twenty-seven deaths from cholera reported since last week, but it is abating. Small-pox is increasing. It has broken out badly in the jail.
11	Maldah, „ 13, „	1·32	Weather—Rain all over the district. More rain threatening. Crops are thriving.
12	Rajshahye, „ 13, „	5·3	Weather—Stormy; heavy rain has done much good to the *til* or sessamum crops, and to the young paddy. Rice sowings going on vigorously. The wind has made great havoc among the mangoes and other fruit. The public health is good. Cholera has almost altogether disappeared.
13	Rungpore, „ 13, „	3·55	Weather—Stormy and cool. The rainfall at Kurigram has been 6·43, at Gyebanda 3·19, and at Bagdogra 2·82 inches. Sowings of paddy are still going on to the north. Prospects of crops are everywhere excellent. Jute is promising. Millet is being cut.
14	Bogra, „ 13, „	6·93	Weather—Rain nearly every day. Generally cool. There is nothing to prevent there being a good crop of rice of both kinds. Ploughing is actively going on.
15	Pubna, „ 13, „	3·92	Weather—At the end of the last week a severe storm passed over Pubna. Ordinary storms have occurred nearly every day during the week. Seasonable rain has also fallen at Serajgunge, viz. nearly 1·5 inches. The mangoes have been injured by the storms, but the rain had done much good. Cholera has almost disappeared.
Cooch Behar Divn. 16	Darjeeling, „ 12, „	1·59	Weather—Rain has fallen every day of the week, but the total fall has only been 1·59 inches; yet this is more seasonable than it has been during several previous weeks. The young crops throughout the district are doing well on the whole. The rain has come rather late, and more rain is needed, but there have been no serious complaints.
17	Julpigoree, „ 13. „	1·69	Weather—Cool, with frequent showers. Early rice sowings nearly complete. The young plants are thriving.
	Cooch Behar, „ 11, „	4·4	Weather—Stormy. There has been more or less rain every day. It was heaviest on the 5th and 9th. Frequent bursts of rain with thunder. Cool, but variable. Prospects of crops are very satisfactory. All apprehension removed for the present. Cholera still prevails, but the proportion of fatal cases seems slightly less.

* Report of the 15th May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Eastern Districts.		
Dacca Div. 18	Dacca, May 15,* '76	2·86	Weather—Seasonable. Rain fell for four days. State and prospects of crops are very favorable. Cholera almost gone in Manickgunge. It is bad in Moonshegunge.
19	Fureedpore, „ 13, „	·73	Weather—Hot, with less wind. There were several storms which only threatened rain. The rainfall at Madaripore has been one inch. State and prospects of the crops are good, but ploughing is still delayed on high lands. *Jali* rice is being harvested. Sugarcane, millet, *til*, or sessamum, onions, *aous*, and *amun*, are doing well. Rain is much wanted. Cholera has almost ceased. Rivers have risen to some extent. Mangoes largely knocked down by the storms.
20	Backergunge, „ 11, „	·11	Weather—There was little rain at the Sudder station. Prospects of crops are fair. Cholera is still present in all the thanas.
21	Mymensingh, „ 12. „	7·78	Weather—The rain at Jamalpore during the week has been 11¼ inches, while at Atteah there has been only half an inch. The rainis sufficient and timely. The deficient rainfall in Atteah is not of much consequence, as that part depends on inundation. Prospects of rice and jute are favorable.
22	Tipperah, „ 12, „	2·08	Weather—Hot and still, with occasional showers of rain. The rain which had fallen has been beneficial to the young rice and good for the ploughing.
Chittagong Div. 23	Chittagong, „ 11, „	1·95	Weather—Stormy in the early part of the week, and now close and muggy. Rain is general throughout the district. It has done good to every thing. The *pania aous* crop being cut in some parts. Cholera still prevalent, especially in thana Chukoria.
24	Noakholly, „ 11, „	2·7	Weather—Cool and rainy from the 5th to the 9th. Fair and hot since. Heavy showers on the 6th and 7th. Wind generally from south, but on the 5th and 6th it blew hard from the south-east. Pulses, chillies, &c., are being gathered. The cultivation for the early and late rice is going on. Some of the earliest sown crops have suffered from the prolonged dryness of weather. Stray cases of cholera have occurred, and there have been nine deaths from small-pox in Bamni.
25	Chittagong Hill Tracts, „ 9, „	2·69	Weather—Some showers of rain during the week. The hill people have begun to sow their paddy and other seed grains in their jooms.
	Hill Tipperah, „ 10, „	2·16	Weather—Stormy. Prospects of crops are good.
BEHAR.			
Patna Div. 26	Patna, May 15,* '76	Nil.	Weather—Very hot, with strong east winds. Dust storms, but no rain, which is now much wanted. Sugarcane and cheena are doing well. Health of the district improving. Both cholera and small-pox are dying out.
27	Gya, „ 13, „	Nil.	Weather—Extremely hot. East wind prevailing. Highest reading of thermometer 113°·2′ in shade. Cheena, sugarcane, and marwa sowings are doing well.
28	Shahabad, „ 13, „	Nil.	Weather—A severe dust storm passed across the district from this to Bhubbooah on the evening of the 8th instant. Intensely hot, with high east wind. No change since last report. Cheena is doing well. Cholera is prevalent and on the increase in Dhungain, where a native doctor has been deputed. Vaccinators employed to visit small-pox cases in and about Arrah.
29	Durbhunga, „ 13, „	·38	Weather—Strong east winds prevailing. The slight rain in the north and east has caused the preparation of lands for the *bhadoe* to be vigorously pushed on. In Tajpore no rainfall, and the want of it is being felt. Indigo prospects in Modhubany are reported good. A few cases of cholera reported in Modhubany
30	Mozufferpore, „ 13, „	·65	Weather—Cool, with strong east wind. There has been a fall of ·65 inch of rain at Mozufferpore, and of ·45 inch at Seetamurhee. Ploughing is going on vigorously; cholera still continues.
31	Sarun, „ 13, „	Nil.	Weather—Hot, with strong east winds. No change in the state and prospects of the crops since last week. Rain is much wanted for indigo. Millet, sugarcane and mangoes are ripening. Cholera has abated.
32	Chumparun, „ 12, „	·21	Weather—East winds have been constant, and in the east of the district there was a good fall of rain on the 10th instant. There has also been good rain in the west. Prospects of the crops are excellent. The rain has done a great deal of good.

* Telegrams of the 15th May, received on the same day, show rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
Bhagulpore Divn. 33	Monghyr, May 13, '76	·4	Weather—High east winds prevalent during the week. Mornings and evenings are unusually cool for the time of the year. A shower of rain fell on Thursday morning. None fell at Begoosaraie, and only a few drops at Jamooe Rain is much wanted for *bhadoe* sowings.
Bhagulpore Divn. 34	Bhagulpore, „ 15* „	1·02	Weather—Very unusual for the month of May. Very strong damp easterly winds. Nights very cool. Rain at Soopolo 5, but much heavier in north of that sub-division. Prospects reported to be very good. The rainfall at Mudehpoorah has been ·24 inch, but none in Banka. General health is very good. Cholera and small-pox decreasing.
Bhagulpore Divn. 35	Purneah „ 13, „	2·08	Weather—Strong east wind with frequent storms from north-west. The rain which has fallen this week has been most beneficial. Sowing is now in full progress all over the district. It is expected that cholera will now disappear.
Bhagulpore Divn. 36	Sonthal Perghs. „ 14, „	·03	Weather—The hot west wind seems to have ceased. Clouds with thunder and lightning always hanging about. The rainfall at Godda has been ·06, and at Rajmehal 1·12 inches. Indigo is said to have recovered a little in Rajmehal. *Boro dhan* on the Dearas yielding 14 annas.
ORISSA.			
Orissa Divn. 37	Cuttack, „ 6, „	Nil.	Weather—Very dry, with high winds. Since the 5th instant the clouds have begun to gather. Ploughing stopped for want of rain in some places. Prices are still moderate for the season. A little cholera here and there, but public health is generally good.
Orissa Divn. 38	Pooree, „ 11. „	Nil.	Weather—Very hot. Rain is required for tillage throughout the Sudder sub-division. The harvesting of the *dalua* paddy crop has almost been completed. Cotton dying for want of rain. The new sugarcane crop is progressing. Mangoes are ripening. Jack fruit are ripening and the crop is fair. In the Khoorda sub-division the paddy sowing is in progress.
Orissa Divn. 39	Balasore, „ 12, „	Nil.	Weather—No rain has fallen anywhere during the week. Ploughing has stopped for the present, and it is feared that the crop will be so late that it will be exposed to inundation before having attained sufficient growth to enable it to escape injury. In some parts drinking-water for men and cattle has failed, and what is left is very bad. Cholera is causing great mortality in the south and east of the district. One hundred and six deaths from cholera, and three from small-pox were reported during the first seven days of May.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, May 12, '76	Nil.	Weather—Very hot indeed. No crops on the ground. Rain much wanted to enable the ryots to break up the ground. Cholera still prevails, but in a less degree.
41	Lohardugga, „ 13, „	·1	Weather—Very hot. Rain is still urgently wanted. There was a shower of rain at head-quarters on Tuesday last, and slight rain is reported from some other portions of the district, but up to the 9th no rain had fallen at Palamow. Much more rain is required for agricultural operations, as the recent rainfall is much too scanty and insufficient to do much good. Small-pox is still prevalent at Palamow: a few cases of cholera have been reported. Public health otherwise good.
42	Singbhoom, „ 12, „	·48	Weather—Since last report there have been two falls of rain in Dalbhoom and one fall in Singbhoom, but in both it was insufficient to permit ploughing. There are no crops to report about. Very serious loss of cattle from disease is reported in Kol villages, and cholera prevails everywhere. Small-pox and chicken-pox are also prevalent.
43	Manbhoom, „ 13, „	·35	Weather—Hot, with dust storms and a little rain. The storm will probably be of service in removing sickness. State and prospects of crops are poor for want of rain. Rain has fallen in places, but not in sufficient quantity to be of use.

* Telegram of the 15th May, received on the same day, shows rainfall during the seven days immediately preceding.

Extract from the Proceedings of the Lieutenant-Governor of Bengal in the Public Works Department (Local—Accounts) under date the 4th May 1876.

READ memorandum from the Examiner of Public Works Accounts in Bengal, No. 216D. of 27th April 1876, submitting an abstract of the receipts and expenditure of the several District Road Committees for the quarter ending 31st December 1875.

RESOLUTION.—The Lieutenant-Governor directs that the accounts of the receipts and expenditure of the District Road Fund for the first quarter of the cess year 1875-76, as submitted by the Examiner of Public Works Accounts in Bengal, be published in the *Calcutta Gazette* and circulated to the officers concerned.

ORDER.—Ordered that a copy of this Resolution, together with a copy of the abstract of receipts and expenditure, be published in the supplement to the *Calcutta Gazette.*

Ordered that a copy of this Resolution, as well as of the abstract referred to, be forwarded to the Financial Department of this Government for information. Also that copies of each be forwarded to all Commissioners of Divisions, to all Superintending Engineers of Circles in Bengal, to the Accountant-General of Bengal, and to the Examiner of Public Works Accounts in Bengal, for information.

By order of the Lieutenant-Governor of Bengal.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

No. 184, dated 21st May 1875.

No. 171.—*Notification.*—The following rules, having reference to the Main Western Canal, first section; the Arrah Canal; the Buxar Canal, first section; the Main Eastern Canal, first section; and the Pátna Canal, have been passed this day by the Lieutenant-Governor under the provisions of Sections XI and XII of the "Canals Act, 1864" (No. V, B.L.C.):—

I. Every vessel, on entering any of the above canals, shall be liable to measurement for the purpose of ascertaining the amount of toll the vessel should pay according to the schedule of rates authorized by Government to be charged on the canal.

II. The tonnage of every vessel, whether laden or empty, shall, for the purposes of the "Canals Act, 1864," and of these rules, be determined by the following measurements:—

(*a.*) The product of half the length of the vessel, from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied.

(*b.*) The measurement of the length is to be made in feet, rejecting inches, and the measurement of the breadth and depth in feet and quarters of feet, rejecting portions of less than a quarter of a foot.

(c.) In calculating the amount of toll to be levied on vessels exceeding 100 maunds tonnage, any fraction of 100 maunds less than 25 maunds is to be omitted; exceeding 25 and not exceeding 50 maunds, is to be charged as 25 maunds only; exceeding 50, and no, exceeding 75 maunds, to be charged as 50 maunds only; and exceeding 75 maunds as 75 maunds only. Above 1,000 maunds no fraction of 100 maunds tonnage is to be charged. Toll will be charged on vessels under 100 maunds tonnage on the actual measurements of the vessels, omitting fractions of tens of maunds.

III. Every vessel entering any of the above canals shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date the vessel entered the canal, the point to which it may proceed in the canal, the maundage of the vessel, the amount of toll charged, and the number of days for which the vessel may remain in the canal, and the date of such last day. The number of days which the vessel may remain in the canal without additional payment shall be calculated at the rate of one day for every eight miles, or portion of eight miles, to be traversed.

IV. Toll may be paid at the first station, either for the entire number of toll-stations on the line of navigation, or for any less number of stations.

V. The tickets thus given may be demanded for inspection by any duly authorized canal officer, and must be kept on board and at hand for that purpose. They must be shown at each toll-station the vessel has to pass, as a passport that no further payment of toll is to be demanded. The tickets shall be delivered up at the last toll-station.

VI. Owners of vessels may compound by the payment of a fixed sum for the use of the whole or a portion of any of the above canals for any period that may be agreed upon, not exceeding one year. Each vessel so compounded for shall be furnished with a ticket showing the amount of toll paid, the period for which the toll has been compounded for, and the limits of the canal within which the vessel may pass; such ticket shall be kept on board the vessel, and shall be produced when required under rule V, but shall be given up only on the date of the expiry of the period for which granted, and at the station from whence issued.

VII. Duplicates of lost tickets, of which the numbers and the dates of entry can be satisfactorily established, will be granted by officers in charge of toll-stations on payment of a fee of one rupee.

VIII. Vessels remaining in the canals for a period exceeding that allowed under rule III will pay a demurrage of eight annas per 100 maunds per diem for each day or part of a day that they may remain in excess.

IX. No boats above 18 feet beam over all, and no rafts or floats of more than 10 feet width and 150 in length, will be allowed to enter the canals.

X. It will not be compulsory for the locks to be opened to single vessels of less than 500 maunds burden, except in the case of mail or despatch boats; but the locks shall be opened for the passage of boats at least twice a day.

XI. Vessels must have their masts fitted so that they can be let down with ease and speed; and when under sail, vessels must always keep in the middle of the canal. When being tracked, vessels are, as far as practicable, to keep to their port or left side of the canals.

XII. All vessels anchoring at night are to keep to their port or left bank of the canals.

XIII. Only one vessel shall be allowed to make fast along and in a line with the canal banks, and no vessel shall be made fast, or be placed outside of vessels so secured, without the permission of a canal officer. No vessels shall, however, be placed in such a position as to endanger the safety of other vessels, to obstruct their passage, or to impede the navigation; and no bamboos or poles shall be allowed to be erected on vessels when at anchor. Any infringement of this rule will be punishable by a fine not exceeding Rs. 5 for each offence.

XIV. Every vessel when put to shall be securely fastened, and shall at all times have some person in attendance on board of it. Any infringement of this rule will be punishable by a fine not exceeding Rs. 5 for each offence.

XV. In every case of wreck or obstruction of the channel by sunken vessels, the canal officers may call upon the person in charge of the vessel to remove the same without delay, and shall give every reasonable assistance towards so doing. But should the owner of the vessel or raft be not forthcoming, or should he not use reasonable expedition in removing the obstruction, or should he decline or fail to use proper assistance which may be offered to him by the canal officers, these officers may undertake the removal of the obstruction themselves at the cost of the owner of the boat, recovering the expense in the manner laid down in Section IX of the "Canals Act, 1864."

XVI. If the canal officers be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boat seized under the "Canals Act," he shall notify the seizure in the most public manner available.

XVII. In the event of any damage or injury being occasioned to the canal works by wilfulness or negligence on the part of any person in charge of a vessel, the canal officers may detain the vessel within the canal for a period not exceeding 24 hours: provided that

within that period the canal officers shall lodge a complaint against such person in charge of the vessel before a Magistrate under Section XVI of the "Canals Act."

XVIII. The banks or berms of the canals shall not be used as wharves for the deposit of goods, under a penalty of Rs. 10 for each offence; but, except in special cases, when the permission of the canal officers will be necessary, all articles shall be removed to the outer banks of the canals, and all such articles as shall not be finally removed from within the boundaries of the canals within a period of six days after being so deposited shall be liable to the charge of four annas per 100 maunds.

XIX. The canals may be closed once a year for effecting the necessary repairs to them, on one month's notice of the intention so to close them; but in the event of any sudden emergency, the canals may be closed at any time without prior notice, and no claim shall be made in such case by owners of vessels or others for compensation on account of detention.

XX. All offences against the provisions of these rules shall be punishable as provided for in Section XVIII of the "Canals Act, 1864," and all fines imposed may be recovered in the manner mentioned in Section XVII of the same Act.

XXI. The term "canal officers" in the foregoing rules shall include the persons alluded to in Section VIII of the "Canals Act, 1864," and any other persons who may be specially appointed to exercise such powers by the person appointed to collect the tolls.

No. 172.—*Declaration*.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. for enlarging the compound of bungalow No. 12, in mouzah Aspura, pergunnah Masaurah, zillah Patna, it is hereby declared that for the above purpose a plot of land measuring 1 rood and 2 poles, more or less, adjoining the bungalow compound aforesaid of the 62nd mile of the Patna Branch Canal as marked out by the Irrigation Branch of the Public Works Department, is required within the aforesaid village of Aspura, pergunnah Masaurah, zillah Patna.

The land plan of the above strip may be seen in the Office of the Assistant Engineer at Bikram between the Office hours every day (Sundays and other holidays excepted).

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

EDUCATIONAL NOTICES.

Rules for the Examination of Candidates for Vernacular Masterships in Bengal.

1. CANDIDATES for vernacular masterships may present themselves for examination at any first grade normal school.

2. The examination shall be held in December every year, concurrently with the annual examination of the normal schools of the first grade, and the same papers of questions that are set to the students of the normal schools shall be set to the candidates for masterships.

3. The examination shall be conducted in three different standards of study corresponding to the three years' course of the normal schools, and all candidates that pass shall be arranged in three grades, each grade having the sub-division of high, medium, and low, according to the proficiency of the candidates.

4. A candidate who obtains 60 per cent. of the total marks and upwards shall be entitled to a certificate of high proficiency in each grade; one who obtains 45 per cent. and less than 60 per cent. shall have a medium certificate; and one who obtains 33 per cent. and less than 45 per cent. shall have a low proficiency certificate.

5. No vernacular master shall, after January 1877, be appointed to the head vernacular mastership of any middle-class school who cannot produce a certificate of having passed the teachership examination in the first grade without the special sanction of the Circle Inspector.

6. Candidates who pass in the second and third grades shall be eligible to assistant vernacular masterships in middle schools, and to all vernacular teacherships in lower schools and girls' schools.

7. Candidates who desire to appear at the examination must send in to the head-master of any first grade normal school, or the Deputy Inspector of his district, an application containing the following particulars on or before the 1st of October each year :—

(1.) His name.
(2.) His age.
(3.) His father's name.
(4.) Residence (*i.e.*, village, district, &c.).
(5.) Normal school where he wishes to be examined.
(6.) Grade of teachership for which he is a candidate.
(7.) Certificates as to character and antecedents.

8. No fee will be charged to any candidate for the examination for the present, but it will be in the power of the Circle Inspector to refuse admission to any candidate whose antecedents may appear objectionable.

9. No candidate who is below 16 or above 35 years of age shall be eligible to the examination.

FORT WILLIAM, the 1st May 1876. H. WOODROW, *Director of Public Instruction.*

Rules for the award of Normal School Scholarships.

Young men of the age of 15 years and upwards, who passed the vernacular scholarship examination, may be admitted into normal schools without any further examination.

2. In the event of a sufficient number of admissions not being made under rule 1, it will be in the power of the head-master of the normal school, acting under the orders of the Director of Public Instruction and the Circle Inspector, to invite by public advertisement such candidates as may desire to be admitted, and to subject them to an examination of equal difficulty with that for vernacular scholarships.

3. The examination under rule 2 is to be held so soon, after the result of the vernacul lar scholarship examination is known, as may be most conducive to the benefit of the normaschools, and not later than the 1st February each year. The annual examination will ordinarily be held in December.

4. A limited number of normal school scholarships will be awarded to those students who most distinguish themselves at the annual examination in December. Such scholarships will be of the value of Rs. 3 a month each; but a scholarship may be raised to Rs. 4 a month if the holder of it distinguishes himself in the examination of the following year. No normal school scholarship will be awarded to any student who shall not have studied at the normal school for at least one year.

5. Scholarships will be liable to forfeiture or reduction for misconduct or want of sufficient progress in study on the part of the holder, with the sanction of the Circle Inspector.

6. Deductions from scholarships for absence from school shall be made in accordance with the rules and practice of the Education Department.

7. The following allotment of scholarships for the first grade normal schools is sanctioned for the present:—

		Rs.
Hooghly Normal School	... ...	200
Calcutta ditto	... ...	120
Bauleah ditto	... ...	100
Dacca ditto	... ...	120
Chittagong ditto	... ...	100
Patna ditto	.. ..	100
Bhagulpore ditto	... ...	100
Cuttack ditto	... ...	100
Ranchi ditto	... .	100

8. Scholarships not taken up at one normal school under these rules may be transferred to another normal school with the sanction of the Director of Public Instruction.

9. On the application of scholarship-holders, the Director of Public Instruction shall be competent to sanction the transfer of a scholarship-holder from one normal school to another; but such transfer will be sanctioned only upon very strong grounds, such as illness, removal of relatives, &c.

10. Students of normal schools who may not enter them as scholarship-holders shall be eligible for normal school scholarships if they acquit themselves creditably at the annual examinations of the normal schools. Those who actually hold vernacular scholarships will be allowed to retain their scholarships in addition to the normal school scholarships.

11. The head-master of each first grade normal school shall forward, on or before the 1st March of every year, through the Circle Inspector, to the Director of Public Instruction the number of scholarships of each grade awarded to the scholars undergoing training in his school.

12. Scholarship-holders shall not be required to pay any tuition fees, but all other pupils of the pundit's department shall pay a fee of eight annas a month at Hooghly, Calcutta, Dacca, and Bauleah, and four annas a month at the five remaining schools.

FORT WILLIAM, the 1st May 1876. H. WOODROW, *Director of Public Instruction.*

---

1. THE Calcutta Medical College Session of 1876-77 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificate of lectures and hospital attendance of the college are recognised by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

T. EDMONSTON CHARLES, M.D.,
for the Principal, Medical College.

CALCUTTA MEDICAL COLLEGE OFFICE, the 16th May 1876.

NOTIFICATION.

The 16th May 1876.—In continuation of the orders published at pages 338-39 of the *Calcutta Gazette* of 24th March 1875, the Lieutenant-Governor is pleased to notify that at the granting of a 20 years' lease under those orders, after the expiry of the preliminary lease, and also at every subsequent renewal of any such 20 years' lease, the amount of rent to be paid for the land per acre will be fixed at an amount not exceeding the rate of rent paid per acre in the neighbourhood at the time for the highest class of land under ordinary arable cultivation.

2. If at any future time the administration of the tracts in the Western Dooars under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the legislature, to impose such special taxation as may be deemed necessary to defray the additional expenditure so incurred, either by raising the rent or in some other mode. But under no other circumstances will the rent which has been once fixed for a term of years on the principle above enunciated be raised during such term.

DACCA COMMR.'s OFFICE, the 16th May 1876.

1. THE Calcutta Medical College Session of 1876-77 will commence on the 15th June next.

2. Students who may be desirous of commencing their studies are requested to apply to the Principal of the Medical College between the hours of 10 A.M. and 4 P.M., on or before the 15th June next, when the ten (10) vacant free presentations will be awarded. These are given to candidates upon their relative position in the University First Arts, B.A. and B.L. Examination, preference being given to those who have passed the highest examination.

3. The possession of the "First Arts" certificate of the Calcutta University will entitle students to enter the Medical College.

4. The course of instruction given in the Calcutta Medical College is framed to meet the requirements of the Calcutta University for obtaining its degrees in medicine and surgery.

5. The candidates who may fail in obtaining free presentations may be admitted as students on payment of an entrance fee of Rs. 15, and a further sum of Rs. 5 monthly during the period of their stay at the college, provided they enter into a guarantee to follow out the college curriculum to a close, and to graduate at the Calcutta University. Candidates who do not intend to graduate in Calcutta, or who wish to attend only a few courses of lectures, may be admitted as casual students on payment of a fee of Rs. 40 for each course of lectures, or Rs. 60 for six months' attendance upon any single branch of hospital practice. The cost of educating a casual student to compete at the examination of the Royal College of Surgeons of England amounts to Rs. 810.

6. The certificate of lectures and hospital attendance of the college are recognised by the University of London, the Royal College of Surgeons of England, and the Worshipful Society of Apothecaries of London.

T. EDMONSTON CHARLES, M.D.,
for the Principal, Medical College.

ROAD CESS COLLECTIONS DURING 1874-75.

REVENUE DEPARTMENT.—LOCAL TAXATION.

Calcutta, the 23rd May 1876.

RESOLUTION.

READ—

A letter from the Board of Revenue, No. 201A., dated the 31st March 1876, submitting two statements of the demands, collections, and balances of road cess for the cess year 1874-75, ending on the 30th September 1875.

OF the two statements submitted with this letter, the first gives the results of the cess upon lands and mines, and the second those of the cess upon houses. The valuations for each district, and the rates at which the cess was levied, have been given, as well as the totals in each statement.

2. In two districts in which the valuations have been completed, Hooghly and Burdwan, the collection of the cess was suspended during the year in consequence of the representations of the local authorities that, owing to deficiencies in the crops for several years in succession, the people were in a condition in which the levy of the cess would be attended with great hardship and inconvenience. The collections shown opposite to the Hooghly district in statement No. I are on account of lands appertaining to estates borne on the towjih of the district of Hooghly, but locally situated within other districts.

3. The total demand on account of the cess upon lands and mines was Rs. 10,05,960, of which Rs 75,453 were for arrears of the year 1873-74, and Rs. 9,30,507 were the demand of the current year 1874-75. Of the arrear demand, Rs. 67,965, and of the current demand, Rs. 8,45,488, making a total of Rs. 9,13,453, were collected within the year. The collections thus amounted to 90·81 per cent., and the outstanding balance is Rs. 92,507, a result which the Lieutenant-Governor accepts as satisfactory, though it is

observed that the uncollected balance is in excess of the arrears of the previous year. The percentage, however, of the collections on the demand shows a marked improvement, it having been 81·16 in 1873-74.

4. Excluding Hooghly, the figures for which are of an exceptional character, the returns given in statement No. I show that the cess was collected in eighteen districts; in eleven of these the full rate was levied, in two districts the rate was three-fourths of the full rate, and in the remaining five districts the rate was one-half of a full rate. These five districts were the three Orissa districts, and the districts of Monghyr and Bhagulpore. It might have been expected that in these five districts the percentage of collections would be higher than in others; and this has been the case in Pooree, where the whole of the demand has been realized. But in Cuttack the percentage of collections amounted to only 84·33, and in Balasore to only 80·31. Next to Pooree, the district which shows the most satisfactory percentage is Tipperah, where the full rate was levied, and 99·23 per cent. of the demand was realized. The most unfavorable return is that from Moorshedabad, in which district the collections were only 79·80 per cent. of the demand.

5. The Member in charge observes that the principal difficulty in collecting the cess is found to be in the realization of the demand on account of lakheraj lands. In the case of valid lakheraj tenures this difficulty will be removed if the Bill for the registration of possessory titles shall become law. But it is remarked that the difficulty is still greater in the case of invalid lakheraj lands, and the Lieutenant-Governor would ask to be favored with some further particulars showing the exact nature of the difficulty which has been felt in dealing with these lands. If the lands have been omitted from the schedules, no demand on account of them will have been made, and consequently the non-realization of the cess from them will not affect the percentage of collections; if, on the other hand, they have been included in the zemindar's return, the Collector has to look to the zemindar, and not to the lakherajdar, for the payment of the cess.

6. The statement regarding the cess upon houses under Part IV of the Act gives results which are not so satisfactory as those of the cess upon lands. The arrears of 1873-74 were Rs. 13,275, and the demand of the current year was Rs. 67,084, making a total demand of Rs. 80,359, of which only Rs. 55,683 were collected, giving a percentage of about 69·3 on the total demand. It is explained that this unfavorable result is owing to the variations arising from the poverty, deaths, or evasion of the house-holders. But the Lieutenant-Governor observes that this explanation does not appear sufficient to account for such cases as that of Bankoora, in which the collections of house cess were only 3·41 per cent. of the demand.

7. Pooree was the only district in which the full amount of the demand on account of house cess was collected. But there seems reason to think that this result has been attained by an undue limitation of the demand, as the total amount of the demand was only Rs. 33, and it is difficult to believe that even at half rates this amount can adequately represent the cess payable in a district with three quarters of a million of inhabitants. The percentage of collections in Hazareebagh (99·69), Tipperah (92·84), and Bhagulpore (91·71), was satisfactory; while the most unfavorable returns are those from Bankoora, Balasore, Rajshahye, and Beerbhoom.

8. The Lieutenant-Governor observes with satisfaction that though the report refers to difficulties which have been met with in the collection of the road cess, there is an absence of complaints on the part of those from whom it is levied, and he accepts this as showing that the realization of the cess has been carried out with moderation and discretion. The thanks of Government are due to the Member in charge, Mr. Schalch, for his efficient supervision of this branch of the Land Revenue Administration.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,
Offg. Secy. to the Govt. of Bengal.

OPERATIONS OF THE OPIUM AGENCIES DURING 1874-75.

REVENUE DEPARTMENT.—MIS. REVENUE.

Calcutta, the 23rd May 1876.

READ—

A letter No. 2908, dated 17th April 1876, from the Secretary to the Board of Revenue, submitting the reports of the Opium Agents of Behar and Benares on the operations of the Agencies during the season 1874-75.

THE total number of beeghas under poppy cultivation in the Behar and Benares Agencies during the year 1874-75 was 869,666, which yielded an outturn of 98,178-25-2½ maunds of opium. An opium beegha contains 3,015 square yards, or about five-eighths of an acre. The following table shows the extent of land devoted to opium cultivation, its outturn, and the average produce per beegha in each of the opium divisions during the year 1874-75.

	Divisions.	Total quantity of beeghas under cultivation after deducting failure.	Outturn of each division.	Average produce per beegha.

3. It will thus be observed that in the past year, with an increase of cultivation, there was a decrease of outturn in both the Opium Agencies. The results of the season will be briefly considered in detail.

4. *Behar Agency.*—The entire cultivation of this Agency, south of the Ganges, is irrigated. In the Sarun district, north of the Ganges, nearly the whole cultivation is under irrigation; but in the Tirhoot and Chumparun districts nearly two-thirds of the cultivation is unirrigated. The increase in cultivation during the year under review amounts to about 100,000 acres, and is almost entirely in the unirrigated districts. There was no decrease in cultivation in any of the districts. There was, however, a decrease in the produce, the average yield per beegha being 4 seers 10 chittacks, against 5 seers 15 chittacks in 1873-74. On the whole, then, the season was not a favourable one.

5. The outturn of the Chota Nagpore Sub-Agency amounts to only 265 maunds, and the proportion of produce per beegha is only 2 seers 2 chittacks. This Sub-Agency was established in 1869-70, since which year the production and cultivation have been as follows:—

Years.	Cultivation per beegha.	Produce.	Produce per beegha.
		Mds.	Srs. Ch.
1869-70	978	87	5 5
1870-71	1,788	113	3 12
1871-72	3,019	251	3 5
1872-73	4,105	325	3 2
1873-74	4,011	352	3 8
1874-75	4,887	265	

The season at its close is reported to have been especially unfavourable in Chota Nagpore, but it is noteworthy that in no subsequent season has the proportion of outturn been so considerable as it was in that of the first season of this Sub-Agency. The Agent has been requested, when he next visits Chota Nagpore, to enquire into and report fully on the question of the permanent retention of this Sub-Agency.

6. The Rohinee factory in the Monghyr district, which has yielded an increase of eleven chests as compared with 1873-74, will be retained for another year, in compliance with the recommendation of the Board of Revenue.

7. It is explained that no manuring advances were made during the season under review, the reasons being, firstly, that manure cannot be procured cheaply or in sufficient quantity; secondly, that such manure as is available is always used by the cultivators in the fields near their homesteads; and thirdly, that there are no means of ascertaining that such advances would be made use of in the manner required. As a ryot does not cultivate his poppy land under a long agreement, there is a probability that his manured lands would be taken up by the landlord for the cultivation of indigo and other crops. The Sub-Deputy Opium Agents have unanimously expressed their opinion that manure advances should not be made.

8. The experimental sowings during the season were confined to seed selected by Mr. Scott, Curator of the Botanical Gardens, now on special duty in the Opium Department. The experiments were not made in as complete a manner as they might have been. In seven instances only out of twenty-two was the produce of seed supplied by Mr. Scott larger than the yield from the ordinary seed. During the present season it is hoped that the experiments will be conducted on a more careful plan.

9. The experiments in Persian and Malwa seeds have been discontinued, as they were not attended with success. The result of an interchange of seeds between the sister agencies of Behar and Benares, and, in the case of Behar, of a further interchange between the districts lying north and south of the Ganges, was at first attended with greater success. The first success has not, however, been repeated, and the results have not answered expectations. It was accordingly recommended by the Agent of the Behar Agency that the interchange of seeds should be confined within the several districts of the

Agency, and it was suggested that as Shahabad seed appeared to give the best results and to be preferred by the ryots, that seed from that district should be collected for special distribution among the cultivators. The results reported correspond also with those attained by Mr. Scott. In his reports on the experimental cultivation of the poppy, Mr. Scott has carefully noted the results of several instances of sowings of Benares seed on Behar soil, from which it appears that the plant raised therefrom has invariably turned out a poor drug-producer. Under these circumstances, the recommendations of the Agent have been approved, and Government has passed orders directing the abandonment of Benares seed in Behar, and a more general distribution of seed of the Shahabad district.

10. Mr. Scott has submitted elaborate reports on the experimental culture of the opium poppy for the seasons ending with the 15th April 1874 and 31st May 1875 respectively. He has since been desired to prepare a short practical treatise on the subject, devoid of scientific terms, showing the results of his operations and the conclusions derived therefrom; and also setting forth, in the form of rules or instructions, what steps should be taken at each stage of cultivation and under varying conditions, with full explanations of any changes that it may be necessary to introduce. On receipt of this treatise the desirability of continuing the experiments longer will be considered.

11. The practice which was in force before the year 1870, and which has been since revived, of sanctioning an expenditure in each agency for presenting shawls and turbans, &c., to such of the principal cultivators as may be considered deserving the distinction, yields satisfactory results. Rs. 10,000 are now annually sanctioned for this purpose in each agency. The proposal to grant a bonus of Rs. 10 for each maund of opium produced in excess of the estimate framed at the beginning of the year was only sanctioned on a very limited scale, and as there were objections to continuing this experiment it has been discontinued.

12. In the chapter on opium in the last annual administration report, it was stated that the Lieutenant-Governor had found himself unable to sanction the proposal of the Board of Revenue to abandon and dispose of the steam saw-mills attached to the Behar Opium Agency for the manufacture of packing chests. The Lieutenant-Governor was of opinion that every effort should be made to work the mills up to their full power, and that, if properly worked, the mills could not fail to pay. The issue has fully borne out these expectations, and it is observed that in the past year the outturn of work has been greater than it was before, while at the same time there has been a considerable decrease in the cost of each chest manufactured by the saw-mills. The Opium Agent at Patna reports that the saw-mills this year have been worked in a very satisfactory manner, and that they should certainly be retained. It was also proposed by the Board to substitute mangoe-wood for sâl-wood chests; but a difficulty has always existed in getting a sufficient supply of mangoe-wood, and it is not probable that this wood will be always available. Dr. Durant, the Principal Assistant at the Behar Agency, shows clearly in his report the objections to using mangoe-wood exclusively for opium chests.

13. *Benares Agency.*—The land under cultivation in the Benares Agency is almost all irrigated; only about 11,000 beeghas, mostly in the district of Goruckpore, are unirrigated. The actual cultivation in 1874-75, deducting the lands in which the sowings failed, came to 359,353 beeghas. This is an increase of nearly 40,000 beeghas over the cultivation of the previous year; but there was a considerable decrease in the produce, the average outturn per beegha being only 4 seers 6½ chittacks, compared with 5 seers 3¾ chittacks in 1873-74. The crop, which had promised very luxuriantly, was injured by violent hail-storms in February.

14. It was proposed in 1871 by the Chief Commissioner of Oudh, as a remedy against the consumption of illicit opium, that opium of 80° consistency should be supplied at a reduced price in place of the present excise opium, which is at 90° consistency. After much consultation and discussion, the preparation of 80° consistency opium and its sale for Rs. 14 a seer was at length authorized, the reduction in the selling price being regulated by the

reduction in intrinsic value caused by lowering the consistency. The experiment was carried on during the past year on a small scale in Oudh. It has not, however, so far met with favour, and it is said that the public does not appreciate the change. The Lieutenant-Governor will await a separate report from the Board of Revenue regarding the continuance of the experiment.

15. The reports of all the Sub-Deputy Agents in the Benares Agency show that the system of granting rewards is favourably regarded by the cultivators, and has had the desired encouraging effect.

16. The experimental sowings with Behar seed, even though that seed was procured from the Shahabad district, have not turned out favourably; nor has the special seed supplied from Mr. Scott's garden at Bankipore yielded such good results as the local indigenous seed. On the other hand, the results of the selection of poppy capsules for seed purposes on a plan recommended by Mr. Scott have turned out very satisfactorily. The practice, which is said already to exist among experienced cultivators, should be made more general.

17. Mr. R. Abercrombie, the late Opium Agent at Behar, retired from Government service at the close of the past season, after a tenure of office as Opium Agent extending over ten years. Mr. C. F. Carnac similarly resigned his appointment at the Benares Agency on the 15th March 1875, after having been Agent for eight years. The services rendered to Government by both these experienced officers have frequently been recognized, and the Lieutenant-Governor is glad again to have this opportunity of testifying to the zeal and ability with which they have always administered the affairs of the Opium Department. Their successors, Mr. H. Rivett-Carnac at Ghazipore, and Mr. H. W. Alexander at Bankipore, have assiduously entered upon their new duties.

18. The Principal Assistants, Dr. Sheppard and Dr. Durant, continue to merit the acknowledgments of Government. In particular the Government and the public are indebted to Dr. Sheppard for his labour in connection with the preparation of morphia and narcotine at the Ghazipore factory. Dr. Sheppard's labours have at last been attended with complete success, and there is now a steady demand for morphia from all three presidencies, while, financially speaking, it is estimated that the saving to Government during the last five years has been considerable.

19. Mr. Alexander had not been sufficiently long in charge of his appointment to be able to bring the names of his subordinates who had done specially well to the notice of Government. The Lieutenant-Governor is glad to acknowledge the services of the following officers, who are specially mentioned by Mr. Rivett-Carnac as deserving of favourable notice:—

Sub-Deputy Opium Agents.

Mr. A. Turnbull.
„ Anderson.
„ Armstrong.
„ Gennoe.
„ Campbell.
„ Ridsdale.

Assistant Sub-Deputy Opium Agents.

Mr. Francis.
„ Lloyd.
„ Bean.
„ Luard.
„ H. Hastings.
„ R. A. H. Russell.
„ A. Bryson.
„ A. Osborne.
„ Parrott.

20. The thanks of Government are due to Mr. Money for the ability and care with which he has continued to supervise this most important department of the administration.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Junior Secy. to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 20th May 1876.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Div. 1	Burdwan, May 22,* '76	·68	Weather—The rainfall at Culna has been 1·56, at Cutwa ·63, at Bood-Bood 1·12 at Jehanabad 3·53, and at Raneegunge 1·16. Rain has fallen throughout the district during the past week, though not heavily except in Jehanabad. Ploughing has begun. Cholera decreased.
2	Bankoora, „ 20, „	·5	Weather—More or less showery. Ploughing is going on in most parts of the district, but rain is still much wanted.
3	Beerbhoom, „ 20, „	·55	Weather—Damp and cool for the season. Standing crops of oil-seed, cotton, and indigo, benefited by recent showers. More rain is wanted.
4	Midnapore, „ 20, „	·75	Weather—Hot, with seasonable storms of wind and rain every second or third evening. The rain is still insufficient for the crops on the ground, and the ryots generally prognosticate a bad season.
5	Hooghly, „ 20, „	1·17	Weather—Close and sultry. Cloudy, with slight showers of rain on the night of the 14th, 15th, 16th, and 17th instant. Sowings of *aous* and jute resumed after rain. *Amun* seedlings are being prepared in nurseries. Ploughing recommenced. The late rain was beneficial. The *aous* already sown has germinated. *Jali dhan* and October indigo are doing well. A fourteen-anna crop of these is expected to be reaped. Harvest of *jali dhan* has commenced. Cucumbers, *potol*, &c., and mangoes, are being gathered. More rain is wanted. Cholera now reduced to normal state.
	Howrah, „ 20, „	2·43	Weather—Very threatening, with a fair fall of rain, which has done much good, enabling agriculturists to prepare their lands.
	Central Districts.		
Presidency Div. 6	24-Pergunnahs, May 22,† '76	1·77	Weather—Seasonable. Rainfall during the week throughout the whole district, which has done much good. Sowings of *aous* and jute have commenced. Health in general is good.
7	Nuddea, „ 20, „	6·07	Weather—Occasional storms with copious rain. The rain has fallen most opportunely, and the prospects of both rice and indigo are favorable.
8	Jessore, „ 20. „	6·97	Weather—Heavy showers, extending all over the district, but especially heavy in the Sudder sub-division. The rain has done much good, and a cessation of it for a time would now be beneficial.
9	Moorshedabad, „ 20, „	2·73	Weather—Rain has fallen all over the district. The temperature is less oppressive. Ploughing is going on actively. The seedlings of crops already sown promise well. There is very little change in prices. A few cholera cases still occur in the Sudder sub-division, but the rest of the district is free from the disease.
Rajshahye Div. 10	Dinagepore, „ 19, „	1·94	Weather—Wind north-east. Occasional showers. Cloudy. At times hot and oppressive. Prospects of the crops are favorable. Cholera and small-pox are still bad; the latter in the jail, and extending into the town.
11	Maldah, „ 20, „	0·36	Weather—Hot and cloudy. Crops are thriving.
12	Rajshahye, „ 19, „	3·2	Weather—Stormy and unsettled, and there has been a fair amount of rain in the south of the district. Rice sowings are going on, and where the seeds have germinated, the young plants are thriving. The *til* (sessamum) crop is doing well. More rain is wanted, especially in the northern thanas.
13	Rungpore, „ 19, „	3·93	Weather—Cool. The rainfall at Gyabunda has been 4·49, at Kurigram 3·21, and at Bagdogra 3·44 inches. Crops are generally flourishing. *Aous* is in ear, and *kaon* and *cheena* being cut in Kurigram sub-division. Jute is up, and is doing well. *Amun* is being sown. No fresh reports of cholera.
14	Bogra, „ 20, „	·89	Weather—Hot, with occasional clouds. *Aous* is well on. *Amun* sowings begun. Jute and *kawni*—good crops expected; *cheena* and other millets a poor crop. The outturn will be about four annas, but very little is grown here. *Rabar* a good crop. Fever almost disappeared.
15	Pubna, „ 20, „	1·88	Weather—Stormy. Vegetation of all kinds is luxuriant.

* Telegram of the 22nd May, received on the same day, shows rainfall during the seven days immediately preceding.
† Report of the 22nd May, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(*Contd.*)			
	Central Districts.—(Continued.)		
Cooch Behar Divn. 16	Darjeeling, May 19, '76	·76	Weather—There have been several smart showers of rain, which have done much good, though the aggregate fall has been much less than usual. The young crops of Indian-corn, buckwheat, and potatoes; also the millets, *murwa* and *kagoni*, have been benefited by the recent showers on the hills. The rain has also extended to the plains, and done good there.
17	Julpigoree, „ 20, „	1·89	Weather—Very hot for the greater part of the week. Sufficient and healthy showers appear to have fallen throughout the district. All crops are progressing satisfactorily.
	Cooch Behar, „ 18, „	7·03	Weather—Generally cool and often cloudy. More or less rain every day at the Sudder station. General rain throughout the district accompanied with thunder. There has now been rain enough, and a little sunshine will do good, and enable the people to weed their fields. More rain will do harm rather than good. The general appearance of the crops, however, is decidedly good, and the second sowings of the *bitri dhan* seem coming up, and are healthy. Cholera still prevails.
	Eastern Districts.		
Dacca Divn. 18	Dacca, May 22,* '76	·51	Weather—Seasonable. State and prospects of the crops are very good. Cholera abated.
19	Fureedpore, „ 20, „	2·0	Weather—Hot, with frequent storms. The rainfall at Madaripore has been 1·04, and at Goalundo 2·61 inches. State and prospects of the crops are good. Rain has done, and will do, much good. Ploughing of high lands is going on now. Rice on sandy churs benefited. Cheena, pumpkins, *til*, sugarcane, *amun*, and *aous* rice, are looking well. Mangoes here, as usual, are full of maggots. General health is good.
20	Backergunge, „ 18, „	3·49	Crops are generally good. *Aous* sowing is nearly finished, and ploughing for the *amun* has begun. Cholera is still present but in a less severe form.
21	Mymensingh, „ 19, „	5·38	Weather—Showery and seasonable. State and prospects of the crops are favorable.
22	Tipperah, „ 19, „	2·66	Weather—Stormy, and a good deal of rain during the first half of the week, but since hot and clear. The rain has been very beneficial to the young rice. Prospects of crops are good.
Chittagong Divn. 23	Chittagong	.....	Return not received.
24	Noakholly, „ 18, „	·84	Weather—Generally fair, but hotter than last week. The last three nights were comparatively cool. Wind generally from south. Pulses, chillies, &c., are being gathered. The cultivation for the early and late rice is going on. Stray cases of cholera have occurred at Chagulnya and Bamni.
25	Chittagong Hill Tracts, „ 16, „	3·04	Weather—A heavy shower of rain accompanied with squalls on the 14th instant. The hill people are busily engaged in sowing their paddy and other seed-grains in their jooms.
	Hill Tipperah, „ 17, „	4·87	Weather—There has been much rain during the week. The prospects of the crops are satisfactory. *Aous* and *amun* are being sown.
BEHAR.			
Patna Divn. 26	Patna, May 22,* '76	Nil.	Weather—Very hot. No rain as yet. The want of it is becoming serious Such crops as there are, viz. sugarcane and *cheena*, are doing fairly well. Cholera is still prevalent throughout the district, and there are a few cases of small-pox.
27	Gya...	.....	Return not received.
28	Shahabad, „ 20, „	Nil.	Weather—Hot, with occasional dust-storm; wind variable. Slight drizzling on the evening of Monday last. No crop on the ground, except sugarcane and cheena. Rain wanted for the young sugarcane. Cholera on the increase in the sub-divisions of Bhubooah and Sasseeram.
29	Durbhunga, „ 20, „	·37	In Mudhoobunnee sufficient rain has fallen for agricultural purposes. The prospects of the ensuing sowing season are therefore satisfactory. In the rest of the district the rain has been less, and ploughing operations are somewhat backward. On the whole, however, the season promises fairly well. Cholera is still prevalent.
30	Mozufferpore, „ 20, „	1·0	Weather—Warm, with east wind prevailing. In Mozufferpore and Seetamurhee sub-divisions the lands are everywhere being ploughed for the autumn and winter crops. At Seetamurhee 1·12 inches of rain have fallen during the week. Rain is much wanted in Hajipore sub-division, and cholera is spreading rapidly in that district.

NOTE.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVN.—(*Contd.*) 31	Sarun, May 20, '76	Nil.	Weather—Hot, with high winds and occasional dust-storms. There was some rain in the Sewan sub-division on the 11th instant, and at Gopaulgunge on the 10th and 15th idem. In one part of Sewan it was accompanied by a hail-storm, but elsewhere it has done good. The rain at Gopaulgunge was heavy and very beneficial. In Chuprah only a few drops fell on Monday evening.
PATNA DIVN.—(*Contd.*) 32	Chumparun, „ 19, „	1·08	Weather—Close and hot. There is prospect of more rain. The crops are most promising, and the late rain has done a great deal of good.
BHAGULPORE DIVN. 33	Monghyr, „ 20, „	Nil.	Weather—Fair. Hardly any crops on the ground, except indigo, which has suffered from the long continued drought. Rain for *bhadoi* sowing is anxiously looked for.
BHAGULPORE DIVN. 34	Bhagulpore, „ 22,* „	Nil.	Weather—North, south, and east winds are prevalent. The rainfall at Soopole has been ·7, and at Mudehpoorah ·52 inches. Heavy rain along the southern edge of Banka sub-division. Weather at Soopole most favorable to cultivation. *Bhadoe* is mostly sown down, and the *aghani* of low lands is coming up. More rain is required for the high lands at Mudehpoorah. Another heavy shower would be of great value. General health is very good. Small-pox almost died out, and only a little cholera here and there.
BHAGULPORE DIVN. 35	Purneah, „ 20, „	·38	Weather—Hot and close for the last few days. The recent rain has been general throughout the district. Moong is being cut. *Cheena, kowni*, and sugarcane, are coming on well. Jute and rice have begun to come up. Cholera is disappearing.
BHAGULPORE DIVN. 36	Sonthal Perghs. „ 21, „	·85	Weather—There is not as much rain and wind as is usual in May. There is nothing to report on. Ploughing is backward for want of rain. Health is better in Deoghur.
ORISSA.			
ORISSA DIVN. 37	Cuttack, May 13, '76	Nil.	Weather—Unusually hot and dry. Ploughing is much retarded by the long continued drought. Wells and tanks everywhere drying up. Rain is much wanted. If it does not come within the next fortnight, there will be much cause for anxiety. Public health is fairly good, though there is still sporadic cholera.
ORISSA DIVN. 38	Pooree, „ 18, „	·1	Weather—Hot. The rainfall at Khoordah has been 0·45 inches. Rain is much wanted for tillage. The harvesting of the *dalwa* paddy crop has almost been completed. Cotton is in pod. The new sugarcane crop is progressing. Jack fruits are ripening, and the crop is fair. Public health is generally good.
ORISSA DIVN. 39	Balasore, „ 19, „	1·35	There have been several north-westers with heavy showers, which have done much good. Ploughing is progressing, and sowing has commenced. Cholera is still extremely destructive, and 150 deaths from this disease were reported during the second week in May.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, May 19, '76	1·05	Weather—Intensely warm. No crops on the ground. The little rain that has fallen has not been of any appreciable benefit, as it was insufficient to soften the ground. Cholera is still prevalent.
41	Lohardugga, „ 20, „	·52	Weather—Very hot. More rain is still urgently required for ploughing and sowing. The recent fall of rain is quite insufficient, and it has been only partial, as in some parts of the Sudder sub-division there has been no rain, and none has been reported in the whole of the Palamow sub-division. Small-pox is still prevalent at Palamow. There have been a few more cases of cholera. Public health is otherwise good.
42	Singbhoom, „ 19, „	1·24	Weather—Seasonable. Things are very much more cheerful, as rain has fallen everywhere in the district, and the people are able now to prepare their lands. Sickness is also reported to be less.
43	Manbhoom, „ 20, „	·35	Weather—More rain is wanted. There has been a little rain with storms at Purulia, but not enough for purposes of cultivation. In the west and south of the district sufficient rain has fallen for present purposes, but from the north of the district reports are bad on the whole. It may be said if rain falls soon—and there are indications of it—all will be so far well, though the *gora dhan* will be short. Sugarcane plants have dried up in places. Cholera is raging in the northern pergunnahs of the district.

* Telegram of the 22nd May, received on the same day, shows rainfall during the seven days immediately preceding.

The following order, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, is republished for general information :—

No. 114.—*Simla, the* 17*th May* 1876.—*Notification.*—*Customs and Salt.*—In exercise of the powers conferred by Sections 5, 9, and 28 of "the Inland Customs, Act, 1875," the Governor-General in Council is pleased to make the following rules :—

1. Sugar may be taken into the town of Hoshangabad across the customs zone without prepayment of duty under special passes granted on this behalf by the Collector of Customs at Hoshangabad.

2. All sugar in respect of which such passes are granted shall be taken direct from the point at which it enters the zone to some place within the Municipal limits of Hoshangabad by such route as the Commissioner of Inland Customs may from time to time prescribe.

3. In the event of any deviation from such route or on the sugar being removed from the said Municipal limits, the duty shall at once become payable.

4. If sugar imported under these rules is consumed within the said Municipal limits, the duty chargeable thereon shall be remitted.

5. No sugar shall be removed from the said Municipal limits except by such routes as the Commissioner of Inland Customs may from time to time prescribe.

The following order, issued by the Government of India in the Foreign Department, is republished for general information :—

RESTRAINT OF INTEMPERANCE AMONG THE SONTHALS.

Minute by the Lieutenant-Governor of Bengal, dated the 27th May 1876.

THE subject of intemperance among the Sonthals has for some time past been causing anxiety to the Government of Bengal. The Sonthals in Sonthalia proper constitute a population of 1¼ million, inhabiting an area of 5,510 square miles. And the questions relating to intemperance which affect them must equally affect the Sonthals who dwell in the districts of the Chutia Nagpore province which adjoin Sonthalia, and in some degree also other aboriginal races who resemble the Sonthals in habits and disposition.

2. Recently a memorial was presented to Government by several Reverend Missionaries,—whose benevolence, local experience, and devotion to the best interests of the people entitle their opinion to great weight,—describing the evils of intemperance among these people, and urging the Government to adopt remedial measures. Thereupon enquiries were made from them through the Commissioner regarding the particulars of this intemperance—specially as to what kind of drink is, and what is not, largely or chiefly consumed—and regarding the measures which could or could not, in their opinion, be adopted by the Government.

3. The following is an abstract of their replies. The Revd. Mr. Brown does not think the evil quite so great as has been represented, or that it is any worse now than formerly. He would prohibit home-brewing, and would set up Government breweries, to which people should be allowed to bring their rice to be turned into beer. The Revd. Mr. Cole thinks private brewing might be stopped, just as private distilling has been effectually put down; he also advocates Government breweries, and says that, if the people are prevented from getting rice-beer, they will take to drinking spirits. The Revd. Mr. Stark's conclusions and recommendations are of much the same kind. The Revd. Messrs. Boerresen and Skrefsrud repeat their former statements in even stronger terms than in their memorial. They would prohibit all home-brewing, shut up all the "pachwai" or rice-beer shops. let the people drink spirits if they will drink, but make spirits so dear that hardly any one will be able to buy them.

4. Now, as regards licensed shops, it is clear that the local authorities have, with the entire approval of Government, done very much to check drinking and to lessen facilities for buying drink, as is proved by the figures given below:—

	1872-73.	1873-74.	1874-75.	1875-76.
Country-spirit shops	532	469	409	207
Pachwai shops	113	98	58	35

5. The result of these figures seems to me to be satisfactory. If necessary, a further diminution can be carried out, especially in the neighbourhood of Christian villages, the inhabitants of which are opposed to drinking. If in such neighbourhood there still remain any shop, whether for the sale of country-spirits or of beer, I desire that it be immediately closed on objection being made.

6. The fact remains, however, that the drinking is not so much of country-spirits nor of pachwai beer sold at licensed shops, but chiefly of the home-brewed rice-beer called "pachwai" or "handia." While the distillation of spirit other than under regulation is strictly prohibited, which prohibition is fully obeyed, the brewing of beer from rice for consumption at home, and not for sale, is permitted without restriction, the permission dating so far back as 1835. It is certain that the Sonthals drink very little of distilled spirits or of rice-beer purchased at the licensed shops. But they do drink very much of the home-brewed rice-beer at all seasons habitually, and at some seasons to such an extent as to cause long-sustained inebriation among the mass of the people for days, even for weeks, consecutively.

7. The Commissioner (Mr. G. N. Barlow, C.S.I.,) remarks:—

"I think the ventilation of the present discussion has established one thing clearly, viz.—that it is the privilege of home-brewing pachwai that is held by all alike to be the prominent cause of Sonthal drunkenness. The existing country-spirit system escapes criticism in the later replies of the missionaries, when it is not spoken of in terms almost of commendation on account of the restrictive effect of its operation. Even Messrs. Boerresen and Skrefsrud, who in paragraph 8 of this memorial dated 22nd December 1875 spoke in severe terms of the over-numerous spirit-shops in their neighbourhood, now advocate the abolition of pachwai brewing and the delegation of the Sonthals to country-spirit shops, to obtain what liquor they require, on the grounds that "although they now and then could buy country-spirit, still the shops would be at sufficient distances as to prevent it becoming a daily occurrence; and besides, they could neither get it on credit, nor for anything but hard cash;" and again—"from what we know of the Sonthals, there would be no fear of their taking to excessively drinking country-liquor, for besides the already-mentioned obstacles for so doing, its great expensiveness would be a safe-guard against it. When country-spirits were prevalent, there was very little drunkenness amongst the Sonthals." I do not mention this matter because I have any intention of departing from the policy laid down by Government in your No. 762, dated 30th March 1874, viz. that the excessive uses of fermented liquors amongst the Sonthals should be checked; Government revenue being even sacrificed, if necessary, to save the people. I am acting now in accordance with such view, and shall continue to do so; but I wish clearly to indicate that the ground has been somewhat changed, and the distinct question is now the withdrawal of the indulgence accorded to the Sonthals of home-brewing pachwai."

8. There is much truth in the Commissioner's remarks. And no doubt the benevolent gentlemen who interest themselves in the welfare of the Sonthals are quite right in passing by the question of the spirit-shops and the licensed beer-shops, and in concentrating attention on the larger and more important

question of the home-brewing. Doubtless the evil of the unrestricted consumption of the home-brewed rice-beer is very great among the Sonthals; it probably is not growing greater than it was, but it is as great as ever. If continued, it must affect very injuriously not only the *physique*, but the character and qualities of the race: *inter alia* it must render them irritable and excitable, and difficult to manage in an administrative and political point of view. On higher considerations, however, the evil now asserted by so many competent witnesses to exist, and the existence of which is admitted by the local officers, is such as a civilized Government, having the responsibilities which we have in regard to the people, cannot tolerate, and must seek to mitigate or to prevent, so far as such mitigation or prevention may be possible. There remains the question as to how a remedy may be possible at the present time.

9. The Reverend Missionaries, in the main, recommend the entire prohibition of the home-brewing of rice-beer. The Commissioner and the local officers (with only one exception) earnestly deprecate this: they doubt whether it could be enforced; or if it could, then they apprehend that the enforcement would bring a fresh class of serious evils into existence. I must say at once that looking to the present circumstances of Sonthalia, and to the several administrative measures which are now being carried out there, I am not at all prepared to announce or enforce any such general prohibition. On the other hand, I am not prepared to be content with expressing in general terms a regret that such an evil should exist, and a hope that it may remedy itself during the progress of society. Something practical must be attempted.

10. I think that Government must make it clearly understood, both by the local officers and by the people themselves, that this excessive drinking of home-brewed rice-beer is a very serious evil, which must be remedied sooner or later. The other races of Bengal do not indulge in this vice: neither can the Sonthals be allowed to do so. And the Sonthals must be clearly made to comprehend this. Whatever may be thought or said to the contrary, the Sonthals have a feeling of fear and respect for the commands of the Government. And the knowledge that the Government is fully aware of the prevailing drunkenness, condemns the evil, and purposes to mitigate or to prevent it, so far as possible, will *per se* have some effect. But this is not enough. The Commissioner should instruct the local officers to send for the various headmen of pergunnahs, of circles of villages, and of villages, and to concert with them measures for restricting the excessive consumption of the rice-beer. These men must well know that the Sonthals are the worse cultivators, the worse tenants, the worse woodmen, the worse traders, for all this inebriation. And their co-operation can, more or less, be reckoned upon. *Imprimis*, they must be made to set a good example, and they must understand that hard drinking will be held to be a disqualification for the office of headman of any grade, whether of a village or of a circle of villages. It is probable that in the first instance the Sonthals will be induced to agree to some restriction or diminution of the brewing and the consumption. Much will depend on tact and management on the part of the local officers in obtaining such agreement, and in ensuring its being acted upon to some extent. Full reliance cannot, of course, be placed upon voluntary agreements in such a case as this. And thereafter, when the people shall have become accustomed to a partial restriction carried out with their own co-operation, and when their moral sense shall have been roused to its necessity, it may become quite feasible to render the restriction authoritatively absolute. When the way shall have been paved for it by degrees, the people may hereafter be induced to accept it. Meanwhile, the endeavours, made in consultation and concert with the people themselves, will have practically shown in detail the particular shape which the restriction should ultimately take. I therefore urgently commend this matter to the earnest attention of the Commissioner and his officers.

11. Among other things, it is remarkable that the practice of early marriages, (which is not among the original institutions of the Sonthals) is taking root among these people. And as hard drinking always forms a part of their marriage festivals, the vice of intemperance is being taught to the young, especially to the girls. The admonitions of the local authorities should be directed to some social reform in this respect.

Though the local officers have hardly any police or other district establishments through whose agency reforms can be carried out, yet they have a special advantage in the presence of the Reverend Missionaries, who are constantly touring about among the villages during the cold season. The Missionaries should be asked to be good enough to report to the nearest local officer any extraordinary case of drunkenness which they meet with, especially cases where whole villages are found drunk for days together.

12. Education, if it were effectually to spread among the peasantry, would indirectly do much in the way of prevention. Primary education in Sonthalia, as elsewhere, is to be constantly encouraged. And in every Sonthal school an appropriate ethical treatise must be used, showing the evils of intemperance: so that the coming generation of Sonthals may be brought up in a dread of this vice. The attention of the Director of Public Instruction will be drawn to this point.

13. I trust that the Commissioner and the local officers, perceiving the importance of the matter to the welfare of the Sonthals, will apply themselves to it with real earnestness, and that the result of their endeavours will be the social advancement of an interesting race, whose frankness, courage, and energy have always won for them the respect of Europeans, whose skill, industry, and diligence in reclaiming waste, subduing the jungle, and colonizing distant provinces have rendered them valuable as an element in the power and resources of the country generally.

RICHARD TEMPLE.

RESOLUTION ON THE POLICE ADMINISTRATION OF THE TOWN OF CALCUTTA AND ITS SUBURBS FOR THE YEAR 1875.

POLICE.

Darjeeling, the 29th May 1876.

READ—

The Annual Report on the Police Administration of the town of Calcutta, and its suburbs, for the year 1875.

THE administration of the police in the town and suburbs of Calcutta during the year 1875 was fairly successful. Although the total number of offences reported exceeded that of the previous year by 114 cases, this increase is shown to have occurred in offences of a petty character under local and special laws, while, as regards serious crime, punishable under the Penal Code and cognizable by the police, there was a large decrease of 983 offences. This decrease is specially marked under the head of offences affecting property, which, as well as offences against the person, were fewer than during the previous year. No extensive robbery took place by night either in the European or native quarter of the town throughout the year, nor was a single grave act of violence committed in the public streets. As compared with the previous year also there was a decrease of 1,413 in the number of persons summoned or arrested; and the percentage of persons convicted to those arrested shows that heinous offences were dealt with by the police with more than average success.

2. The following table exhibits the number of cognizable and non-cognizable offences reported in the town and suburbs during the past four years:—

	1872.	1873.	1874.	1875.
Town	38,879	39,169	29,833	30,528
Suburbs	8,659	9,153	7,821	7,240
Total ...	47,538	48,322	37,654	37,768

The improvement which was observed in the statistics of 1874 has been sustained during the year under review.

Distinguishing cognizable from non-cognizable crime, and miscellaneous offences from offences punishable under the Penal Code, the comparative results of police action for the years 1874 and 1875 were as follows:—

		Cognizable.		Non-Cognizable.		Total.
		Penal Code.	Miscellaneous.	Penal Code.	Miscellaneous.	
Cases reported ...	1874 ...	6,706	11,912	5,957	13,079	37,654
	1875 ...	5,723	13,365	6,085	12,595	37,768
Persons summoned or arrested.	1874 ...	6,418	15,618	6,467	9,840	38,343
	1875 ...	5,339	17,201	6,045	8,345	36,930
Persons convicted	1874 ...	3,405	8,312	3,775	9,032	24,524
	1875 ...	2,685	8,448	4,314	7,345	22,792

As during the previous year, the proportion of persons convicted to those who appeared before the courts charged with non-cognizable offences under miscellaneous Acts is favorable, and shows that good discretion was exercised in instituting prosecutions under those Acts; but the Lieutenant-Governor regrets to observe that the proportion of persons acquitted to those shown to have been arrested by the police in miscellaneous cognizable offences still continues to be very large, and is much in excess of the previous year. This is becoming a serious matter, regarding which the Lieutenant-Governor will presently make further remark.

3. The total number of cases and persons dealt with in the courts of the Police Magistrates of Calcutta, and the results, are abstracted in the following table:—

	Number of cases instituted.	Total number of persons put on trial.	Acquitted.	Convicted.	Committed.
Northern Division	5,729	7,451	1,501	5,821	105
Southern „	8,071	7,616	662	6,953	82
Total ...	13,800	15,067	2,163	12,774	187

Comparing these figures with those of the previous year, they show an increase of 1,530 cases, which has chiefly occurred in the Southern Division, with an increase of 58 only in the number of persons brought to trial. The results also are more favorable, as 86 per cent. of the persons placed on trial were either convicted or committed as against 83 per cent. in 1874.

4. *Cognizable crime. Town.*—In Calcutta serious offences, both against person and property, have fallen from 222 to 179; but there has been an increase in the total number of cognizable offences which were accepted as true, the number being 14,894 as against 13,561 in 1874. The case of trading in defaced Government stamps was one of considerable importance. The Lieutenant-Governor observes with satisfaction that the offender was convicted, and that Sir Stuart Hogg is able to bear favorable testimony to the zeal and ability with which Mr. J. B. Roberts and Superintendent Lamb labored to bring the offender to justice. Only one petty case of rioting was reported. Of offences against the person, 279 cases were reported as against 281. There were three murders against two in 1874 and seven in 1873. Convictions were obtained in two cases: in the third, the difficulties in the way of detection were almost insuperable. The Lieutenant-Governor would have been glad to have received some explanation of the large increase (nearly 50 per cent.) in cases of hurt, as 123 cases were reported under this head in 1875 as against 87 in 1874. Offences against property, on the other hand, decreased in number from 3,705 to 3,055. Burglaries and attempts at burglary show satisfactory decrease from 170 to 103. This result, the Lieutenant-Governor notices, has been attributed by Mr. Dickens, Magistrate of the Northern Division, to the vigilance of the police employed on night patrol. The action of the police also in these cases was successful, convictions having been obtained in 30 cases. There is perhaps no class of offence which in all countries presents such difficulties to successful detection as burglary; and the Lieutenant-Governor considers that the Calcutta Police have shown creditable results both in the prevention and detection of this crime. Convictions were obtained in 32 per cent. of the theft cases reported, and property valued at Rs. 35,410 was recovered out of a total value of Rs. 93,686 said to have been stolen. The Lieutenant-Governor concurs with the Commissioner in absolving the police from blame for failure to detect the majority of thefts by servants. The practice of hiring utter strangers as servants, and giving them access to the valuables of the house, is understood to be too prevalent in Calcutta; and the police cannot be held answerable for all the results which ensue. It is noticeable, however, that not a single theft of importance was reported to have occurred in houses occupied by Europeans.

5. Turning to the heading of miscellaneous cognizable offences, the Lieutenant-Governor observes that an increase of 1,453 cases has been attended by an increase of 136 only in the number of convictions obtained. This doubly unsatisfactory result is generally attributable to three causes: (1) the continuance of the practice of summary arrest by the police for miscellaneous offences in the streets; (2) the serious indiscretion evidenced by the results of the action of the police in arresting persons suspected of possessing stolen property; and (3) the very large number of persons arrested under the Contagious Diseases' Act who were subsequently discharged by the Deputy Commissioner. The first subject was prominently noticed in the Resolution on the

report for 1874; and the Lieutenant-Governor must therefore express his dissatisfaction at the results, as the number of persons thus arrested has only decreased from 4,675 in 1874 to 4,184 in 1875, and of these no less than 1,135 were discharged without trial. The Lieutenant-Governor is willing to suppose that in most of these cases the commission of the offence was established, and that the offender was discharged with a warning by the Deputy Commissioner; but a short period of police custody, and appearance before the Deputy Commissioner, is not a recognized punishment under the law; and it is evident that a very large number of persons were needlessly arrested The Lieutenant-Governor has recently had occasion to point out the danger of hardship to individuals which this tendency to indiscriminate arrest involves, and he must now insist on the observance of the rule laid down in the Resolution on the report for 1874, viz. that the police should be permitted to resort to arrest in these petty cases only in instances where the offence is committed in their view, and the name of the offender is unknown and cannot be ascertained. The great majority of these cases should therefore be entered under non-cognizable crime in future reports. Of 563 persons arrested in the town with property suspected to be stolen, all were subsequently discharged by the police. In no case, apparently, were sufficient grounds found to exist for placing any of the persons thus arrested before the Magistrate. These results are far from creditable to the police. They have not been explained by the Commissioner, but demand his immediate attention; for such a general and injudicious exercise of the powers of arrest must have been attended by much individual hardship to innocent persons, and is calculated to render the police an object of apprehension and distrust to the public. Again, of 4,954 persons arrested under the Contagious Diseases' Act, no less than 4,749 were discharged by the Deputy Commissioner. In reviewing the report on the working of this Act during the past year, the necessity which exists for more vigorous action in dealing with established offences against the law has been already pointed out. The Lieutenant-Governor is confident that, if flagrant offenders were more frequently prosecuted and punished by the Magistrates, there would be fewer offences and fewer occasions for arrest. Sir Richard Temple trusts that the Commissioner will be able to show a marked diminution of unnecessary arrests under each of the heads above noticed in the report of the current year.

6. *Cognizable crime. Suburbs.*—The returns show a large and satisfactory decrease of crime in the suburbs, which is noticeable under each head except that of minor offences against the person. In all, 2,845 cognizable cases only were accepted as true against 3,179 in 1874; offences punishable under the Penal Code decreased from 1,685 to 1,259; while the number of persons convicted rose from 757 to 804. In burglary cases, however, the action of the police was far from successful. Only 26 cases were detected out of 120 reported, and only property of the value of Rs. 223 was recovered out of the total value of Rs. 4,777 reported to have been stolen. In theft cases the results were better, success attending the investigation of 314 out of 783 true cases. The result of the enquiry in the case of the theft of the jewels of His Highness the Maharajah of Travancore was particularly creditable, and the action of Inspector Kalinath Bose has already met with an appropriate reward under the orders of the Supreme Government. In the suburbs, as in the town, the statistics of miscellaneous cognizable crime again point to injudicious or ignorant action on the part of the police, more than half of the total number of persons arrested having been discharged without trial.

7. *Non-cognizable crime.*—Reported crime under this denomination shows a decrease in the number of cases both in the town and in the suburbs. The only case that calls for remark is that of the swindler Dundas, who was cleverly followed up by Inspector Reid, and arrested in Bhopal.

8. *Shipping Act.*—The Lieutenant-Governor observes with much concern that convictions under this Act rose from 247 in 1874 to 319 in 1875. As the matter is obviously one of increasing importance, the Lieutenant-Governor would have been glad to have received any remarks which the Commissioner of Police or the Magistrate of the Southern Division might have had to offer on the subject, as well as some details of the cases, and explanations, if any,

of the increase. The question of the survey of cargo vessels, which is intimately connected with this subject, and was referred to in the Resolution of the previous year, is, it is understood, included in a measure now under the consideration of the Imperial Legislature.

9. *Arms' Act.*—The Lieutenant-Governor accepts Sir Stuart Hogg's assurance that the rules in force under the Arms' Act have worked well, securing, on the one hand, complete control over all transactions connected with the trade in arms, and, on the other, causing no inconvenience to such trade in its legitimate branches. The figures given show a moderate increase of all fire-arms as compared with 1874, but a large decrease as compared with the importations of the two previous years. There is considerable weight in the observations of the Commissioner regarding the seemingly imperfect gauge which the inland transport figures give of the actual quantity of arms and ammunition imported into the provinces beyond the north-western frontier of Bengal. These figures, as well as the Commissioner's remarks on the subject, will be duly brought to the notice of the Government of India.

10. *Fires.*—It is satisfactory to note that no extensively destructive fire broke out during the year. It is observed that 11 out of the 16 fires which occurred in the suburbs happened during January and February. In only five cases, however, did the conflagration last beyond one hour; and as they were all fairly distributed over the different sections, there seems to be no reason to suppose that their origin was other than accidental.

11. *Strength, cost, constitution, &c., of the force.*—No change was made in the strength or cost of the Town or River Police during the year. In the suburbs reductions were made in the salaries of officers, and in the number of constables, under a scheme previously approved by Government. The number of dismissals continues to show a satisfactory decrease. On the whole, the conduct of the force, with the exception of the European sergeants and constables, appears to have improved. The Lieutenant-Governor, however, regrets to observe that it was found necessary to fine so many as 507 constables. He would prefer to see offenders subjected to extra drill, or to some other punishment not involving loss of stipend. The Lieutenant-Governor is glad to observe that some advance continues to be made in raising the number of Bengali constables in the force. The superiority of up-country constables over Bengalis for purposes of watch and ward is undoubted; but the attempt to procure intelligent Bengali recruits, who will submit to discipline, is of vital importance to increasing the popularity as well as the efficiency of the force, and the Lieutenant-Governor desires that it may not be relaxed.

12. *Old offenders.*—The registers of previous convictions appear to have been compiled with care, and the movements of noted bad characters have been attentively watched. Twenty-four habitual thieves were committed to the High Court, and severely punished. This, however, indicates but little improvement in the proceedings of the Magistrates in dealing with such offenders. With reference to the remarks contained in the Resolution of the previous year, the Lieutenant-Governor regrets to observe that no less than 259 old offenders were summarily convicted by the Magistrates, and that of these no less than 48 were thieves or burglars who had been previously convicted four times or more. In the absence of any explanation on this point, the Lieutenant-Governor is unable to say whether the police are to blame for not proving former convictions before the Magistrates, or the Magistrates for not committing the offenders to the higher tribunal. His Honor desires that a special report may be submitted on this subject, with particular reference to the remarks recorded on this head in the Resolution on the last report.

13. As already remarked, the results of the past year are on the whole satisfactory, and indicate fair progress and improvement in the prevention and detection of heinous crime; the lower grades of the police, however, have much to learn. In dealing with them, the issue of general orders, which necessarily leaves much to a discretion which they are not in a position to exercise, must be avoided. They are fully capable, however, of receiving all the simple instruction which is necessary, and means must be adopted to make them understand their legitimate duties and powers, and the responsibilities which they incur by exceeding these powers in making unnecessary and

indiscriminate arrests. It so often happens that orders, in themselves good, are spoilt by the thoughtless execution of them by individual policemen; and the fault is too often attributable to their want of respect and consideration for the people with whom they come in contact. The Lieutenant-Governor cannot but think that this fault would be mitigated at least, perhaps even disappear, if the superior officers of the police would carefully instruct their men in regard to this.

14. Sir Richard Temple will not let this opportunity pass of again impressing on the Metropolitan Police generally (what he has so often urged upon them in particular cases or on special occasions) the importance of exercising their functions in a considerate manner towards the people. The urban population is not troublesome nor unmanageable; on the contrary, it is quiet, orderly, and law-abiding. There is not therefore any real excuse for off-hand rudeness, roughness, or violent demeanour on the part of the police. There have, the Lieutenant-Governor is sorry to observe, been recently two somewhat flagrant cases in point, in one of which the police were quite wrong, while in the other case the occurrences originated in a somewhat uncalled for and questionable proceeding on the part of a policeman. The Lieutenant-Governor earnestly hopes that he may hear no more of such cases occuring; if he does, however, he will be obliged to make an example, if the affair is traceable to a mistake on the part of the police. He is glad to think, however, that on one important occasion, namely the visit of His Royal Highness the Prince of Wales, the general bearing of the police towards the crowds and multitudes was tolerably conciliatory and considerate. He hopes that this judicious behaviour will be at least maintained on all occasions habitually, and perhaps even carried further still. It is unsatisfactory to see the people pushed and knocked about unnecessarily.

15. During the year the Metropolitan Police specially distinguished themselves in the varied arrangements which had to be made during the visit of His Royal Highness the Prince of Wales to Calcutta. The good service rendered by them on that occasion has been separately acknowledged.

16. In conclusion, the Lieutenant-Governor has to express his thanks to Sir Stuart Hogg, and to Mr. Lambert, the Deputy Commissioner, for the zeal and ability with which they have supervised the administration of the police in the town and suburbs during the past year. The Lieutenant-Governor also desires that an expression of his approbation may be conveyed to the subordinate officers who have discharged their duties in an efficient manner.

By order of the Lieutenant-Governor of Bengal,

R. L. MANGLES,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION REGARDING THE ESTABLISHMENT OF A HIGH SCHOOL AT CHITTAGONG.

GENERAL DEPARTMENT—EDUCATION—No. 1514.

Calcutta, the 26th May 1876.

READ—

The Minute of the Lieutenant-Governor of Bengal, dated the 30th August 1875, on additional colleges and high schools in the Lower Provinces.

A letter from the Commissioner of Chittagong, No. 74, dated the 16th March 1876, reporting the receipt of a donation of Rs. 10,000, given by Baboo Goluck Chunder Chowdhry a zemindar of the Chittagong district, for the establishment of a high school at Chittagong, and for the furtherance of other works of public utility.

A letter from the Director of Public Instruction, No. 2457, dated the 9th May 1876, reporting upon the proposals made for the expenditure of Baboo Goluck Chunder Chowdhry's donation.

IN the Minute of the 30th August 1875, the Lieutenant-Governor reviewed the existing provision for the highest kind of education in the provinces under the Government of Bengal, and explained to what extent, and in what manner, he was prepared to assist the foundation of high schools and

colleges in those localities in which such institutions appear to be most urgently required. Among other suggestions it was remarked, that some time ago an attempt had been made to raise the zillah school at Chittagong into a high school, but that the experiment had been unsuccessful. In view of the fact that at present students of Chittagong, who desire to go through the course of study for an University degree, must either cross the sea to Calcutta, or must travel up the river to Dacca, the Lieutenant-Governor proposed that another trial should be made to raise the zillah to the status of a high school, at a cost of Rs. 7,500 for the two years, on condition that six students were forthcoming for the first year class, and that one-third of the cost, that is Rs. 2,500, were contributed by fees and private subscriptions. If these conditions were fulfilled, the Lieutenant-Governor expressed his willingness to grant the remaining sum of Rs. 5,000 from Government funds.

2. The Commissioner of Chittagong has now reported that Baboo Goluck Chunder Chowdhry, a leading zemindar of the Chittagong district, has placed at the disposal of the Magistrate, the munificent donation of Rs. 10,000, of which he desires that Rs. 2,500 may be devoted to the foundation of a high school at Chittagong, in accordance with the scheme proposed by the Lieutenant-Governor, and the remainder to the carrying out of other educational and sanitary improvements in the district of Chittagong.

3. The Lieutenant-Governor has much pleasure in accepting the allotment for the establishment of the high school, and he desires to return his cordial thanks to the benevolent donor, and to express a hope that the gift may fructify for the lasting good of the Chittagong district. The Director of Public Instruction will now be requested to make the necessary arrangements, in communication with the Commissioner and the Circle Inspector, for opening a first year class at the Chittagong zillah school, which will henceforth be known as the Chittagong high school. It would be the Lieutenant-Governor's wish that Baboo Goluck Chunder Chowdhry should be consulted as to the teachers to be appointed to the high school. The actual opening of the class must, according to the conditions laid down in the Minute, be contingent upon there being at least six boys to enter it: but the Lieutenant-Governor trusts that there will be no difficulty in obtaining this number of students from the schools in the Chittagong division, which teach up to the standard of the University Entrance Examination.

4. As regards the remaining sum of Rs. 7,500, the Lieutenant-Governor recognizes the usefulness of the objects to which the Magistrate has recommended that the money should be appropriated, and it would be Sir Richard Temple's desire to see that the wishes of the liberal donor should be fully carried out. But it has been suggested to the Lieutenant-Governor that this balance, or some considerable part of it, would be most usefully expended in the endowment of scholarships in the middle and intermediate schools of the district. These scholarships would bear the founder's name, and would be a permanent monument of his liberality.

5. The Lieutenant-Governor is inclined to think that this suggestion deserves consideration, as there is no doubt that the state of the middle schools in Chittagong is not altogether satisfactory, and might be much improved if assistance and encouragement were given to these institutions. The Lieutenant-Governor would accordingly request the Commissioner to draw up, in communication with the Director of Public Instruction, the details of a plan by which this balance could be made available for the endowment of such scholarships as have been referred to above; and then to ascertain the wishes of Baboo Goluck Chunder Chowdhry upon this particular point. The Lieutenant-Governor does not doubt that the Baboo has the best interests of the district at heart, and that he will be ready to assent to any scheme by which it can be shewn that the greatest benefit will be reaped from the donation he has so generously made.

By order of the Lieutenant-Governor of Bengal,

SCHOOLS FOR EUROPEANS AND EAST INDIANS IN THE MOFUSSIL.

GENERAL DEPARTMENT—EDUCATION—No. 1529.

Calcutta, the 29th May 1867.

READ—

The Minute by the Lieutenant-Governor of Bengal, dated the 18th May 1875, on the education of the poorer classes of Europeans and East Indians in the interior of the Provinces under the Government of Bengal.

Circular Order of this Government in the General Department (Education), dated the 21st February 1876, calling on the Commissioners of Divisions to report what action had been taken to carry out the orders conveyed in the above Minute.

The replies of the Divisional Commissioners to the above Circular.

A letter No. 410, dated the 8th April 1876, from the Venerable the Archdeacon of Calcutta, enclosing a report on the educational requirements of European and East Indian children in the stations of Dacca, Hooghly, and Cuttack.

As a year has now elapsed since the issue of the Minute of the 18th May 1875, the Lieutenant-Governor desires to take this opportunity of explaining what has been done to carry out the orders of the Minute, what proposals are still under consideration, and in what localities further assistance appears to be most urgently required.

2. The additional aid which has been given during the year to advance European education in the mofussil has been as follows:—

In the Rajshahye Division, the Government grant to St. Paul's School at Darjeeling has been raised from Rs. 238 to Rs. 400 per month, and an arrangement has been made with the Committee of the school by which the school fees have been reduced from Rs. 40 to Rs. 25, so as to bring the advantages of this Institution within the reach of a much larger class of the community. The Lieutenant-Governor is glad to learn that the numbers of the school had already risen in January last from 37 to 60, and were still increasing. It is expected that the opening of the Northern Bengal Railway will add considerably to the number of pupils in the school.

A grant of Rs. 200 per month has also been made to a school at Darjeeling for European girls, which has been established by the Diocesan Board of Education.

3. In the Presidency Division a grant of Rs. 30 per month has been made to a new school for boys at Barrackpore.

A grant of Rs. 30 per month has also been made to Mrs. Walters' School (a mixed school for boys and girls) at Rampore Haut in the district of Moorshedabad.

4. In the Burdwan Division a new school has been established at Howrah by the exertions of the Revd. D. B. Morris, the Chaplain of the station. To this school the Government has made a donation of Rs. 1,000 towards meeting preliminary expenses, and has also given a school-house rent free, and has made a grant of Rs. 30 per month to the school.

5. In the Patna Division a grant of Rs. 89 per month has been made to the school at Buxar in Shahabad. A grant of Rs. 50 per month has also been made to the Dinapore school.

6. In the Bhagulpore Division the grant to St. Mary's School at Jamalpore in the Monghyr district has been raised from Rs. 80 to Rs. 185 per month.

7. It is to be understood that these donations and grants have been made in addition to the amount previously devoted to European education in the mofussil, and also that, in this review, no mention is made of the measures which have been taken in Calcutta, as the question of the requirements of European children in Calcutta has formed the subject of a separate Minute.

8. It is next to be considered what further assistance is proposed or required to be given. Upon this point the Government has lately been favoured with a letter, which is appended to this Resolution, from the Venerable the Archdeacon of Calcutta, setting forth the educational necessities of the stations of Dacca, Hooghly, and Cuttack. The Lieutenant-Governor desires to return his cordial thanks to Archdeacon Baly for his careful and interesting report.

9. When the Venerable Archdeacon visited Dacca, he found two schools there for European children—one kept by Miss Cowan, the other by Mr. and Mrs. Vyse. The former of these was under the Diocesan Board of Education and had no grant from Government. It was closed at the end of February last, having been found to be not suitably established: apparently the fees were fixed at too high a sum. Mr. Vyse's school has 54 pupils, and receives a grant from Government of Rs. 90 per month. Further experience is required to show whether this school is likely to be permanently successful: at present it is doing much useful work, and there appears to be a strong local feeling against the establishment of any rival school. Out of 115 children of school-going age in Dacca, Archdeacon Baly found 85 at school and 30 not at school. Under these circumstances, the requirements of Dacca do not appear to be pressing; and the Lieutenant-Governor is disposed to assent to the recommendation of the Venerable Archdeacon that a further trial should be allowed to Mr. Vyse's school, and that Government should at present make no attempt to establish a second school at Dacca.

10. With Hooghly, Archdeacon Baly has grouped Chinsurah and Chandernagore, and he found altogether 68 children of school-going age in these three stations. But the statistics are confessedly incomplete, as the Roman Catholic children at Chandernagore have been omitted, and no account is taken of the convent school at that station, though it is probably attended by some Protestant children. It is also open to question whether the British Government is under any obligation to assist education in the settlement of Chandernagore. But, taking Hooghly and Chinsurah together, it appears that they contain 39 children of a school-going age, and that there is only one school attended by 11 young children, some of whom are Native Christians. The Archdeacon recommends the reconstitution of this school, and a grant of Rs. 50 per month to it from Government.

11. It is observed that the Archdeacon has not noticed the Hooghly College and Collegiate School, which appear by the latest returns to contain several Christian students, though whether these are Native Christians or Europeans is not stated. The return furnished by the Commissioner gives 18 as the number of children at school in Hooghly and Chinsurah, and 37 as the number not at school.

12. Whichever of these returns may be accepted as correct, the Lieutenant-Governor is of opinion that there are good grounds for reorganizing the school in the manner suggested by the Venerable Archdeacon, and he desires that the necessary steps for this purpose may be at once taken by the Director of Public Instruction. The Hooghly School Committee should be invited to make the necessary grant of Rs. 50; but if their funds are all appropriated, the amount can be provided for the present year from general educational savings.

13. The Venerable Archdeacon visited Cuttack in January 1876, and he has furnished a detailed and valuable report on the condition of European education there. He found the number of children of school-going age to be 233, of whom only 62 were at school. But these figures include 68 children in the 41st Madras Native Infantry, and it would appear that the great majority at least of these must be Native Christians, and not Europeans or East Indians. The regiment, moreover, has lately been removed from the station. However, even if these children are excluded, there remain 103 children of school-going years who do not attend any school. Of these, 34 are of a higher class, and require a good preparatory school, and 69 want a good local school in which they might complete their education.

14. There is a school, known as the Cuttack Christian School, under the management of a Committee, of which the Chaplain is Secretary, and conducted by a master and mistress. It receives a Government grant of Rs. 64 a month, and contains 25 children. Archdeacon Baly desires to reorganize this school in the form of a good boarding school, with a Government capitation grant of Rs. 2-8 per head, estimated to amount to Rs. 225 per month. He hopes to get 80 pupils, paying 1 rupee each, of whom 10 will be boarders, and will pay a further sum of Rs. 20 each for their board. He would raise the salaries of the master and mistress, and would employ an assistant master and assistant mistress in addition to the present staff.

15. The scheme, in its main features, is similar to one which was propounded last year by the Commissioner of the Division, though it involves a smaller expense to Government. The Commissioner's proposals were eventually disallowed, on the ground that the estimated local receipts were insufficient to justify the grant of so large a sum as was asked for. And, from a reference to the correspondence which then passed between the local authorities and the Government, it appears probable that Archdeacon Baly has somewhat under-estimated the expenditure which will be required to bring the scheme into operation. However this may be, the Lieutenant-Governor acknowledges the necessity for some further effort being made to improve European education at Cuttack, and he is willing to give the capitation grant asked for of Rs. 2-8 per head, and to grant an equivalent from public funds of all moneys subscribed for building. The Director of Public Instruction will be requested, in communication with the Committee of the school, to arrange for the re-constitution of the school in the manner proposed in the report of the Venerable Archdeacon. It may be hoped that the Diocesan Board will be able to make a grant in assistance of this useful project.

16. Of the remaining proposals which are still under the consideration of Government, one relates to the establishment at Darjeeling of a lower-class boarding school for children whose parents are unable to afford the expense of their education at St. Paul's School. The need for such a school is not of immediate urgency, and further experience is required to show how far the recent reduction of the fees at St. Paul's School will render it unnecessary to establish a lower-class institution. The Lieutenant-Governor will give this proposal his further consideration hereafter.

17. A plan has also been suggested by the Inspector of Schools, Behar Circle, for the establishment at Jamalpore in the Monghyr district of a large central boarding-school for Behar, to which the other schools in that province might serve as feeders. Mr. Croft hopes that the East Indian Railway Company would co-operate in the formation of such a school, and he estimates that the cost to Government would be Rs. 900 per month, including the grant of Rs. 185 now given to the present school. Looking to the returns of the number of European children of school-going age in Behar, the Lieutenant-Governor is compelled to feel some doubt whether the school has not been designed on a larger scale than is adapted to the actual requirements of the province. He therefore thinks it desirable that the aid of Government should be afforded in the form of a capitation grant rather than of a fixed contribution; and he will be prepared to give a capitation grant of Rs. 2-8 per head to any school which may be founded at Jamalpore on the plan proposed by the Inspector. The Director of Public Instruction will be requested to ascertain whether the Railway Company will be willing to co-operate in the establishment of this school.

18. The replies of the several Commissioners to the Circular of the 21st February 1876 appear to show that no urgent want for increased school accommodation for European children is felt in other parts of the Lower Provinces than those which have already been referred to; but the Lieutenant-Governor will be glad to receive the further report promised by the Venerable the Archdeacon on the schools at Khagoul, Assensole, Dinapore, Patna, and Raneegunge.

19. In concluding this review, the Lieutenant-Governor desires to remark that the results already attained, though falling short of what he had hoped for when recording his Minute of the 18th May 1875, do yet show some progress in the desired direction, and the orders embodied in the present Resolution will, it may be hoped, do something more to supply the necessities which are felt Sir Richard Temple desires to reiterate the determination which he has already expressed, to give all the aid he can to every sound and practical scheme which may be submitted for the consideration of Government.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Offg. Secy. to the Govt. of Bengal.

No. 410, dated Calcutta, the 8th April 1876.

From—The VEN'BLE J. BALY, Archdeacon of Calcutta,

To—The Secretary to the Government of Bengal, General Dept.

I HAVE the honor to submit, for the consideration of the Government of Bengal, a report as to the education requirements of European and Eurasian children in the stations of Cuttack, Dacca, Chinsurah (Hooghly), and Chandernagore. Schools, or rather the improvement of existing schools, are much needed in all these stations, as in none of them is there a school capable of imparting to boys of the middle classes such an education as will enable them to get their own living on a level with their parents' class.

Khagaul, Assensole, Dinapore, Patna, Raneegunge, I was hindered from visiting by the unexpected death of the Bishop of Calcutta; but I hope at some future time to submit to His Honor the Lieutenant-Governor a report on the educational requirements and their supply at these places.

Bengal. European education reports for Cuttack, Dacca, Chinsurah, and Hooghly with Chandernagore.

Cuttack.—Visited 17th January 1876—

I.—Existing schools—

A. Cuttack Christian School for boys and girls (European and Eurasian).

B. Roman Catholic School for boys (European, Eurasian, and Native); girls, European and Eurasian only.

C. Baptist Mission School for natives; instruction given in Oorya.

D. Government High School for natives.

II.—A. Cuttack Christian School—Master, Mr. Browne; Mistress, Mrs. Browne.

Number of pupils on roll—

Boys	16	
Girls	9	
Total ...	25	All Protestant.

(1) *Finance of school*—

Receipts.	Rs.	Expenditure.	Rs.	A.
Government grants ...	64	Salary of Master ...	75	0
Average of fees ...	15	Ditto Mistress ...	20	0
Local subscription ...	55	Rent of school-house ...	25	0
		Servants	12	8
Total ...	134	Total ...	132	8

The scale of fees ranges from 4 annas to Re. 1.

As the Master and Mistress live in the school-house and use the servants, their united salaries are really Rs. 132-8.

(2) *Character of school*—

Subjects taught are reading, writing, arithmetic, geography, English grammar, dictation, religious knowledge.

I examined the schools, January 19th and 20th. There were three classes, viz.—

1st, consisting of 2, a boy and girl, 14 years of age.

2nd, ditto 10 boys and girls from 8 to 12; but one girl, the most ignorant, aged 15.

3rd, ditto 13 ditto ditto 6 to 7 years of age.

First Class.—Reading, fair; dictation, good; meanings of English words, fair; writing, poor; arithmetic, boy professed vulgar fractions, but could only work compound division—girl worked a sum in compound addition with only one mistake; geography, very bad; Gospel history, fair; catechism, unknown—only one boy could repeat the Creed and knew the number of the Commandments.

Second Class.—Reading, words of two syllables read with fair correctness, but standard below the level of their age; writing, bad; dictation, fair for elder half of the class, very bad for the younger; geography, almost unknown; arithmetic, not beyond the multiplication tables, and that imperfectly known by half the class; Gospel history, fair; catechism, none; with two or three exceptions, all could repeat the Lord's Prayer imperfectly and unintelligently, but none could say the "Grace of our Lord."

Third Class.—Just learning alphabet and to spell out words of one syllable.

B. Roman Catholic School, has 10 boys, 19 girls; total 29. Not examined by me; but judging from one or two specimens of its pupils, the education given is lower even than in school A. The children are very poor.

C. Baptist Mission School, has only *three* Eurasian boys. A good school for native boys; but as instruction is given in Oorya, unsuited for Europeans.

D. Government High School, was not examined by me. I could only hear of one European boy, the son of a Portuguese or East Indian, attending.

III.—Number of European and Eurasian children of school-going years in Cuttack and neighbouring district

1. Children attending schools—

	Boys.	Girls.	Total.

2. Regimental children of school-going years in the 41st Madras Native Infantry, whose school was recently closed 46 22 68

N.B.—This regiment has now left the station.

3. Children (non-regimental) of a higher class, likely to use a good school in Cuttack only as preparatory, *i.e.*, to ten or twelve years, *now attending no school* . 15 19 34

4. Requiring a good local school in which their education could be completed, *now attending no school* ... 37 32 69

Abstract of the above, showing the number of school-going and non-school-going children in Cuttack and district.

	Boys.	Girls.	Total.
Total of school-going children	33	29	62
Total of non-school-going children—			
Regimental	46	22	68
Non-regimental	52	51	103
Total of all children of school-going years in Cuttack and district	131	102	233

i. e. there are, or were in January 1876, 203 in Cuttack of school-going years, *of whom* 171 *attend no school.*

NOTE.

(1) I was most careful in ascertaining the correctness of the data as to the number of children, collecting several returns, making enquiries from several independent sources, and calling on a large number of the parents. I have a nominal list of all the children, and the profession and religion of the parents, so that I am sure that the numbers are correctly stated; the only point on which I am not quite certain is whether some of the regimental children (of bandsmen and drummers), who are principally Roman Catholic, did not attend the Roman Catholic school when their own regimental school was closed.

(2) Since my visit Mr. and Mrs. Browne have left the school, and Mr. and Mrs. Harcourt, formerly at Howrah, have replaced them.

(3) There can be no doubt that there should be a good school for Europeans at Cuttack, of the same character as the Calcutta Martinière or the Allahabad High School. There is *no European school in the whole province*; so that a Government school with boarding accommodation would probably receive other children than those in Cuttack and the immediate district. Cuttack is also isolated with a large number of children of its own, and the journey from Cuttack to Calcutta is both difficult and expensive. The result of this is shown in the fact that only 4 out of 233 children are sent to boarding-schools.

(4) The cost of a good school I should estimate at Rs. 500, on this scale of receipt and expenditure:—

Receipts.	Rs.	*Expenditure.*	Rs.
Eighty pupils, at Re. 1 each ...	80	Head-Master	120
Local contributions ...	60	Assistant Master	50
Ten boarders, at Rs. 20 each ...	200	Mistress	80
Government grant, at Rs. 2-8 per head	225	Assistant Mistress	30
		Rent	60
		Cost of boarders	100
		Servants and contingencies ...	50
Total ...	565	Total ...	490

I do not think that the school should at once be started on this scale, but if well administered, that it would eventually attain to it. The residents at Cuttack expressed themselves as most desirous of establishing a good school for Europeans, and willing to contribute towards it; but as a large number of the children are very poor, and the average receipts from fees cannot fairly be reckoned at more than a rupee per head, the liberal grant-in-aid will be necessary for the maintenance of the school.

The purchase or building of a house for a school is decidedly preferable to renting one, and I have recommended it to the attention of the School Committee. This would, however, necessitate special local contributions and grants-in-aid for building.

Attending no school	...	...	...	30
Total of children of school-going years at Dacca			...	115

III.—Character of existing European schools—

A. "Miss Cowan's."

(1) Miss Cowan is sole teacher. Number of pupils 14, viz. 8 boys and 6 girls. Ages of 12 pupils vary between 4 and 7. Two girls, much neglected, are 11 years old.

(2) *Finance.*—This school had hitherto no grant-in-aid from Government, but was maintained by fees and the grant given by the Diocesan Board for first start, of Rs. 1,000. When this grant was exhausted the school could no longer be carried on, and ceased to exist on 29th February. The following shows the necessity of this:—

Actual monthly expenditure.	Rs.	*Actual monthly receipts.*	Rs.
Salary of Miss Cowan ...	150	Fees, at Rs 5 per head, and 6 if using school conveyance	75
Rent	60		
Servant	7		
Keep of ponies for bringing children to school ...	20	Monthly deficit ...	162
Total ...	237	Total ...	237

Even with such a grant-in-aid from Government, it would still be impossible to carry on the school; for estimating this at Rs. 2-8 per head, it would amount, for 14 children, only to Rs. 35, and leave a monthly deficit still of Rs 127. The committee had no other alternative than to close it.

3. *Character of instruction given.*—Two or three can read fairly well words of one or two syllables, the rest spell words of one syllable. Writing very rudimentary, not going beyond single letters; arithmetic and every thing else have still to be learnt. It is, in fact, an infant school. This is not Miss Cowan's fault, who is a good and experienced teacher, but results naturally from the children being so very young and so short a time under instruction.

I quite agree with the remarks of Mr. Robson, Officiating Inspector of Schools, Eastern Circle, in the report of his examination of the school, made 9th December 1875.

Two reasons would have always prevented this school from meeting the educational requirements of Dacca—

1*st.*—It was under a mistress, whereas there are 61 boys in Dacca of school-going years, ranging from 5 to 17 years of age.

2*nd.*—The charge of Rs. 5 per head, Rs. 6 if using school conveyance, would prohibit all, except some 15 or 20 out 115 children of school-going years in Dacca.

B. Mr. Vyse's School staff ... { Head-Master, Mr. Vyse (Eurasian).
Mistress Mrs. Vyse (Native Christian speaking English).
Two Assistant Mistresses (Eurasians).

Pupils on school-roll—26 boys, 28 girls; total 54. Average attendance, 36.—The income of the school is from fees, an average of about Rs. 80; from Government, grant-in-aid of

Rs. 2-8 per head on 86 children, Rs. 90—in all Rs. 170. On this Mr. Vyse pays Rs. 40 rent, and the salaries of two assistants; so that his net profits must be very small indeed, and the maintenance of the school, as at present carried on, must be regarded as extremely precarious.

Character of instruction given.—Two or three boys, the first class, read fluently and well, spelt correctly, and could explain the meanings of words moderately well. The second class read and spelt fairly, but not on a level with their average age. In arithmetic only one boy in the school did a sum in rule of three: incorrectly. Two or three only could work compound division; the rest, if they knew any thing beyond their tables, worked no higher than simple multiplication. English grammar, has been just commenced, and is carefully taught. Writing is not good; Gospel history, very slight; catechism, none (the school not being Church of England). All the elder pupils knew the Lord's Prayer; but some of the Armenian children could only repeat it in their own language. There are 10 boys above ten years of age, and 16 below.

The girls' school is generally on a lower level as regards instruction than the boys'; but Mrs. Vyse is a careful and diligent teacher. There are 10 girls above ten years of age, 18 below.

This school has only been 18 months in existence, and its constitution, as regards its teaching staff and the scale of fees (averaging about Rs. 1-8 per head), is much more suited to the wants of Dacca; and there is a very strong feeling among all classes at Dacca that another school should not be set up in opposition to this, but that Mr. Vyse should be allowed time to prove how far he can make it a success.

My own opinion is that this event is not likely—

1.—Because Mr. and Mrs. Vyse, though very diligent, and taking great interest in their work, are not exactly suited to have the charge of such an European school as Dacca really requires, not only for its own children, but for those in the neighbouring district.

2.—I do not think that they can make it pay, and it must eventually collapse for want of means.

I would, however, recommend that further trial should be allowed to this school, and that no other school should be established here until experience shows that it is manifestly inadequate to the wants of the place.

NOTE.—I saw almost all the children in Dacca, and am sure of the accuracy of the above statistics.

Chinsurah, Hooghly, and Chandernagore.

Number of European children, Protestant and Roman Catholic, at Chinsurah and Hooghly of school-going years—boys 23, girls 16; total 39.

Number of Protestant European children at Chandernagore of school-going years—boys 19, girls 10; total 29.

Total for Chinsurah, Hooghly, and Chandernagore—boys 42, girls 26; total 68.

These returns were sent me by Sir W. Herschel, Collector, who, I presume, omitted Roman Catholics from the Chandernagore list, as there is a convent school at that place.

The only European school for Chinsurah, Hooghly, and Chandernagore is a very small one maintained by a grant of Rs. 50, handed down by the old Dutch Government, and the very trifling amount of fees which the mistress is able to collect. Her name is Miss. Babonau. When I visited Chinsurah in January last she had only 11 pupils, all young, about 7 to 9 years of age. Several of these were the children of native Christians, omitted in the list given above. Her receipts from fees were only Rs. 3 per mensem for four pupils; the rest paid nothing.

The children at these three stations are generally very poor, their parents being either pensioners or clerks on small salaries: the few who can afford it send their children to the Calcutta schools; but a large proportion receive no education at all, or next to none. A* good school is urgently required; and if the existing school is to be made of any use, it must be thoroughly reconstituted. It is little better than an infant school, and quite unadapted for boys.

Burdwan Divn. 1	Burdwan, May 29,* '76	·33	Weather—The rainfall at Cutwa has been ·4, at Bood-bood 2·75, at Jehanabad 2·39, and at Ranegunge ·22 inches. No alteration in the state and prospects of the crops. Ploughing has begun. Cholera abated.
2	Bankoora, „ 27, „	·8	Weather—Partial showers, with considerable diminution of temperature. It is still threatening. Rain has fallen in most parts of the district, and ploughing is being carried on, but more rain is still required.
3	Beerbhoom, „ 27, „	1·45	Weather—Showery. State and prospects of the crops are good. Recent rainfall has done much good.
4	Midnapore, „ 29, „	·62	Weather—Wind and rain storms every second or third evening. Much cooler than before. The rain, which has been unequally but pretty generally distributed, and has been sufficient for early ploughing, but it is said that there will be very little *aous* this year owing to the tardiness of the rainfall.
5	Hooghly, „ 27, „	Nil.	Weather—Close and sultry. Cloudy for the greater part of the week, but no rain. Slight rain at Dhonekally, Pandoos, and Bansberiah. Sowings of *aous* and jute are going on. Land is being ploughed up for *amun*. The *aous* and jute already sown, as well as indigo sown in April, have germinated. October indigo, *potol*, water-melons, &c., are doing well. More rain is wanted. Greater part of the mangoes already gathered. Cholera ceased.
	Howrah, „ 27, „	·6	Weather—Still threatening. One heavy shower on Friday. It is favorable for preparation of land for crops.
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs, May 29,† '76	·85	Weather—Warm at the beginning of the week, but cooler since. Some rain has fallen throughout the district. Ploughing is vigorously going on for spring sowings. Cholera has nearly disappeared. Fever lingers in Barripore.
7	Nuddea, „ 27, „	·2	Weather—Cool and cloudy. Heavy rain in the north of the district; a little in the middle and south. The state and prospects of the crops are good.
8	Jessore, „ 27, „	5·32	Weather—Cloudy, with heavy showers. State and prospects of the crops are good.
9	Moorshedabad, „ 27, „	3·03	Weather—Rain, which has been heavy at the Sudder Station, was experienced at Jungypore in occasional showers, and at Rampore Haut was limited to one slight fall. It has been much cooler since throughout the district. The showers have been very fortunate for the planting of the *amun* and *bhadoe* crops. Hemp, indigo, and mulberry are doing well.
Rajshahye Divn. 10	Dinagepore, „ 26, „	1·74	Weather—Cool. Wind from north-east. Rain is general. A storm on the evening of the 19th instant. The rainfall at Roygunge has been ·24 inches. Ryots complain of growth of weeds owing to excessive rain. Prospects of crops are satisfactory. Rainfall is excessive now, and expected to be deficient later. Cholera abating; deaths from it during this week have been 27. Total deaths since the outbreak are 373. Small-pox increasing; deaths during the week have been two. Total deaths since the outbreak are 22 in number.
11	Maldah, „ 27, „	1·34	Weather—Rainy and cloudy, with bursts of hot sun. Crops are getting on well. Sixteen deaths from cholera.
12	Rajshahye, „ 27, „	2·29	Weather—Cloudy. There has been a fair amount of rain throughout the district, less however in the Tannore, Mandab, and Bhundaikhara thanas than elsewhere. The young plants of the *aous* and *amun dhan* are thriving. The prospects of the *til*, or sesamum crops, are satisfactory throughout the district. *Boro dhan* is being cut, and it is estimated that there is a ten-anna crop.
13	Rungpore, „ 26, „	1·28	Weather—Stormy. The rainfall at Gyabunda has been 1·28, at Kurigram 5·2, and at Bagdogra 2·16 inches. Crops are in good condition. Millets are being harvested. *Aous* rice and jute look well. *Amun* rice is being planted out in some places. Ploughing is general.
14	Bogra, „ 27, „	3·65	Weather—Favorable and cool. No change in the state and prospects of the crops since last week. The sowing of *boona amun* paddy in the eastern part of the district is fast reaching completion, but the prospect of *aous* is not very satisfactory owing to the incessant rain.
15	Pubna, „ 27, „	4·56	Weather—Rain has been general. The rainfall at Serajgunge has been 2·5 inches. State and prospects of the crops are favorable.

		Central Districts.—(*Continued.*)		
Cooch Behar Divn.	16	Darjeeling, May 26, '76	3·22	Weather—There has been rain every day since Sunday; on the night of the 25th instant it came down in torrents. The young crops throughout the district have been benefited by the recent rain, and on the whole are doing well.
	17	Julpigoree, „ 27, „	2·95	Weather—Cool. Ample rain has fallen every where. All crops flourishing. Cholera is prevalent in Fallacotta and Silligoree thanas.
		Cooch Behar, „ 25, „	1·21	Weather—Cloudy. Generally cool, but occasional very hot days. Most days are showery, but on the whole the weather has been just what was wanted. Prospects of crops are generally good. The occasional sunshine will have been of use to the cultivators in weeding their fields. The *betri dhan* promises to be at least a 10-anna crop. Cholera appears slightly on the decrease. Mickligunge has not suffered from it at all.
		Eastern Districts.		
Dacca Divn.	18	Dacca, May 29,* '76	4·25	Weather—Heavy rain on Wednesday and Thursday, particularly in the north of the district. State of the crops is very promising.
	19	Fureedpore, „ 27, „	3·25	Weather—Rainy and very damp. The rainfall at Madareepore has been 3·33, and at Goalundo 4·35 inches. State and prospects of the crops are very good. The rain and sunshine would help the rice to make up for its backward state, and attain sufficient height before inundation. Sowings possible everywhere now.
	20	Backergunge, „ 25, „	1·71	Weather—Rain has fallen, and there have been storms. The state and prospects of the crops are generally good. Cholera still present, but much abated. Small-pox and cattle disease have made their appearance in one thana.
	21	Mymensingh, „ 26, „	7·51	Weather—The rainy season has set in throughout the district. State and prospects of the crops are generally favorable. In some parts there are assertions that the heavy rain has prevented the *aous* crops from being weeded.
	22	Tipperah, „ 26, „	2·88	Weather—Rainy and stormy. Prospects of all crops are good.
Chittagong Divn.	23	Chittagong, „ 25, „	2·59	Weather—Cooler than last week, with occasional thunder-storms. Ploughing is going on generally.
	24	Noakholly, „ 25, „	2·18	Weather—Generally cloudy and cool. There was a good shower of rain on the 20th instant, and slight rain on the morning of the 24th idem, when the wind was north. During the rest of the week the wind blew from the south. The gathering of pulses, chillies, &c., is being completed. The cultivation for the early and late rice is still going on.
	25	Chittagong Hill Tracts, „ 23, „	1·29	Weather—Showers of rain on the 20th instant and on the 23rd. Sowing is still going on in the jooms. The paddy and the other seed-grains already sown are germinating in some places.
		Hill Tipperah, „ 24, „	1·05	Weather—Cloudy. The prospects of the crops are satisfactory. *Aous* and *amus* are being sown.
BEHAR.				
Patna Divn.	26	Patna, May 29,* '76	·06	Weather—Hot in the day but cool at night. Rain is not sufficient to be of the slightest good. It is much wanted for the preparation of the lands for the *bhadoe* crops. Sporadic cases of cholera still reported from all parts of the district, with a few cases of small-pox.
	27	Gya, „ 27, „	·05	Weather—High easterly wind. There was a slight rain on the 25th instant. No crops on the ground. Public health is generally good.
	28	Shahabad, „ 27, „	0·15	Weather—Hot in the commencement of the week. A slight shower of rain fell on the morning of Thursday last, and since then the weather is cool, with strong easterly wind. No crop on the ground except sugarcane and *cheena*. Cholera still prevalent in the district.
	29	Durbhunga, „ 27, „	·97	In the north half of the district the prospects of crops of the ensuing season continue satisfactory. In the southern half the want of rain is seriously felt. Since January only ·55 of an inch of rain has fallen in Tajpore. Distress has increased in the most northern tracts of Mudhoobany, but in the central and southern tracts, where *bhadoi* lands exist, the late rains have, by rendering field labor practicable, reduced the number of distressed paupers. All absolute requirements are being duly met. Cholera is still prevalent, and the mango season having commenced, it may possibly add to the prevalence of bowel complaints.
	30	Mozufferpore, „ 27, „	·4	Weather—Cool and generally favorable for agricultural operations. At Seetamurhee ·92 inches of rain has fallen. It has fallen throughout the sub-division. Cultivators are well employed. *Makai* and *marwa* have been sown in some places. In Mozufferpore sub-division agricultural operations are going on satisfactorily, but rain is much wanted in the western part of it. Prices continue easy throughout the district. In Hajeepore sub-division rain is much wanted, and cholera has considerably increased over the whole sub-division.

* Telegrams of the 29th May, received on the same day, show rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
Patna Divn.—(*Contd.*) 31	Sarun, May 27, '76	·15	Weather—Hot and clear, with east wind prevailing. The temperature has become less oppressive since Wednesday last, and the nights are exceptionally cool. The change in the weather is marked. The rainfall at Sewan has been 3·31 inches. There was more or less rain throughout the district. In Sewan the rainfall was considerable, accompanied by heavy storms, causing great damage to houses, trees, mangoes, and other fruits, which are almost ripe. In Gopalgunge the rainfall was less heavy, and was attended by hail-storms. On the whole the rain must have done much good to indigo, sugarcane, cotton, and cheena, which latter is fast ripening.
32	Chumparun, „ 26, „	·52	Weather—Rain has been threatening throughout the week, and has fallen copiously in parts. The prospects of the crops are excellent.
Bhagulpore Divn. 33	Monghyr, „ 27, „	Nil.	Weather—Fair, with high easterly winds. Mornings and evenings are cool. An inch of rain has not fallen in the district for about nine months. It is much wanted for the growing indigo, and also for *bhadoe* sowings.
34	Bhagulpore, „ 29,* „	·74	Weather—Winds from north and east. The rainfall at Soopool has been ·38, at Mudehpoorah ·44, and at Banka ·20. Weather most favourable for agricultural operations. General health is very good.
35	Purneah, „ 27, „	1·61	Weather—Cool, with east wind. It seems as if the rains had set in. Reports from all parts of the country are favorable. The *bhadoe* crop is coming on well, and the general health is much improved.
36	Sonthal Perghs. „ 28, „	1·05	Weather—Cool and cloudy, with occasional good showers. Rajmehal is still hot and dry. Ploughing well begun.
ORISSA.			
Orissa Divn. 37	Cuttack, „ 20, '76	·51	Weather—Sultry, with clouds gathering. Occasional dust-storms. There have been showers once or twice. There is every reason to believe the rains are setting in. Ploughing has been very much hindered for want of rain. There has been much loss of cattle owing to the tanks being all dry, and pasturage burnt up. Cholera prevails in Kendrapara. Elsewhere the public health is good.
38	Pooree, „ 25, „	Nil.	Weather—A good shower fell on the night of the 24th during a storm. More rain is expected. Ploughing will commence and progress well if rain falls. The *dalua* paddy crop is harvested, and is moderately good. The estimated loss is one-fourth, owing to the drought. Sugarcane is being planted out.
39	Balasore, „ 26, „	1·95	Weather—North-westers with frequent heavy showers in the north of the district. Fair progress is made in ploughing and sowing. In the north rain is still much wanted. Cholera is on the increase, 210 deaths having been reported during the third week in May. Mortality from small-pox has ceased.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, May 26, '76	·09	Weather—Seasonable. Very hot. More rain is urgently required for ploughing. The fall of rain has been very partial and insufficient, particularly in the Sudder Station. General health improving.
41	Lohardugga, „ 27, „	Nil.	Weather—Very cloudy with strong wind, but no rain at head-quarters. In some parts of the district there has been light rain. More rain is still required for ploughing and sowing in the Sudder sub-division. From Palamow it is reported that rain, as it has kept off so long, is not now wanted till the regular time, *i.e.*, the first week in June, and that the first crop has been damaged by the long continued drought. There have been a considerable number of cases of cholera in the town, and some in the district during the week under review. Small-pox is still very prevalent at Palamow. Public health is otherwise good.
42	Singbhoom, „ 26, „	Nil.	Weather—Hardly seasonable. Agricultural operations are progressing, but there is some disappointment in more rain not falling, as anticipated from the previous long drought. 25th was the *rohoni*, or the beginning of the paddy sowings in the low lands. There have been no new reports of sickness, and the cattle are better off from the new grass that has grown since the late showers.
43	Manbhoom, „ 27, „	·1	Weather—Cool; there are indications of the approach of the rainy season. Cultivation is delayed in some parts of the district owing to want of rain, but the Deputy Commissioner is under the impression that since the date of the local reports rain must have fallen pretty generally, though there was not much at Purulea. Cholera is subsiding.

* Telegram of the 29th May, received on the same day, shows rainfall during the seven days immediately preceding.

RESOLUTION.

GENERAL DEPARTMENT—MARINE—No. 1526.

Calcutta, the 27th May 1876.

READ—

The following papers on the subject of the grounding of the ship *Mahableshwar*:—

Letter from Messrs. Lyall, Rennie and Company, dated the 29th February 1876.
Letter from the Officiating Master-Attendant, No. 1730, dated the 8th March 1876.
Letter from the Officiating Deputy Master-Attendant in charge, No. 2653, dated 13th April 1876.
Letter to the Deputy Master-Attendant in charge, No. 1179, dated 21st April 1876.
Letter from the Officiating Deputy Master-Attendant in charge, No. 3269, dated 5th May 1876.

1. Messrs. Lyall, Rennie and Company have complained that this ship, of which they are agents, grounded in the Rungafulla Channel on the 14th January, when going to sea under the pilotage charge of Mr. Wells, Acting Branch Pilot. They say that an alteration in the channel was communicated to the Master-Attendant on the previous day, the 13th, but was not made known, as it should have been, to the pilots.

The ship's grounding, they add, has caused a loss of Rs. 25,000: and they request that enquiry may be made into the practice of the Master-Attendant's office, in giving information to pilots of changes which occur in the channels.

2. In this case, the Lieutenant-Governor considers that it is clearly established that the pilot and the Master-Attendant's office were in no way in fault, and that the entire blame attaches to the River Surveyor. It is the duty of the River Surveyor, when he finds any change in the channels, at once to send to Bankshall a report and a duplicate sketch. The report is copied into the channel order book, and one of the sketches is kept there: this makes the change known to the pilots in Calcutta, who are bound to inform themselves of all entries in the channel order book. The original report, with the duplicate sketch, is then sent down to the Sandheads, for the information of the pilots on board the brigs.

3. Besides these special reports and sketches, the River Surveyor sends up, from time to time, charts showing those alterations which have already been embodied in the special reports. These charts are not examined in the Master-Attendant's office; they are sent on at once to the Surveyor-General for reproduction by photozincography, and copies are then available for sale to merchants and to the public. It is understood that no change will appear in the chart, which has not already been made the subject of a special report.

4. The River Surveyor, Mr. Laycock, had sent up, on the 28th December, a report, with sketches in duplicate, of certain changes in the Rungafulla Channel. On the 8th January he sent a chart, which reached the Master-Attendant's office on the 13th, and was as usual sent on to the Surveyor-General without examination. But this chart showed an important change in the channel, of which no report and sketch had previously been given. A spit of sand had run out into the usual navigation channel, and it was upon this spit that the *Mahableshwar* grounded. If the channel had been in the condition shewn by the report and sketch of the 28th December, the pilot would have had 23½ feet of water at the place where the ship grounded. She was drawing 21½ feet, and the chart of the 8th January showed 20½ feet in this place.

5. Mr. Laycock's explanation is to the effect that he thought the change of no great importance, and that, if the pilot had kept more to the eastward, he would have had plenty of water. The Master-Attendant shows, in the 8th paragraph of his letter, that this explanation cannot be accepted as satisfactory.

6. The Master-Attendant was not, the Lieutenant-Governor thinks, to blame for not examining the chart. He might reasonably presume that it would not contain any information which had not previously been specially communicated. The pilot was not to blame for not keeping further to the eastward, as he had every reason to suppose that he was keeping a perfectly safe course.

7. The River Surveyor seems to the Lieutenant-Governor to have committed a grave neglect of duty in omitting to report, in the usual manner, a material change in one of the navigating channels; and it is to this neglect that the disaster to the ship is to be attributed. Mr. Laycock is in general honourably distinguished by vigilance and attention to his duties, and the Lieutenant-Governor regrets the necessity for passing this censure upon him. But in this case it is evident that Mr. Laycock's omission to report the alteration resulted in causing a considerable loss of property, and endangered the safety of the vessel and the lives of those on board. The Lieutenant-Governor therefore directs that Mr. Laycock be informed that his neglect of duty in this instance is regarded by the Government with serious displeasure, and that he be warned that inattention and oversight cannot be excused in an officer who holds so responsible a post as that of River Surveyor.

RULES.

GENERAL DEPARTMENT.—MARINE.

Calcutta, the 26th May 1876.

The following rules, for the appointment of a qualified Board for the Examination of Masters, Mates, and Engineers of the Mercantile Marine, having been approved by His Excellency the Governor-General in Council, are published for general information.

The Examination Board, for conducting the examinations for granting certificates of competency to seamen, shall be constituted as follows:—

1. Senior officer of the Royal Navy present, for the time being, at the head-quarters of the Marine Survey Department, shall be *ex-officio* examiner in navigation; provided that he be an officer of the navigating branch of the Royal Navy, and of not lower rank than a Staff Lieutenant.

2. (*a*).—The examiners in seamanship shall be three experienced masters who have been recently in successful command of merchant vessels. These may be selected either from the commanders of vessels lying in the port of Calcutta, or from the surveyors of shipping in the port.

(*b*).—They shall be appointed by the Lieutenant-Governor on the nomination of the Master-Attendant.

(*c*).—The permanent President of the seamanship examiners shall be the Deputy Master-Attendant.

3. (*a*).—Three engineers shall be appointed by the Lieutenant-Governor, on the nomination of the Chief Engineer of the Dockyard, as examiners in steam. These will usually be selected from the superintending engineers of the different steam companies in the port.

(*b*).—The Chief Engineer of the Dockyard shall be the permanent President of the engineer examiners.

4. The examinations shall be held quarterly, on the first Monday of January, April, July, and October, or on the first open day thereafter, if the day fixed should be an authorized holiday.

5. The examiners shall receive the following fees for each examination:—

	Rs.
Seamanship examiners	32 each.
Engineer examiners	32 ,,

NOTIFICATION.

The 16th May 1876.—In continuation of the orders published at pages 338-39 of the *Calcutta Gazette* of 24th March 1875, the Lieutenant-Governor is pleased to notify that at the granting of a 20 years' lease under those orders, after the expiry of the preliminary lease, and also at every subsequent renewal of any such 20 years' lease, the amount of rent to be paid for the land per acre will be fixed at an amount not exceeding the rate of rent paid per acre in the neighbourhood at the time for the highest class of land under ordinary arable cultivation.

2. If at any future time the administration of the tracts in the Western Dooars under tea cultivation should entail on the State any considerable increase of expenditure, it will be competent to the Government, with the sanction of the legislature, to impose such special taxation as may be deemed necessary to defray the additional expenditure so incurred, either by raising the rent or in some other mode. But under no other circumstances will the rent which has been once fixed for a term of years on the principle above enunciated be raised during such term.

30.	Bukshee Ram Lal		3	
31.	Raja Shib Lal Singh		0	
32.	Baboo Sitaram		1	
33.	Sheik Ameer Ali		0	

3. The name of Bukshee Jainundun Das is to be removed from the list of members, as that gentleman has since died.

4. There were seven meetings during the year, all of which were presided over by the Chairman. Of these seven meetings one was not attended by a quorum.

5. Ten days' notice was given of every meeting held during the year, and the business to be transacted at each was duly notified, as directed in section 57 of the Act.

6. The minutes of the proceedings of every meeting held during the year were recorded in the book opened for that purpose under section 61 of the Act.

7. The following changes occurred in the Committee during the year:—

(1) The charge of the office of Chairman was taken over by Colonel H. M. Boddam in February 1875 on Mr. Beadon, the Officiating Deputy Commissioner's transfer from the district.

(2) Baboo Rajgopal Roy, Road Cess Deputy Collector, who was the Vice-Chairman of the Committee, was transferred to the district of Lohardugga, and Captain Blathwayt was elected in his place, but this gentleman held the office only for three months, *viz.* from January to March, when Mr. Wilson, Senior Assistant Commissioner, was appointed Vice-Chairman.

(3) Captain Blathwayt, Assistant Commissioner, and Mr. T. F. Parkinson, Executive Engineer, Hazareebagh Division, were made members of the Committee during the year.

8. The subjoined table shows the attendance of the members at each meeting held during the year under review:—

No. of Meetings.	No. of Members present.	No. of Members absent.	Total number of Members.
1st meeting, held on the 5th December 1874	... 12	21	33
2nd " " " 4th January 1875	... 13	20	33
3rd " " " 15th April "	... 12	21	33
4th " " " 10th May "	... 11	22	33
5th " " " 10th August "	... 9	24	33
6th " " " 21st " "	... 13	20	33
7th " " " 10th September "	... 13	20	33

9. From the above statement it will be seen that the attendance of the members during the year was as unsatisfactory as in the previous year. In almost all the meetings held during the year the number of members present scarcely exceeded one-third of the total number of members forming the committee. Some of the non-official members never attended the meeting at all. The only conclusion to be derived at is that either these members take no interest in the working of the road cess, or that the distance they reside from the station will not admit of their attendance.

10. There is no separate official building for the Committee. The Deputy Commissioner has provided accommodation for the road fund establishment in one of the buildings attached to his office.

11. The Committee had no separate office establishment during the first quarter of the year, as the duties of both the offices of Collector and Chairman were performed by the Collector's road cess establishment; but as, under orders of the Commissioner, the road cess establishment of the Collector had to be reduced, the portion of establishment done away with was appointed as Committee's office establishment from January 1875. It, however, made very little difference to the Committee in fact, as the whole establishment was paid from the same fund.

12. The following is the list of the principal business transacted by the Committee during the year under review:—

(1) The annual accounts for the cess year 1873-74 were passed.
(2) Preparation of the estimate of receipts and disbursements for the cess year 1875-76.
(3) Determination of the rates of assessment for the ensuing cess year 1875-76, *viz.* at three-fourths of the maximum rates, as in the previous year.
(4) Selection of Vice-Chairman in the place of Baboo Rajgopal Roy transferred to the district of Lohardugga.
(5) Revision of budget-estimates for the cess year 1874-75, necessitated in consequence of the reduction of Government grants. In preparing this revised estimate the Committee was obliged to abandon some of the roads in consequence of its limited resources.
(6) Selection of an Engineer in the place of Mr. Pereira returned to his own department, Public Works.

13. There were no Branch Committees appointed during the year.

14. The amount collected under Act X of 1871 during the year was Rs. 28,026-1-6, as per details given on the margin, but of this sum Rs. 572-4-5 had to be subsequently refunded.

	Rs.	A.	P.
Cess on lands ...	25,570	15	2½
Ditto mines ...	640	13	3½
Ditto houses ...	1,703	7	0
Fines and penalties...	110	14	0
Total...	28,026	1	6

15. When the budget-estimate for the year was prepared, it was supposed that the Government would give Rs. 20,000 as grant-in-aid, but only a sum of Rs. 5,000 was granted, and of this sum Rs. 4,103-8 was repaid to Government as pay of the Engineer establishment.

16. Besides the above sum of Rs. 5,000 there was a special grant of Rs. 2,400 for the completion of the Churwa and Gonda bridges.

17. The total amount available for expenditure during the year was Rs. 43,888-12-11. The annual account shows in sufficient detail the sources from which the sum was derived.

18. The expenditure during the year amounted to Rs. 33,107-1-8.

19. The charges for establishment in the collection of revenue amounted to Rs. 1,326-14-1 against Rs. 1,294 in the budget. The excess charge (Rs. 32-14-1) was owing to an extra clerk being appointed under orders of the Board of Revenue for statistical purposes. The amount was, however, met from the savings under other heads.

20. The cost of the Committee's office establishment during the nine months from January to September 1875 amounted to Rs. 600 against Rs. 850 in the budget.

21. The expenditure on account of contingencies was Rs. 233-12-6, against Rs. 500 in the budget.

22. The savings effected on the above two heads were available to meet other charges.

23. The total amount refunded during the year was Rs. 572-4-5 as stated below,—

Rs. 563-10-5.—This amount was recovered from the East Indian Railway Company on account of their collieries in Gadee Kurhurbaree, but their entire property having been exempted from taxation under orders of the Government of India the amount had to be subsequently refunded to the Company.

Rs. 8-10-0 were refunded to the Executive Engineer on account of the house cess recovered from him for the inspection bungalows of the Public Works Department, but the amount was subsequently paid by the Collector of the district.

24. The total outlay on works amounted to Rs. 24,148-14-11, namely, Rs. 18,448-4-9 on original works and Rs. 5,700-10-2 on repairs.

25. The total charge for establishment employed on works was Rs. 6,152. This amount includes Rs. 4,103-8-0 paid on account of share of pay of the Public Works Department establishment for the year 1874-75, as per Government order No. 3432, dated 8th July 1875.

26. The sum of Rs. 73-3-9, charged in the account against the head "Tools and Plant," was on account of conveyance and other miscellaneous charges.

27. The following are the details of the several works executed during the year:—

ORIGINAL WORKS.

Hazareebagh and Chuttra Road.—The Committee in its budget-estimate sanctioned Rs. 6,671 for expenditure on this road during the year under review, but the actual outlay amounted to Rs. 6,003-12-8. Mr. Pereira reports that ten miles of the road were finished during the year as regards earthwork; besides jungle was cleared off from about five miles and turfing and dressing completed for ten miles. In addition to these the first mile of the road was metalled and gravelled. A 10-feet culvert and a bridge of two spans of sixteen feet each with masonry abutments and pier, with timber top, over the Nullaband river were built. Three other culverts besides the above, *viz.*, one 14 feet arched, one 2 feet arched, one 4 feet arched, with timber top, were constructed during the year.

The Gonda bridge, which is also on this road, was completed during the year.

This bridge was commenced in 1873-74 to complete the circle of station roads ordered to be constructed by the late Lieutenant-Governor, Sir George Campbell, but was stopped by the Executive Engineer under orders of Government, and made over to the Road Cess Committee unfinished.

I inspected this road during my cold weather annual tour.

The earthwork is, I regret to say, far from being finished. For many miles no earthwork whatever has been done beyond cutting a drain about eighteen inches wide and eighteen inches deep each side of the proposed road, and throwing the earth thus obtained on the road. Many of the culverts are not placed in the middle or square to the road, and have been made with outrageously high parapet walls.

The tracing of the road and general supervision appear to have been left entirely to some native subordinate, who has worked according to his lights, unchecked by the Engineer.

Burhee and Gawan Road.—This road was taken in hand during last year in consequence of the distress that prevailed in the district, and a sum of Rs. 29,499-10-9 was expended. During the year 1874-75 a further sum of Rs. 4,220-2-8 was disbursed on the road. The work on the road was stopped in the middle of the year for want of necessary funds.

Mr. Pereira reports that thirty-two miles of the road, as regards earthwork, were completed up to the end of the year. Of this length twenty-eight miles were completed in 1873-74, and the remaining four miles in 1874-75. Masonry abutments of four bridges of a single span of thirteen feet each, and the abutments and piers (except one) of a bridge of five spans of thirteen feet each, made during the year, besides ghat cutting and a great deal of turfing and dressing.

This road was also inspected by me. It is a very useful road and should be finished, and the necessary culverts built as fast as possible.

Giridhi and Khurukdeha Road.—The earthwork on the road was completed last year. The sum of Rs. 1,558-15-11 expended during the year was almost all on account of construction of culverts. Twenty-five culverts, varying in span from two to four feet, were built during the year.

This was one of the roads inspected by me. The earthwork is reported as completed, but for some miles the road has not ever been lined out; in many places the virgin jungle is untouched; for much of the lengths where the jungle has been cut the roots have not been grubbed up.

The culverts built I have directed the present District Engineer to pull down at once and to see them re-built at the cost of the contractor, as they were constructed of bad materials and were unsafe.

Gya and Deoghur Pilgrim Road.—The total expenditure on this road up to the close of the year amounted to Rs. 7,017-12-2, of which Rs. 4,523-5-3 were disbursed during 1874-75. Earthwork for 20½ miles of the road has been completed. The work has since been stopped for want of necessary funds. The estimate of the road was received from the Executive Engineer during the year under review, but the road having been abandoned it was not submitted to the Commissioner for professional scrutiny by the Superintending Engineer, as required by paragraph 11 of the Government order No. 173, dated 7th May 1872.

I would call attention to Mr. Beadon's remarks on last year's report on this road:—

"It has been improved off the face of the earth. Formerly carts could with a little difficulty pass along the road, now it is almost impracticable for man or beast, vast gaps being left where bridges were to be built; but as there is no chance of the Committee having any funds to build these bridges for the next twenty years, if then, the road may by the action of time and weather washing away the embankments become again passable by country carts."

(1) *Giridhi and Toondi Road;* (2) *Moheshmoondi and Bengabad.*—These roads were completed before the 30th September 1874, when the cess year 1873-74 closed. The expenditure, Rs. 332-2-9 and Rs. 501-14-6, shown on the accounts against these roads were all defrayed in rice before that date, but owing to an oversight on the part of Mr. Campbell, the Sub-divisional Officer, Pachumba, it was not included in that month's accounts; hence it is charged in the present year's account.

Old Benares Road, west of Hazareebagh.—There was no money spent on the road itself. A culvert on the approach of the Churwa bridge, which is on this road, was built during the year at a cost of Rs. 474-15, which was met from the savings effected on the allotments of the Churwa and Gonda bridges, as there was no provision made for the culvert in the budget-estimate for the year.

A sum of Rs. 1,400 was given by Government for the completion of this bridge; the sanction arrived so late that, although the work was commenced, it was stopped by the setting in of the rains, which carried away the centering.

REPAIRS.

Station Roads.—The expenditure on these roads during the year amounted to Rs. 997, which was merely on repairs. Of this sum Rs. 542-12 was paid in repairing the roads on the occasion of the Viceroy's visit to Hazareebagh. The balance, Rs. 454-4, was spent in gravelling part of one of the roads as well as in paying the salaries of the maintenance establishment.

The burden thrown on the District Committee of maintaining these roads has been so fully recorded by the late Officiating Deputy Commissioner in last year's report that I need not reiterate what has been already recorded.

It is impossible for the Committee to maintain those that have been completed, much less complete those left unfinished.

Baloomut and Sherghotty.—The Engineer reports that four miles of this road have been remodelled and one 4-feet arch and two 4-feet timber top culverts built, besides extensive repairs done to Bhoraghat, making its gradients easier. Up to the end of last year seventeen miles of the road out of fifty have been repaired.

I inspected the work done at Bhoraghat. It has evidently not been properly supervised. No side drain to carry off the water from the road was constructed, and the consequence has been that the road down the ghât has been cut into deep channels, which must be repaired.

The remodelling would have been better left undone, as no one will ever use the new line of road, as it is cut off from the present line by a river which cannot be bridged for very many years to come. The money expended has been simply wasted.

Old Ranchee Road.—The sum of Rs. 21-12 charged in the accounts against this road was on account of last year's expenditure.

Chuttra and Chowparan Road.—This is a metalled road. Mr. Pereira reports that three miles of the road have been remodelled and twelve miles gravelled, besides other necessary repairs.

Gola and Govindpore Road.—The sum of Rs. 94-10-9 charged against this road was on account of pay of maintenance establishment.

Paharpore and Buggodhur Road.—The expenditure on this road during the year amounted to Rs. 519-9-2. There was a nokur coolie establishment entertained for the maintenance of the road, and the expenditure shown above was incurred in paying their salaries as well as filling up the places left for culverts during the famine.

Ramghur and Gola Road.—Petty repairs done through nokur coolies entertained for the maintenance of the road at a cost of Rs. 197-4-3.

Kodurma and Jainuggur Road.—Petty repairs done through maintenance establishment. The amount disbursed was Rs. 88-1-3 only.

Chuttra Inspection Bungalow.—A sum of Rs. 64-15 was expended on the repairs of this bungalow during the year.

28. The following are the works proposed to be taken in hand during the ensuing year 1875-76. The sums allotted by the Committee are noted against them :—

A. G. WILSON,
Vice-Chairman.

No. 17, dated Ranchee, the 31st December 1875.

From—H. L. OLIPHANT, Esq., Chairman, District Road Committee, Lohardugga,
To—The Commissioner of the Chota Nagpore Division.

IN pursuance of Government orders contained in circulars Nos. 4952 of the 24th September 1872, and 50 of the 23rd July 1873, I have the honor to submit herewith my annual accounts, together with the required report of the expenditure incurred on roads in this district during the year ending 30th September 1875.

2. My annual preliminary report was, I may observe, submitted with my letter No. 51RC of the 26th July last.

3. The Road Cess Act was not introduced into this district till after the commencement of the year. It nominally came into force from the 1st November 1874 in pursuance of Government Notification No. 2088 of the 5th October 1874, but operations under the Act were not commenced till nearly the end of December. The work is proceeding satisfactorily, but no collections have yet been made, nor will any be made for some time to come.

4. The total balance standing at the credit of the fund on the 30th September 1874 was Rs. 23,275-4-3. To this must be added a sum of Rs. 20,000, which was allotted to this district as a grant from the provincial reserve fund under Government Notification No. 469 of the 29th December 1874, and which, together with the other items of receipt, makes the total aggregate receipts of the year to amount to Rs. 45,437-3-0, as shown below :—

	Rs. A. P.
Balance of last year	23,275 4 3
Grant-in-aid	20,000 6 0
Other receipts as detailed in annual accounts ...	2,161 14 9
Total ...	45,437 3 0

Out of the above sum Rs. 5,000 were withdrawn from the fund and credited to Government in pursuance of orders No. 1262 of the 10th March 1875, thus leaving a net balance available for expenditure of Rs. 40,437-3-0. Out of this latter item Rs. 33,639-5-10 were expended during the year, thus leaving a balance to the credit of the fund at the close of the year of Rs. 6,797-13-2.

6. It will be observed from the accounts that out of the total amount expended, a sum of Rs. 12,480-8-0 was incurred on account of the cost of establishments and refund of fines, as detailed in the margin. With regard to the first heading, as long as the valuations under the Road Cess Act are going on the establishment must necessarily be costly. With regard to the grant to the Public Works Department on account of establishment, I am not aware as to the exact principle on which the amount was calculated. The actual cost of the Public Works establishment employed during the year in connection with district works was only about Rs. 2,300, though the sum ordered to be transferred to that Department exceeded that amount by about Rs. 3,000.

Total ...		12,480 8 0

7. The balance to be accounted for is Rs. 21,158-13-10; and the whole of this sum was expended in the two main divisions of the district in the proportion shown in the table in the margin.

Total ...	1,832 4 3	19,326 9 7	21,158 13 10

8. The total sum expended on each line of road in the district during the year will be found in the usual table of annual expenditure, and a brief account of the general condition of the several lines of road, and the manner in which the money has been laid out, in the statement hereto appended.

9. In conclusion I beg to add that since the preparation of the annual return and report, instructions have been received from the Controller of Public Works Accounts in his letter, No. 15194, of the 27th November last, intimating that a sum of Rs. 2,921-5-8, which represents the value of rice expended in the payment of labourers on the several roads in the Palamow sub-division during the famine which prevailed in the previous year, and which was not shown in that year's accounts, should be adjusted in the accounts of the year now under review by "crediting deposits and debiting the heads of service concerned." The above amount has accordingly been exhibited in both the credit and debit side of the return, particulars of the expenditure being furnished in Part II of the same. As however this expenditure does not appertain to the year under report, it has been thought advisable to keep it quite distinct from the accounts of the year, and it has accordingly been shown separately at the bottom of the statement.

Statement showing the work done on the several Roads in the District of Lohardugga during the year ending 30th September 1875.

RANCHEE AND BUNDGAON ROAD, 38 MILES.

First section, from Dorundah to Hattia, 5 miles.—This portion of the road is in good order; the first three-quarters of a mile was re-gravelled during the year, and one of the abutments of a bridge, which was in a decayed condition, was thoroughly repaired, as well as the wing walls.

Second section, from Hattia to Khunti, 18 miles.—This also is in good order, having been lately repaired. The approaches to rivers and streams have been put in order, and the wooden bridges rendered secure.

Third section, from Khunti to Murhie, 8 miles.—This portion is in fair order; it was last repaired in the cold weather of 1874-75, and will require attention during the ensuing season.

Fourth section, from Murhie to the boundary, 7 miles.—This portion is more hilly than the rest of the road, and consequently suffers more during the rainy season, and requires a larger expenditure to keep it in proper order.

On the whole the line is in tolerable fair-weather order. The road leads to Chyebassa, but the traffic is little more than local. During the year 33 miles of roadway were repaired, 258,399 cubic feet of earthwork, and 2,580 cubic feet of rubble stone masonry, at a total cost of Rs. 1,580-8-3.

RANCHEE AND LOHARDUGGA ROAD, 45 MILES.

First section, Ranchee to Murma, 13 miles.—This portion is in good order, the first three miles and six chains being gravelled. The approaches to the first river were put in thorough order, and a stone breakwater thrown out into the stream to prevent the east bank from being cut away, an arrangement which has answered admirably.

At the 12 and 13 miles the line crosses two nullahs over which two bridges are in course of construction, and will be completed during the current season. These two nullahs have always been a great impediment to traffic.

Second section, Murma to Opa, 11 miles.—This portion is in fair order, though the roadway is rather narrow.

Third section, Opa to Kuru.—In fair order, but a few bridges are much wanted.

Fourth section, Kuru to Lohardugga, 11 *miles.*—In good order, but more earthwork is required in places, and the approaches to streams demand attention. The line is a good fair-weather road, but some bridges are urgently required to render the road available for traffic all the year round. Lohardugga is the great trading mart of Chota Nagpore Proper, and the traffic is annually increasing. During the year eight wooden bridges and eighteen miles of roadway were repaired, and two stone drains erected, total earthwork 391,191 cubic feet, and 9,368 cubic feet of brick masonry, at a total cost of—

	Rs.	A.	P.
Original works	1,163	7	0
Repairs	1,640	15	3

RANCHEE AND PALKOTE ROAD, 53 MILES.

This road branches off from the Ranchee and Bundgaon road at Hattia.

First section, from Hattia to Lodmah, 11 *miles.*—This portion has been repaired and put in good order, but a wooden bridge still remains to be repaired.

Second section, from Lodmah to Lowkel, 10 *miles.*—The roadway has been repaired, but the approaches to streams require looking to.

Third section, from Lowkel to Jhurria, 10 *miles.*—The first half is in good order, but the latter indifferent.

Fourth section, Jhurria to Bassia, 18 *miles.*—With the exception of four miles this piece is in very fair order, but the south approach to the Kuru river requires to be re-cut and some earthwork added to the north approach.

Fifth section, Bassia to Palkote, 12 *miles.*—The first eight miles have been kept in good order, but the last four miles are little more than a jungly track: on the whole this line is in good fair-weather order. The traffic is considerable and is steadily increasing, large quantities of grain being brought from Bassia and Govindpore to Ranchee and carried away in an easterly direction.

During the year 28 miles of the road were repaired, 14,603 cubic feet of earthwork, at a total cost of Rs. 697-8-6.

KURU AND LATEYHAR ROAD, 28 MILES (TOWARDS DALTONGUNGE).

This road branches off from the Ranchee and Lohardugga road at Kuru.

First section, from Kuru to Chandwa, 10 *miles.*—This portion passes over a very steep and difficult ghât, and it consequently requires great attention. It has been kept in good order during the year.

Second section, Chundwa to Lateyhar, 18 *miles.*—Twelve miles of this have been thoroughly repaired, but the remaining six requires attention. This line is an important one, leading to the head-quarters of the Palamow sub-division, and is in fair order, though bridges are much wanted. At present the road is maintained as a fair-weather one, but the nullahs and streams in the rains are a great obstacle to traffic. The road carries a good deal of traffic during the cold and hot weather months, all done on pack-bullocks. Total roadway repaired 18 miles, 316,075 cubic feet earthwork, at a cost of Rs. 966-7-9.

LOHARDUGGA AND CHUTTRA, 42 MILES TO BOUNDARY.

From Lohardugga to Champi, 10 *miles.*—The whole of this portion has been repaired and a new bridge erected across some low boggy land.

From Champi to Balumath, 20 *miles.*—This portion of the road runs through a wild and jungly country, and crosses difficult ghâts and many streams; it is partially bridged. The greater part of the roadway has been repaired, and on the whole it is in good order.

Balumath to Gooma, the boundary, 12 *miles.*—The first five miles have received a good surface dressing, and the whole is in fair order. This road runs through a very hilly difficult country, but it has been fairly maintained. It carries far the heaviest traffic in the district, and is certainly one of the most important communications. Rice and food-grains are exported by this line in large quantities from Lohardugga and the south. Total work done 21 miles repaired; 462,455 cubic feet of earthwork and 5,695 cubic feet of rubble stone masonry, at a cost of—

	Rs.	A.	P.
Original works	668	13	3
Repairs	1,609	15	9
Total	2,278	13	0

KHUNTI, TOORPA, AND KAMDERA ROAD, 29 MILES.

From Khunti to Toorpa, 17 *miles.*—This portion of the road has not come under repair during the year under review. It requires surface dressing, which will be carried out during the current year. The line is in fair order.

From Toorpa to Kamdera, 12 miles.—This portion of the road has been thoroughly repaired during the year, earthwork being thrown up in low places, jungle cleared, and the approaches to streams and rivers sloped and improved. This road branches off from the Ranchee and Bundgaon road at Khunti, and, passing through the Turpa police station, joins the Ranchee and Palkote road at Kamdera, some few miles north-east of Bassia. The traffic on the road is chiefly local, but the line passes through a highly cultivated country, and is very useful as being a connecting link between the two roads above named. Total work done nearly 12 miles repaired; 266,474 cubic feet of earthwork, at a cost of Rs. 750-9-6.

Ranchee to Tamar, 35 miles.—The first twelve miles of this road have been thoroughly repaired and two wooden bridges replaced. The remainder of the road is in fair order, but it will require attention during the current season. This road was the original route from Ranchee to Chyebassa, but it was given up for a more westerly line (Ranchee and Bundgaon road), which possesses two advantages over this one, inasmuch as it avoids a difficult ghât and heads the rivers, taking as near as practicable the watershed of the country. As however there are two police stations (Bundee and Tamar), which are also large market places on this line, it was considered advisable to keep it up as far as Tamar, and opportunity was taken of the scarcity to put it into fair-weather order. The traffic on the line is chiefly local, but still the road is much used. During the year 12 miles and 3 furlongs were repaired, 127,385 cubic feet of earthwork, at a cost of Rs. 383-5-10.

Balumath, Janjhu, and Chumatu Road, 27 miles.—This road runs through the Tori Pergunnah between Chota Nagpore and Palamow. The first portion is from Chumatu on the east to Balumath (ten miles), and thence to Janjhu (seventeen miles) on the Palamow boundary. The line is a very jungly one, running through hilly and broken ground, and it carries little or no traffic except on one occasion during the year, when a fair is held at Heringi. It forms, however, a connecting link between the sub-division of Palamow and the district of Hazareebagh. During the year ten miles of road were put into good order; total earthwork 281,445 cubic feet, at a cost of Rs. 862-4-3.

Ranchee and Gola Road, 12 miles.—This road branches off to the north-east from the Ranchee and Hazareebagh road (provincial) about thirteen miles from Ranchee. There is a heavy ghât on the road which requires constant attention. The traffic is purely local. During the year seven miles were thoroughly repaired; 97,384 cubic feet earthwork at a cost of Rs. 259-8-6.

Petty works, Pittoria Road, 10 miles.—In fair order. During the year 7 furlongs and 3 chains were gravelled and 7 miles 1 furlong repaired; 83,718 cubic feet earthwork at a cost of Rs. 348-0-6. Traffic purely local.

Ranchee to Nugri, 10 miles.—The first eight miles of this road were put into good order, and the last two smoothed over. Earthwork 235,890 cubic feet at a cost of Rs. 682-6.

Village Roads.—Under this heading a sum of Rs. 1,044-15-6 was expended during the year, Rs. 500 being laid out in the Palamow sub-division and the remainder in Chota Nagpore Proper. The following is a brief account of the works carried out:—

In Palamow.—A good road was made to connect the market of Cheynpore with Shahpore, which is on the river Koel, opposite Daltongunge, the head-quarters of the sub-division, distance two miles, and cost Rs. 200. A large number of villages in the neighbourhood will be benefited by the work: also a road branching from Shahpore to the market of Pittoria. This track was formerly a very difficult one for all the villagers going to market, but it has now been put in good order; distance four miles, and cost Rs. 300.

In Chota Nagpore.—Roads connecting the villages of Hurma, Argora, and Karoo, were well raised and put into thorough order. These villages and many others in the neighbourhood have been greatly benefited, as the roads are much used by people attending the local markets. Total distance about five miles, at a cost of Rs. 314-10-9. The Revd. Mr. Whitley kindly effected some improvements for me in the roads in the neighbourhood of villages Kachabari and Maranghada, Mandhu and Ramchu, at a cost of Rs. 85-4-9.

Moonshee Mohiput Lal also carried out some improvements on the village track between Morhabadi and Koochoo Bazar, at a cost of Rs. 53.

Captain Lowis, the Manager of the Chota Nagpore estate, also kindly lent his services and effected improvements on the roads in a large number of villages at an aggregate cost of Rs. 92, as shown below:—

	Rs.	A.	P.
In the village of Dabcha	14	7	3
Between Baridih and Bharno	16	2	6
Between Dhunia and Palkote	14	0	0
In Bogru village on a bridge	5	0	0

PALAMOW SUB-DIVISION.

Daltongunge Station Roads.—The station roads are in very fair order, but masonry drains are required on those roads running down the slope of the bank on which the

station stands. The roadside trees have made a good start this year, and are a great addition to the appearance of the station. The main station road running from the lock-up to the hospital has been well raised and gravelled at the northern end for about 1,000 feet. Three other roads have also been re-gravelled for about 1,800 feet. One small drain erected, 22½ miles of road superficially repaired, upwards of 2,000 trees have been tended and protected.

Daltongunge and Lateyhar Road, 42 miles (leading to Chandwa).—This is part of the main line to Ranchee. It meets the Kuru and Lateyhar road at Lateyhar, and unites at Kuru with the Lohardugga and Ranchee road.

It is divided into three sections—

(1)	Daltongunge to Satburwa	...	...	18 miles.
(2)	Satburwa to Munka	...	...	8 „
(3)	Monka to Lateyhar	...	...	16 „

The *first* division is in very good order, and quite fit for cart traffic in the dry weather. The *second* section is in very indifferent order. It crosses many water-courses and several steep spurs composed entirely of hard gneiss rock. Some of the gradients too are very steep, and render necessary, to make the line easy for traffic, deep cutting into rock and raising heavy earthwork. It is proposed accordingly to adopt another route, which has the advantage of being shorter and altogether a far easier and more practicable one.

The *third* section is in fair order, but this part of the line also crosses deep water-courses, besides having some very steep gradients. During the dry season, from November to June, there is a considerable traffic along this line by pack-bullocks. During the year six and a half miles of roadway were thoroughly repaired, several hollows were filled up, approaches to nullahs improved, and a long strip of very low land, liable to inundation in the rains, well raised. The parapets and wing walls of four bridges were also repaired. Total work 249,014 cubic feet of earthwork, and 2,700 cubic feet of masonry work, at a cost of Rs. 1,250.

Daltongunge and Behar Road, 36 miles.—This road for about twelve miles passes over a keywal soil which, when newly thrown up, is liable to great damage during the rains, and it consequently requires repairs every season. Twenty miles are in good order, six miles fair, and ten miles indifferent. During the year the roadway and twelve feet on each side of it was cleared of jungle for twenty-eight miles, and superficially repaired and drains cleared for about ten miles. Total earthwork 200,225 cubic feet, and cost of works Rs. 800.

Daltongunge and Maharajgunge Road, 42 miles.—Ten miles of this road are not quite complete. Of the remaining 32 miles, 20 are in good and 12 in fair order. The earthwork and roadway suffered considerable damage during the unusually heavy rain in the preceding year, and the principal work this year consisted in repairing the damage done. Nine miles were cleared of jungle and roots; seven miles superficially repaired and drains cut. A further improvement was also made in the slope of the Sultani ghât. This road carries a considerable traffic, and bridging is much required. Total work 1,040,280 cubic feet earthwork, and 6,600 cubic feet of rock cutting in the ghât, at a cost of Rs. 1,500.

Daltongunge and Gurwah Road, 20 miles.—With the exception of a short distance here and there, this road may be said to be good along the entire length. It is unbridged. A heavy pack-bullock traffic passes along the road during the greater part of the year. The road has been superficially repaired. Over eighteen out of the twenty miles hollows have been filled up, drains cut and cleared, slopes to rivers and nullahs repaired, and two bridges repaired. Work done 244,400 cubic feet earthwork, and 1,740 cubic feet masonry, total cost Rs. 750.

Gurwah and Untari Road, 28 miles.—The first sixteen miles of this road are in good order and the remainder are indifferent. The slopes and approaches to most of the rivers and nullahs are long and easy and fit for cart traffic. A considerable pack-bullock trade passes along this line from and to Gurwah and Mirzapore and Benares. The road was superficially repaired over thirteen miles. Side drains were cleared out and damage to embankments, which had suffered from the heavy rain, repaired. The wing parapet walls of several culverts were also repaired. Total work 241,940 cubic feet earthwork, and 2,217 cubic feet of masonry, at a cost of Rs. 800.

Gurwah and Manjhewan Road, 14 miles.—Nine miles of this road are in very good order, the remaining five are indifferent owing to the undulating character of the ground. The pack-bullock trade along the road is very large and bridges are much wanted. Superficial repairs were carried out, and 175,500 cubic feet earthwork thrown up. Total cost Rs. 500.

Mijheewan and Jupla road, 26 miles.—This road crosses a country with a keywal soil for nearly the entire length. There is a heavy coal and timber traffic on it during the dry months, and in the rains the road becomes very boggy and much of the soil is washed away. There are several wooden bridges on the road but they are continually giving way. The road ought to be metalled and bridged to meet the requirements of the heavy traffic which it carries. Nineteen miles of the road are in fair order and the remainder indifferent. Twelve miles were repaired and jungle cleared; 302,795 cubic feet of earthwork at a cost of Rs. 800.

Lesligunge or Kote to Pankey (28 miles), towards Balumath.—This line of road was brought under repair during the recent famine. It meets the Balumath and Janjhu road at the latter place, and is a connecting link between Palamow and the district of Hazarecbagh. Eighteen miles of the road are complete, but little has been done to the remaining ten miles, which pass through much jungle and cross a heavy ghât, the latter of which will always be a great obstacle to traffic. There is very little traffic on the road, and the line is by no means an important one. The work carried out during the year consisted of drain-cutting, reducing slopes and gradients, filling in hollows, clearing jungle and roots, and superficially repairing 18 miles; 282,700 cubic feet earthwork at a cost of Rs. 800.

Oontari to Benares Road, 11 miles.—This road was taken up during the famine with a view to afford relief to the people in the Beloujah pergunnah, but now that Doodhi in the Mirzapore district has been created into a sub-division, and there is a good main road direct from that place to Mirzapore, this road is not likely to be much used. The line, too, is a very difficult one, crossing steep and difficult ghâts with many watercourses. During the year a small sum only was expended in repairing damage done in the preceding rainy season. Five miles were superficially repaired; hollows were filled up and embankments repaired, the total work being 184,256 cubic feet of earthwork at a cost of Rs. 500.

Works for the ensuing year.—It only remains to notice briefly the works which are contemplated during the year just commencing.

Budget-estimates in the prescribed form were submitted to the Commissioner with this office letter, No. 4 of the 3rd September 1875, and approved and confirmed by the Commissioner under his letter, No. 409T. of the 4th October.

A grant of Rs. 25,000 from the provincial reserve fund was made under Government order No. 364 of the 20th July last, and inclusive of this, the total amount available for expenditure during the current year is Rs. 29,877. No collections will be made under the Road Cess Act within the year, but nevertheless a large establishment will have to be kept up; and the estimates, after providing for this, as well as for public works establishments and general working establishments, show a balance available for roads of a sum only slightly in excess of Rs. 15,000.

The first work to be attended to is that of repairing and maintaining in fair weather order the existing lines of road which aggregate some 570 miles in length, and the expenditure has been allotted as set forth in the margin. In addition to this it is proposed during the current year to draw up plans and estimates for several bridges on those lines of road where they are most urgently required, so that they may be ready to be taken in hand during the following year, when it is hoped further funds will be available.

GANESH CHUNDER NIHATTEE,
Vice-Chairman, District Road Committee, Singbhoom.

(Sd.) W. H. HAYES, *Surgeon,*
Deputy Commissioner and Chairman.

No. 21, dated Purulia, the 25th February 1876.

From—LIEUT.-COL. B. W. MORTON, Deputy Commissioner of Manbhoom,
To—The Commissioner of Chota Nagpore.

I HAVE the honor to submit the following report on the work done on the roads under charge of the District Road Committee of Manbhoom for the cess year 1874-75.

2. As stated in my report, dated the 6th August last, there are 18 roads in this district, of which three are called first class, five are second class, and ten are third class roads. My own belief is that the roads in the second class are of equal importance as those in the first class, so that it may be said there are but two classes of roads under the Committee, and that in the first class there are eight roads and in the second class ten roads.

3. The relief operations in the district led to a great deal of desultory work in the way of road-making, the primary object not being the making of roads, but the finding of work for people who might otherwise have starved.

4. A great deal of money was spent in attaining this object, and was so far well spent; but so far as my information goes, I am not aware that a single road under the Committee is in a complete state.

5. The means of the Committee are limited, and it will be many years before they can hope to complete all the roads under their charge. As I have elsewhere reported, I think it would be a saving in the end to borrow a sufficient sum, and to complete or at any rate to put into a safe condition all the works undertaken during the famine.

So long as these works remain in their present condition there will be a fear that the money already spent on them will be more or less lost, owing to the action of water, the growth of jungle, and the thoughtlessness of cultivators.

6. I have the honor to annex a statement showing the work done and the expenditure incurred on 16 of the 18 roads under the Committee during the year. You will observe that of the expenditure a sum of Rs. 44,398-15-2 represents the value of part of the surplus famine rice made over to the Committee. The remainder of this rice was spent in the previous year. It would have been a good thing could it have been arranged to have expended this rice on one road; but this was found impossible. The contractor to whom the greater portion of the rice was made over by my predecessor explained that he had distributed the rice in different parts of the district, and that those who had received it in advance could not be concentrated on one road.

7. During the year a sum of Rs. 7,000 was taken in loan from Government for the purpose of turfing embankments. This money was duly expended for this purpose, and it is believed that a great deal of waste has thereby been prevented.

8. During the current year, I may remark that the Committee has arranged to complete two entire roads (Purulia to Bankoora, Purulia to Govindpore) and to push on with a third road (Purulia to Manbazar) so far as the funds will admit of its so doing. Repairs to the completed portion of the Bankoora road and to the station roads, which will cost in all some Rs. 3,500, are also in hand.

9. The regular accounts of income and expenditure (in duplicate) were submitted to you with this office memorandum No. 907, dated the 7th December last.
